Introducing FlexFit (dual-mode) T8 LED Lamps by Philips. It works as either a plug-and-play (UL Type A) or ballast bypass (UL Type B) lamp. As a Type A lamp, it is compatible with a variety of ballasts. If a ballast is not desired or fails in the field, the lamp can quickly be installed as a double-ended ballast bypass lamp.

Benefits

- **FlexFit** is one lamp for two applications and works as either a UL Type A or UL Type B lamp
- **Over 40% energy savings** versus linear fluorescent lamps for continuous savings¹
- **Lifetime delivered** of a 50,000 hour average life rating of 50,000 hour rated life²
- **5-year limited warranty** with full replacement and unlimited daily burn hours ensuring you are completely covered³
- **Simple Installation** with plug-and-play or double-ended options for the simplest and quickest installation in either configuration
- **Light quality and performance predictability** with consistent light output and no visible flicker⁴ to satisfy every customer
- **Proven product history** from a company with a long history of innovation and reliability in the lighting industry

---

¹ Savings based on comparison to F32T8 electronic instant start systems (tested to B50 L70 requirement).
² LED lifetime means the length of time (in hours) until half of the LED light sources maintain at least 70% of their initial lumen output (B50, L70).
³ Modifications to the product void the warranty.
⁴ As measured per IEEE IEEE 1789-2015. SVM <1.0 is negligible.
Philips FlexFit LED lamps
