

GreenWarehouse – wireless lighting system, giving you control of energy savings

Maxos LED GreenWarehouse

This dedicated system makes it easy for warehouse developers and facility managers to achieve maximum energy savings. It seamlessly integrates state-of-the-art LED lighting with an easy-to-use and reliable networked control solution. When the situation on the work floor changes, settings such as dimming levels and timing can be changed wirelessly by the end-users themselves. Luminaires can be combined in groups across the layout, and re-zoning them does not require a hardware change, thus minimizing commissioning costs. The system delivers savings over and above the actual efficiency of the LEDs and is future-proof. Easy to understand, easy to design-in, and easy to use, the GreenWarehouse is simplicity itself.

Benefits

- Optimal operating costs for a low investment
- One system; works across other Philips product platforms – GentleSpace gen2, Maxos LED and Pacific LED
- Future-proof system: wireless adjustment of lighting settings and fast re-zoning if use of space changes

Maxos LED GreenWarehouse

Features

- Different lighting levels and timings can be set per sensor, group and network of luminaires
- No compromise on operators' safety, well-being and productivity
- Wireless re-zoning by the end-user
- Advanced sensor technology for effective presence detection, even from a great height
- The system is suitable for both new builds and retrofit installations
- Dedicated warehouse kits; via bundled orders

Application

- Storage
- Distribution centers
- Cross-docking facilities

Specifications

Type	LL850X (based on Maxos LED 4MX850)	Correlated Color 4000 K		
	- Long version (12 m): 4 units Maxos, 3 blind covers, 1 sensor		Temperature	
	- Short version (9 m): 3 units Maxos, 2 blind covers, 1 sensor			
	- For T5 and TLD sized trunking rail			
	LL400X (based on Maxos LED 4MX400 for TTX400 rail)			Color Rendering Index > 80
	- Long version (12 m): 4 units Maxos, 3 blind covers, 1 sensor			Median useful life L80B50 50,000 hours
	- Short version (9 m): 3 units Maxos, 2 blind covers, 1 sensor			Median useful life L90B50 25,000 hours
	- For T5 and TLD sized trunking rail			Driver failure rate 1% per 5000 hours
	LL883X (based on Maxos LED 4MX883)			Average ambient temperature +25 °C
	- Long version (12 m): 4 units Maxos (of which 1 with 3 hours 300 lumen Emergency lighting), 3 blind covers, 1 sensor			Operating temperature range -20 to +35 °C
	- Short version (9 m): 3 units Maxos (of which 1 with 3 hrs 300 lumen Emergency lighting), 2 blind covers, 1 sensor			Driver Built-in
	- For T5 and TLD sized trunking rail			Mains voltage 230 or 240 V / 50-60 Hz
	LL433X (based on Maxos LED 4MX433 for TTX400 rail)			Dimming Integrated dimmer
	- Long version (12 m): 4 units Maxos (of which 1 with 3 hours 300 lumen Emergency lighting), 3 blind covers, 1 sensor			Controls system input DALI
	- Short version (9 m): 3 units Maxos (of which 1 with 3 hrs 300 lumen Emergency lighting), 2 blind covers, 1 sensor			Options Emergency lighting: 3 hours (EL3), 300 lm
- For T5 and TLD sized trunking rail	Material Housing: steel Optical cover: PMMA			
Light source Philips Fortimo LEDline 3R	Color White (WH)			
Power (+/-10%)	4 units: 218 W	Optic Narrow beam (NB)		
	3 units: 163 W	Installation Reutlinger or surface mounting brackets New or Retrofit to Maxos/TTX400 installations Through-wiring possible		
Luminous flux	Long version: 26,400 lm	Remarks Maxos LED GreenWarehouse can only be ordered as a system via kits Remote control and guide come with each shipment		
	Short version: 19,800 lm

Product details

DALI cabling with C2R connectors for signal from Actilume Wireless to luminaire

High-bay sensor with Actilume Wireless DALI controller

Maxos LED GreenWarehouse gear tray with internal DALI cabling

High-bay sensor with Actilume Wireless DALI controller

DALI cabling with C2R connectors for signal from Actilume Wireless to luminaire

Maxos LED GreenWarehouse gear tray with internal DALI cabling

Application Conditions

Ambient temperature range	-15 to +35 °C
Average ambient temperature	25 °C
Maximum dim level	1%
Suitable for random switching	Yes (relates to presence/movement detection and daylight harvesting)

Approval and Application

Mech. impact protection code	IK02
Ingress protection code	IP20

Controls and Dimming

Dimmable	Yes
----------	-----

Operating and Electrical

Input Voltage	220 to 240
---------------	------------

General Information

CE mark	CE mark
Protection class IEC	Safety class I (I)
Optical cover/lens type	PM
Driver included	Yes
ENEC mark	ENEC mark
Glow-wire test	650/5
Lamp family code	LED66S
Embedded control	ACW
Light source replaceable	No
Optic type	NB

Initial Performance (IEC Compliant)

Initial LED luminaire efficacy	121
--------------------------------	-----

Over Time Performance (IEC Compliant)

Driver failure rate at 5000 h	1
Median useful life L80B50	50000
Median useful life L90B50	25000
