

Professionals count on the NEW LuxSpace Elite CRI90 Downlight

Today's businesses strive to optimise the performance of energy resources to reduce operating costs and meet sustainability targets. Energy savings are a definite priority and can be implemented in ways that still create ideal office environments in which employees can be their most productive, or comfortable surroundings in which customers can enjoy shopping experiences.

Philips LuxSpace luminaires provide the perfect balance of light comfort, functional design, and energy efficiency without compromising lighting performance (colour rendering and colour uniformity).

LuxSpace offers a variety of options for creating the desired ambience, no matter the application. Additionally, the feeling of health and wellbeing in office environments is further supported through the inclusion of tunable white variants in the range.

- CRI90 / R9 ≥ 50
- ✓ UGR <19 low Unified Glare Rating providing light comfort
- 3 colour temperatures and 'tunable white' for perfect ambience
- Available in four cutout sizes from 100-200mm with flux of 600-2000lm provides flexibility in lighting design
- 90,000hrs/L85 (Based on TM-21 Estimated Lumen Maintenance) - 5 year warranty
- Comes pre-installed with flex & plug for ease of installation

- CRI90 / R9 ≥ 50
- • 3K, 3.5K, 4K CCT's
- ■■■ Four cutout sizes
 - 90,000hrs/L85 (Based on TM-21 Estimated Lumen Maintenance)

Specifications - LuxSpace Elite CRI90

MODEL	LUXSPACE DOWNLIGHT (DN5xxB)				
Туре	DN588B LED6	DN589B LED10	DN590B LED15	DN591B LED15	DN591B LED20
Rated Power (W)	7.7	11.7	15.8	14.7	20
System Lumens (min. lm)	648	1108	1551	1634	2139
System Efficacy (lm/W)	84.2	94.7	98.2	111.2	107.0
Colour Temperature	3000K / 3500K / 4000K, Tuneable White*				
Mounting type (Cutout)	Recessed, 100mm	Recessed, 125mm, 150mm	Recessed, 125mm, 150mm	Recessed, 200mm	Recessed, 200mm
Input Voltage	220-240V, 50/60Hz				
Electrical Class	Class II				
Driver Type	DALI				
Rated Lifetime	90,000hrs/L85 (Based on TM-21 Estimated Lumen Maintenance)				
Electrical Connection	Flex & Plug supplied				
SDCM	SDCM < 3				
CRI	CRI90 / R9 ≥ 50				
IP / IK rating	IP20, IP54 (available in LED10, D125 and LED15, D150)				
Material	Housing: diecast aluminium				
Reflector	C (Facetted, specular), M (Matte, aluminium, ETO = Engineered To Order, available on request)				
Housing Colour	RAL 9003 White				
Warranty	5 Years				
Unified Glare Rating	UGR 19				

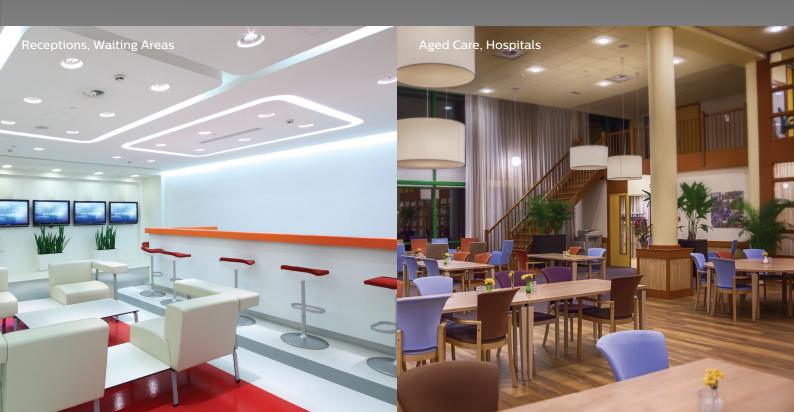

^{*}Coming Soon

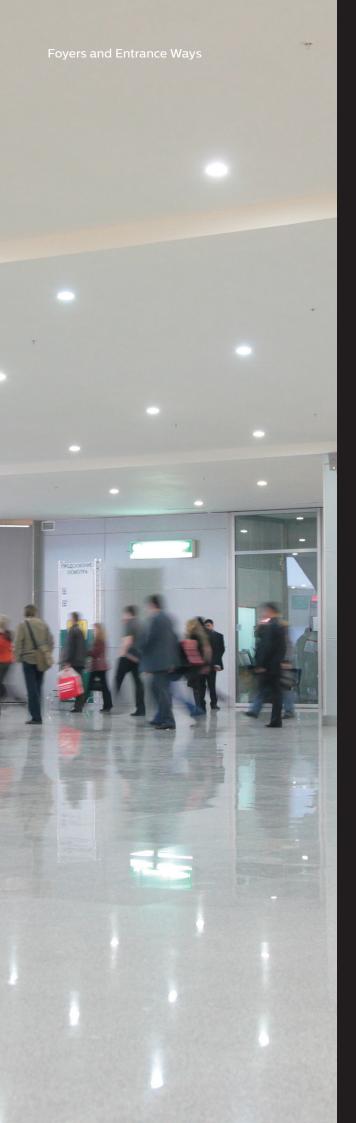

Flicker free

Philips Office Elite Products utilise industry best LED drivers that deliver flicker¹ free performance and no stroboscopic effect².

1 Additionally the Dali standard specifies 8 bit (256 discrete light levels) that can introduce the appearance of Flicker during transitions (dynamic dimming). Dimming performance is improved with Elite Luminaires by the addition of further bits totalling 32,000 (15bit). These interpolated dimming levels protect against flicker artefacts during light level transitions.

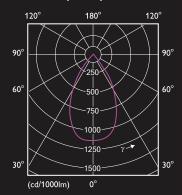

² In the absence of compulsory standards Philips Lighting opted to use the accepted test methods according to IEC TR 61547-1 [1] (Flicker) and IEC TR 61547-1 [5] (Stroboscopic Effect) with the following limits: $PstLM \le 0.5$ and $SVM \le 1$.

Control Options

Dali A reliable constant current Dali Driver is supplied standard with the LuxSpace Elite, to provide the stable lumen output and light quality that lighting specifiers and architects' demand. The dimming range is between 1-100%, the nominal life is 50,000 hours, and the driver interfaces with DALI and Touch & Dim control systems.

Lighting control made easy with Dynalite The Philips Dynalite control platform benefits from 30 years of experience in delivering superior lighting control solutions. Dynalite manages all DALI luminaires, Tunable White recipes to create better environments, and occupancy strategies to maximise the efficiency of workspaces. This takes place seamlessly through multiple control components and the distributed intelligence defining relationships within the system architecture. Reporting and monitoring of the network via Dynalite System Manager software not only provides insights into the operation but also DALI reporting – giving the client the necessary tools to effectively manage the intelligent building.

Tunable WHITE (DALI 2009) Human Centric Lighting can lead to enhanced concentration and increased productivity. When indoor lighting is matching natural circadian rhythms, this can enhance a sense of well-being, and Melanopic Light can be shown to improve sleep patterns. The CCT range is (2700°k to 6500°k). The Tuneable White concepts are set to revolutionize the way we work.

Turn your **working** environment into a **smart office**

interact Office

Support employee performance and reduce time wasted with the Interact Office software and system architecture. This will help employees find free meeting rooms or an available workspace and enable them to personalise their lighting. Then use occupancy insights to see where and how people prefer to work, opening your eyes to potential for energy and space savings and efficiency gains. Simply install LED connected lighting from Philips with embedded IoT sensors, and use interact Office software and insights to increase building efficiency and optimize space to create a sustainable smart office. Turn your working environment into a smart office.
