Recessed

EvoGrid

# Change within reach

The Philips Day-Brite / Philips CFI EvoGrid recessed architectural LED combines style and affordability so that you can create comfortable, energy-efficient spaces within reach of your budget. The attractive 2x2 and 2x4 configurations and three color temperatures complement any décor without distraction, thanks to a single lens enclosure and stylish, modern architectural aesthetics, yet are priced similarly to specification grade fluorescent luminaires. EvoGrid makes it easy to transition into dimmable LED technology, with high energy efficiency that can reduce payback periods; while the SpaceWise integrated wireless control option provides further energy savings that may qualify for additional rebate incentives.

# EvoGrid recessed architectural LED

## Features

- Reliable performance up to 120 LPW
- Standard 0-10V dimming and optional integrated occupancy and daylight harvesting sensors
- Attractive single lens enclosure and modern architectural aesthetics
- Convenient luminaire access to LED boards from below
- 2.75" deep housing requiring minimal plenum space
- EvoGrid luminaires are DesignLights Consortium® qualified. Please see the DLC QPL list for exact catalog numbers (<http://www.designlights.org/QPL>)
- cETLus listed for damp locations

## Benefits

- LED luminaires that complement any décor within budget and without distraction
- Energy- and cost-savings compared to dimmable fluorescent recessed luminaires
- Further enhance savings with (SpaceWise) integrated wireless control option
- Simple installation and negligible maintenance reduces labor and maximizes savings
- Upgradable as future requirements change

Grainger Item Number	Manufacturer Model Number	Short Description
45KJ03	2EVG30L840-2-D-UNV-DIM	LED Recessed Troffer, 2x2, 4000K, 30W
45KJ04	2EVG43L840-4-D-UNV-DIM	LED Recessed Troffer, 2x4, 4000K, 41W
45KJ05	2EVG54L840-4-D-UNV-DIM	LED Recessed Troffer, 2x4, 4000K, 55W
45KJ06	2EVG74L840-4-D-UNV-DIM	LED Recessed Troffer, 2x4, 4000K, 83W

Additional sku configurations available through Grainger Sourcing

## Ordering guide

## Footnotes

- Not available in all lumen packages. See specification sheets for details.
- XDIM requires 120V or 277V specification.
- OCC option allows individual auto shutoff per luminaire and is not recommended for applications with multiple luminaires.
- DAY option requires manual light level calibration.
- SWZG2 option provides occupancy sensing suitable for rooms with multiple luminaires, along with daylight harvesting with auto-calibration. See spec sheets for more information.
- Must order IRT9090 SpaceWise handheld remote with each system order.

## Accessories (order separately)

- See individual spec sheets for accessories.
