

OccuSwitch DALI

LRH2070/00 Surface Box

OccuSwitch DALI is a combined sensor and controller and will dim and switch the lights in a room or area upon occupancy and according to the available daylight, with options for local override, parallel operation and network links to Building Management Systems (BMS). Can control up to 15 DALI luminaires and is easy to install, requires limited commissioning, if any. With optional extension sensor(s) (LRM8118) and push-button interface(s) (LCU2070). Separate Wieland cables available for easy, fast and trouble-free installation.
