

# LED AREA LIGHT

## Mount to 3 in. to 3.9 in. Poles

The LED AREA LIGHT mounting kit for 3" to 3.9" diameter round poles contains a small threaded back-up plate for placement inside the pole, and a curved adapter plate with through holes to transition the arm to a smaller diameter pole. Discard the larger threaded back-up plate, filler plate, and square pole adapter (shown below), packed with the LED AREA LIGHT luminaire.

**Mounting bolts and lock washers are packaged in the arm of the luminaire.**

Upswept Arm shown. Straight Arm cover opens from top.

Discard the Square Pole Adapter, the Filler Plate and the Large Threaded Back-Up Plate packed with the LED AREA LIGHT luminaire. They are not necessary for 3" to 3.9" round poles.

## POSSIBLE MOUNTING CONFIGURATIONS FOR 3.0" TO 3.9" DIAMETER POLES
