TubePoint GEN2 Large - LED module 54000 lm - 740 neutral white - Power supply unit with DALI interface - Safety class I - Distribution symmetrical medium 11 - Dark Grey - -

Many tunnel authorities have an outdated tunnel-lighting installation that urgently needs to be replaced, but have only limited budget available. We are able to fulfil their requirements. TubePoint GEN2 is the result of years of experience in tunnel lighting combined with the latest technologies developed by Philips. With its modular design and modern LED architecture, TubePoint GEN2 is a versatile, cost-effective luminaire that meets the most stringent tunnel-lighting requirements. It is made of highest-quality components that are dedicated for tunnels, thus ensuring a long lifetime, good performance and low maintenance costs. The efficiency and wide choice of optics means that the number of luminaires can be reduced significantly compared with a conventional solution. And a high lumen per watt ratio at system level improves the total cost of ownership. TubePoint GEN2 is part of Philips' TotalTunnel solution for a complete tunnel lighting.
