

## EU Declaration of Conformity

Document No.: Document No.: Philips Hue Camera  
Year in which CE Mark was first affixed: 2023

### 1. Product Range / Model:

|                        |                                                                                                                                                   |
|------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------|
| Product Range / Model: | <b>NAME:</b> Hue Camera<br><b>DESCRIPTION:</b> Hue Camera<br><b>Model:</b> 9290035625, 9290035626, 9290042584, 9290042586, 9290042585, 9290042587 |
|------------------------|---------------------------------------------------------------------------------------------------------------------------------------------------|

### 2. Manufacturer Name & Address:

**Signify**  
I.B.R.S./C.C.R.I. /Numéro 10461  
5600 VB Eindhoven, The Netherlands

### 3. This declaration of conformity is issued under the sole responsibility of the manufacturer.

### 4. Object of the declaration:

|               |     |
|---------------|-----|
| Product Code: | N/A |
|---------------|-----|

**5&6. The object of the declaration described above is in conformity with the following relevant Union harmonization legislation and with the applicable requirements of the following harmonized standards and technical specifications:**

#### Radio Equipment Directive(RED), 2014/53/EU

|                          |                                                                                                                                                                                                                                                              |
|--------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| EN 62311:2020            | Assessment of electronic and electrical equipment related to human exposure restrictions for electromagnetic fields (0 Hz - 300GHz)                                                                                                                          |
| ETSI EN 300328 V.2.2.2   | Wideband transmission systems; Data transmission equipment operating in the 2,4 GHz band; Harmonised Standard for access to radio spectrum                                                                                                                   |
| ETSI EN 301893 V.2.1.1   | 5 GHz RLAN; Harmonised Standard covering the essential requirements of article 3.2 of Directive 2014/53/EU                                                                                                                                                   |
| ETSI EN 301489-1 V2.2.3  | Electromagnetic compatibility and Radio spectrum Matters(ERM); ElectroMagnetic Compatibility (EMC) standard for radio equipment and services; Part 1: Common technical requirements                                                                          |
| ETSI EN 301489-17 V3.3.1 | Electromagnetic compatibility and Radio spectrum Matters(ERM); ElectroMagnetic Compatibility (EMC) standard for radio equipment; Part 17: Specific conditions for Broadband Data Transmission Systems                                                        |
| EN 18031-1: 2024         | Common security requirements for radio equipment - Part 1: Internet connected radio equipment                                                                                                                                                                |
| EN 18031-2: 2024         | Common security requirements for radio equipment - Part 2: radio equipment processing data                                                                                                                                                                   |
| EN 62368-1:2014/AC:2015  | Audio/video, information and communication technology equipment - Part 1: Safety requirements                                                                                                                                                                |
| EN 55032:2015/A11:2020   | Electromagnetic compatibility of multimedia equipment - Emission Requirements                                                                                                                                                                                |
| EN 55035:2017/A11:2020   | Electromagnetic compatibility of multimedia equipment - Immunity requirements                                                                                                                                                                                |
| EN 61000-3-2: 2014       | Electromagnetic compatibility (EMC) - Part 3-2: - Limits for harmonic current emissions                                                                                                                                                                      |
| EN 61000-3-3: 2013       | Electromagnetic compatibility (EMC) - Part 3-3: - Limits - Limitation of voltage changes, voltage fluctuations and flicker in public low-voltage supply systems, for equipment with rated current ≤ 16 A per phase and not subject to conditional connection |

#### EcoDesign requirements for energy-related products Directive (ErP), 2009/125/EC and applicable Implementing Measures

COMMISSION REGULATION (EC) 1275/2008 and amendment COMMISSION REGULATION (EU) No 801/2013

#### Restriction of the use of certain Hazardous Substances in electrical and electronic equipment Directive (RoHS), 2011/65/EU

EN IEC 63000:2018

Packaging and Packaging Waste Regulation (PPWR), (EU) 2025/40

**7. Additional information: The products in this declaration are produced under a quality scheme at least in conformity with ISO 9001 or CENELEC permanent documents.**
