

interact

Easy. Effective. Smart. Extending Interact to parking areas

Smart, wireless, outside

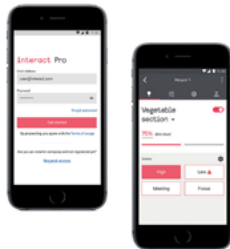

Interact is a cost-efficient wireless solution for every step of your smart lighting journey.

Interact ready smart lighting creates a more comfortable experience, while boosting energy savings to meet sustainability targets.

The system is scalable, ensuring it will meet your needs now and in the future.

Features

- No additional wiring required during installation.
- Motion, daylight sensing and grouping can be done right out of the box.
- A gateway can be added at any time for additional features, such as scheduling and remote management.
- Set up is simple and can be done from your smart phone.
- Interact delivers a consistent experience between indoor and outdoor lighting control.

Start simple with a standalone system

- Smart lighting with luminaire integrated occupancy and daylight sensor.
- Save up to **80%** on installation and material cost compared with more complex systems.¹

1. Compared to wired networked lighting control systems.

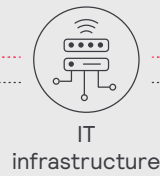

Add a gateway for more benefits

- Boost energy savings up to **85%**.
- Get access to a software dashboard.
- As your system grows, you can keep and build on all previously installed light points.

How it comes together

Gateway + IoT

Wireless gateway

Wireless gateway

Gateway

Standalone

Interact Pro app

Commissioning remote

Wireless switch relay controller
(plug load, relay, dimming)

Luminaires with wireless integrated sensor

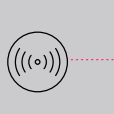

0-10V control module

Phase dimming module

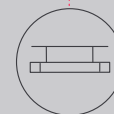

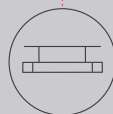

Wireless wall switch

External battery powered sensor

Smart LED lamp

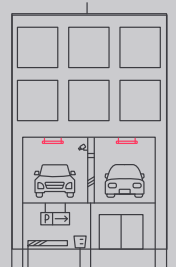

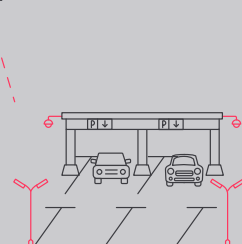

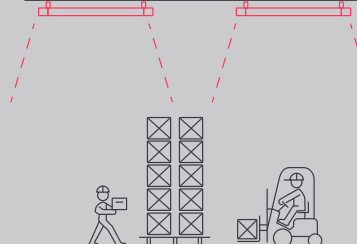

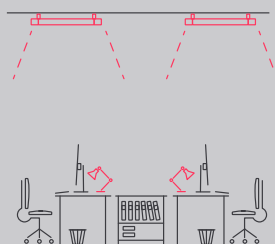

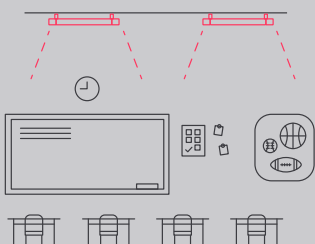

Wireless repeater and controller for exterior applications

Site & area luminaire with sensor

Parking garage luminaire with sensor

Outdoor luminaire compatibility

Gardco SoftView
parking garage
