**Note:** Options with the same color coding must be paired together.

- Nominal values within a range. Consult photometry data for CRI, color temp, lumens & distribution of chosen configuration.
- Not all wiring types or sensors are available with all configurations. Consult Ledalite for a complete list of available options.

### Connected systems

#### Interact Office Wired (PoE), Tunable White

- PoE based IoT connected lighting solution for large enterprises that span across multiple floors, buildings and require multiple gateways.
- Use Interact Office software and insights to increase building efficiency, achieve building wide integration and optimize space through occupancy analytics.
- Human centric lighting through tunable white technology - Dynamic behaviors via scheduled lighting recipes mimicking daylight patterns or supporting biorhythms.
- Supports advanced IoT Apps on Personal Control, Space Management, wayfinding, room/desk reservation and offers open APIs for light control and data exchange.

[www.interact-lighting.com/office](http://www.interact-lighting.com/office) or [www.usa.lighting.philips.com/systems/system-areas/offices](http://www.usa.lighting.philips.com/systems/system-areas/offices)

Note: Signify Interact Office Luminaires are not sold individually and are only compatible with Signify's Interact Office control system & software. The system requires a compatible back-end IT infrastructure for normal operations, please consult your Signify representative for additional information.

Lens View

## Cross Section View – Mounting Details

Standard T-Grid

Option D1 works with 9/16" flat T-Grid ceilings. It can also be used with slot T-Grid ceilings. For 9/16" slot T-Grid ceilings, fixture will sit 5/16" above bottom of T-Bar.

Slot T-Grid

Option D2 is designed to sit flush with slot T-Grid ceilings and some tegular tile ceiling types.

Ceiling Types

Integrated mounting tabs can be field-adjusted to various T-Grid ceiling heights for fastening directly to the T-Bar and/or tied off to the building structure.

1" T-Bar Height  
1-1/2" T-Bar Height  
1-11/16" T-Bar Height

# ArcForm recessed

## 2'x2' & 1'x4'

### Specifications

#### Optical System

A curved, fully luminous acrylic panel with a protected layer of MesoOptics film efficiently generates a controlled, low glare, 3-dimensional batwing distribution. Die-formed, cold-rolled steel ends are assembled together with extruded aluminum side profiles to form a sturdy optical frame. The frame is hinged to allow easy access to the inside of the fixture. Maintenance can be performed from below the ceiling.

#### Housing

Die-formed, post-painted, 22 gauge cold-rolled steel housing. Multiple wire entrances are available (top or side) to allow continuous row mounting of fixtures. Optional frame restraint is available to provide additional safety support.

#### Mounting

Compatible with lay-in acoustical ceilings using an exposed 9/16", 15/16" or slot T-grid suspension system (NEMA types G, NFG & NFGS). Integral mounting tabs are provided which handle different T-grid heights.

#### Finish

Housing and Frame: Post-painted, high quality powder coat. Available in white only.

#### Weight

Maximum 25lb.

#### Electrical

LED boards are easily field replaceable. Fixtures are factory pre-wired and tested for all circuits. Driver access from below the ceiling. Optional armored cable flex whips are supplied in 6' lengths.

#### Standard Driver

Advance Xitanium 0-10V, 1% dimming.

PoE Lighting Controller (for PoE tunable white).

Lutron EcoSystem LDE1, 1% dimming with Soft-on, Fade-to-Black.

Class 2 rated output. Consult Ledalite for other available drivers.

#### Standard Battery Packs

Bodine Battery Pack, 90 min, 10W, Class 2 rated output.  
Lumen output = 10W x luminaire efficacy x 1.1. Typical output 1100lm.

PoE Battery Pack, 90 min, 6W, Class 2 rated output.  
Lumen output = 6W x luminaire efficacy. Typical output 650lm.

#### Lumen Maintenance

LEDs have been tested by the manufacturer in accordance with IESNA LM-80-08. At an ambient temperature of 25°C, the LED lumen maintenance expectation according to IES TM-21-11 is:  
L80 (10k) >60,000 hrs (Reported methodology).

#### Source Color

LEDs rated for color rendering of:  
CRI >80 & R9 >0  
CRI >90 & R9>50

Fixture to fixture color accuracy within:  
2 SDCM for Static White luminaires  
3 SDCM for Tunable White luminaires

#### Controls

Available with the following integrated controls: Response daylight sensor (for single zone).

#### Approvals

Certified to UL, IES & CSA Standards. City of Chicago Approved CCEA (housing option C). Type IC Rated. Certain versions without battery packs are DesignLights Consortium® qualified. Please see the DLC QPL list for exact catalog numbers, [www.designlights.org/QPL](http://www.designlights.org/QPL).

#### QuickShip

Available for most non-connected configurations upon request. More information available at: [www.signify.com/en-us/brands/ledalite/quickship](http://www.signify.com/en-us/brands/ledalite/quickship)

#### Warranty

Five-year luminaire limited warranty including LED boards and driver. [www.signify.com/warranties](http://www.signify.com/warranties).

#### Environment

Rated for dry or damp locations in operating ambient temperatures of 0-25°C (32-77°F). Many luminaire components, such as reflectors, refractors, lenses, and LEDs are made from various types of plastics which can be adversely affected by airborne contaminants. If sulfur based chemicals, petroleum based products, cleaning solutions, or other contaminants are expected in the intended area of use, consult factory for compatibility. Damage caused by sulfur, chlorine, petroleum based solution or other contaminants are not covered under warranty. Not suitable for natatorium environments.
