

# Dynalite System Integration

Within any modern project, many third-party systems can be found performing different roles. Each separate system may use a different protocol for communication. Philips Dynalite has developed a range of gateway devices that can be used to synchronize these systems' functions into one integrated system solution. By utilizing the correct gateway, different systems can be integrated, allowing end-users access to a fully automated site from one interface. By successfully integrating third-party systems with a Dynalite solution, repetitive end-user interaction is reduced.

## Données du produit

Renseignements généraux		Conditions d'utilisation	
Remarques	Please download the Lighting - Product Data Sheet for more information and ordering options	Plage de température ambiante	-20 to +50 °C
Données de produit			
Nom du produit de la commande	DDNG-BACnet J-8025 Platform N4		

## Dynalite System Integration

<b>EAN/CUP – Produit</b>	8718696888353
<b>Local Code</b>	.
<b>Numérateur – Quantité par emballage</b>	1
<b>Numérateur – Emballages par boîte extérieure</b>	1

<b>Numéro de matériau (12NC)</b>	913703247009
<b>Poids net (pièce)</b>	403,000 g
