

Interact

Interact for installers

Easy. Effective. Smart.

Meet Interact – a smart, wireless luminaire level lighting control system (LLLC).

No extra cables. Fast commissioning. Substantial energy savings. Interact has it all.

Why choose Interact?

Luminaire level lighting controls

Make installation and ordering easy with 1:1 replacements of fluorescent to LED fixtures with integrated smart sensors.

Save costs with seamless retrofits

Eliminate the need for extra wiring with built-in ZigBee and Bluetooth connectivity across fixtures, retrofit kits and lamps.

Easy setup, operation and maintenance

Effortlessly execute and manage projects with fast commissioning, an intuitive app, configurable sensor parameters and remote diagnostics.

Digital, flexible and upgradeable

Every light is digitally addressable, providing the flexibility to create logical lighting groups and zones and perform system updates through the gateway.

Standalone or networked

Operate lights in a standalone mode or connect to a gateway to access more benefits.

Up to 80% installation savings¹

Compared to installation costs of wired systems

Up to 5 min faster setup time²

Compared to similar wireless systems

Less than 2 year payback

Implement deep energy-saving strategies and claim utility rebates

1.8x more energy savings

Compared to conventional control systems

Up to 2x utility rebates

Network Interact ready devices and get more utility rebates⁵

1. Versus legacy systems based on installer interviews.
2. Based on installer analysis done by Signify for a typical multi-zone space as compared to other wireless solutions in the market.
3. Average estimation, can vary based on rebates and product types.
4. 1 DLC report 2018
5. Utility programs across US

Unlock additional benefits with Interact

Automate paperwork

Download detailed installation reports and streamline record-keeping with the Interact Gateway.

Safeguard customer data

7+ layers of security framework. Signify policies and processes are aligned with global standards such as ISO/IEC 2700x— Information Security Management Systems and the ISA/IEC 62443 standards suite for product development. Signify is also IEC-62443-4-1 certified.

Easy site maintenance

Remotely manage and monitor projects without impacting your bottom line.

Design flexibility

Supported in a broad portfolio of LED lamps, retrofit kits and luminaires – all from one manufacturer.

Proven at scale

Interact software powers multiple applications such as offices, schools, warehouses, cities, airports, and many more.

80 million+
light points
installed globally
