# OptiVision MVP507

## ZVP507 SAD

OPTIVISION

Optivision is an asymmetric downlighting luminaire that combines compact dimensions with very high efficiency. Available with narrow, medium and wide beams for flexibility in application, it provides excellent control of spill light and limitation of glare and upward leakage of light. Optivision can accommodate metal-halide lamps for good colour rendering or high-pressure sodium lamps for economical operation. Excellent spill-light control, limitation of glare and upward leakage of light is secured by asymmetric optics that achieve peak intensity at 60º and a sharp cut-off of light at 80º. The MHN-LA/FC lamps guarantee pleasant and natural colour rendering and comfortable atmosphere.
