

Comprehensive range of connected solar street lights up to 13,500 lumens.

RoadFlair Solar

A comprehensive range of solar street lights upto 13,500 lumens, with upto 170 lm/w efficacy. Suitable for major roads, motorways and parking areas. configurable dimming profile and load wattage.

Benefits

- Brings light to areas without access to electric grid
- Preserves landscape as no trenching for cabling required
- Environment friendly
- Sturdy construction for long life
- Saves energy
- Smart-city-ready for sustainable cities
- High efficacy reduces cost per light point by reducing battery and panel size

Features

- High luminous efficacy of up to 170 lm/Watt.
- Pressure die-cast aluminium housing for sturdiness and excellent thermal management
- Compatible with multiple battery types (LiFePO4, LMLA GEL)

Application

- Highways
- Road
- Street
- Parking
