

Philips EvoKit is your tariff survival kit

Philips EvoKit's high energy efficiency, waste-reducing four-pack packaging and competitive pricing is not impacted by US/China Tariffs. The only thing increasing is your LED retrofit project's ROI.

Fast-track Project Payback

Looking to upgrade your fluorescent troffers to energy-efficient LED?

Fast-track project payback by selecting EvoKit. With its low price, reduced project scrap, and simple five minute installation, EvoKit is a more cost-effective solution for renovation projects than a full luminaire replacement. Payback starts on day one as EvoKit lowers operating expenses with energy efficiency of up to 149 lumens per watt. The kits are dimmable and sized to replace most 2'x4', 2'x2' and 1'x4' troffers with a sleek and modern look that will conveniently transform your workspace.

EvoKit 1x4

EvoKit 2x4

EvoKit 2x2
