Ideal for commercial applications with 2' x 2' fixtures

Philips Energy Advantage T8 U-Bent Lamps
Rated Average Life

1) Average life under specified test conditions with lamps turned off and restarted no more frequently than once every 3 operating hours. Lamp life is appreciably longer if lamps are started less frequently.

2) Average life under engineering data with lamps turned off and restarted once every 12 operating hours.

▶ Full Line of 6" Leg Spacing FB32T8 Lamps

–Range of color temperatures (3000K to 5000K)

▶ Outstanding Lumen Performance

HI-VISION® Phosphor delivers:

- 95% lumen maintenance
- 85 CRI for TL830, 835, and 841 lamps
- 84 CRI for TL850 lamps
- 75 CRI for TL730, 735, 741, and 750 lamps

▶ Sustainable Lighting Solution

Reduces the impact on the environment

- Low mercury
- Energy efficient

▶ Philips T8 U-Bent Warranty Period: 24 Months

1) Average life under specified test conditions with lamps turned off and restarted no more frequently than once every 12 operating hours. Lamp life is appreciably longer if lamps are started less frequently.

2) Approximate initial lumens. The lamp lumen output is based upon lamp performance after 100 hours of operating life, when the output is measured during operation on a reference ballast under standard laboratory conditions.

3) Design lumens are the approximate lamp lumen output at 40% of the lamp's rated average life. This output is based upon measurements obtained during lamp operation on a reference ballast under standard laboratory conditions.

† This lamp is better for the environment because of its reduced mercury content. All Philips ALTO® lamps give you end-of-life options which can simplify and reduce your lamp disposal costs depending on your state and local regulations.
