

# Dynalite System Integration

## DDNG-BACnet J-8025 Platform N4

Within any modern project, many third-party systems can be found performing different roles. Each separate system may use a different protocol for communication. Philips Dynalite has developed a range of gateway devices that can be used to synchronize these systems' functions into one integrated system solution. By utilizing the correct gateway, different systems can be integrated, allowing end-users access to a fully automated site from one interface. By successfully integrating third-party systems with a Dynalite solution, repetitive end-user interaction is reduced.

### Product data

# Dynalite System Integration

## General Information

**Remarks** Please download the Lighting - Product Data Sheet for more information and ordering options

## Application Conditions

**Ambient temperature range** -20 to +50 °C

## Product Data

**Full product code** 871869688835300

**Order product name** DDNG-BACnet J-8025 Platform N4

**EAN/UPC – product** 8718696888353

**Order code** 913703247009

**Numerator – quantity per pack** 1

**Numerator – packs per outer box** 1

**Material no. (12NC)** 913703247009

**Net weight (piece)** 403.000 g
