Highlights

Disinfect your home from germs

All bacteria and viruses tested to date respond to UV-C disinfection. In laboratory tests, our UV-C light sources reduced SARS-CoV-2 (the virus that causes COVID-19) infectivity on a surface to below detectable levels in as few as 9 seconds

Simple to Use

The Philips UV-C desk lamp is easy to use. With a concise control panel and step-by-step voice guide to help you use it in the most effective way.

Fast disinfection

With the Philips UV-C desk lamp you can disinfect surfaces and objects in any room in a matter of minutes

Motion Sensor

Because exposure to UV-C can harm eyes and skin, Philips UV-C lights have an added layer of protection with built-in sensors that detect people and pets

Expertize

Philips has 35+ years experience in UV-C lighting and strong application expertize.

Dedicated driver design

Besides the high quality of the Philips UV-C tube, the dedicated driver design helps maximize the disinfection effectiveness.
