The new LED strips benchmark

The right LED strips can transform any location giving it a modern look and sophisticated flair. The new LED strips from Philips offer you a wide choice of high-quality lighting that fits diverse applications and budgets. So, whether it's the CorePro LEDstrip for great value-for-money performance or the MASTER LEDstrip with superior light quality and even more choice, you have the quality, reliability and installation ease you expect from Philips.

A wide portfolio of matching electronic components and accessories gives you the flexibility to meet every customer demand and application requirement. Including the possibility to integrate the LED strips into a smart lighting system like Interact – simply add the Interact Ready RF connector and a DALI LED transformer.

System components
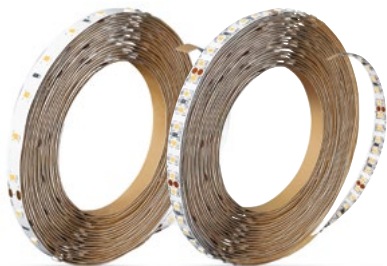

LED strips

- Color temperatures from 2,700 to 6,500 K
- Luminous flux from 270 to 2,500 lm/m
- Connected capability – use Interact Ready kit* to integrate in smart lighting system
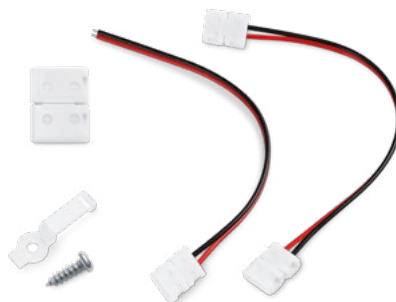

Accessories

- Different connectors available (corner, tape-to-tape, tape-to-wire)
- Mounting clips

Constant voltage LED transformers

- Dimmable DALI
- ON/OFF
- Stable output voltage
- Wide ambient temperature range
- Protection against overpower

Make your LED strip smart!

Philips MASTER and CorePro LEDstrips can also be used with the smart Interact system for even more personalization and optimization of your lighting installation. The Interact Ready LED strip kit* consists of:

interact
ready.

Interact Ready RF connector   +   **DALI LED transformer**   +   **Philips LED strip**

*Consisting of Interact Ready RF Connector, DALI LED Transformer and LED strip.
  All products are available as seperate commercial selling units

Performance runs in the family

LED strips should not only fit their surroundings, but budgets and plans as well. That's why Philips LED strips come in two families: MASTER and CorePro. Each offers exceptional lighting with energy efficiency and installation ease, while giving every location its own, unique touch.

MASTER LEDstrip

Value and features:

Need exceptional lighting that offers diverse brightness and color options and more sustainable and smart performance? Then make the MASTER family part of your perfect solution.

- Superior light quality (CRI 90, SDCM ≤3)
- Five different lumen outputs (500–2,500 lm/m at 4000 K) and four color temperatures (2,700–6,500 K) to fit a large variety of different applications
- Connected capability – use Interact Ready kit to include in smart lighting system
- Easy installation
- Hassle-free planning thanks to flexible 5 m length and cut size of only 5 cm
- Extremely durable: 60,000 hours lifetime and 5 years warranty*
- IP20 rating

CorePro LEDstrip

Value and features:

Looking for reliable, value-for-money LED strips that are slim, bright and ready to meet everyday lighting demands while saving more? Welcome to the CorePro family!

- Very good quality of light (CRI 80, SDCM ≤5)
- Four different lumen outputs (300–1,600 lm/m at 4000 K) and four color temperatures (2,700–6,500 K) for greater variety in different applications
- Connected capability – use Interact Ready kit to include in smart lighting system
- Easy installation
- Hassle-free planning thanks to flexible 5 m length and cut size of 10 cm
- Durable: 35,000 hours lifetime and 3 years warranty*
- IP20 rating

Outstanding in every application

Whether retail, hospitality or office spaces, Philips LED strips let every location shine in the light it deserves. Different color temperatures and up to five luminous fluxes give you the tools you need to create the right atmosphere for every demand – from energizing office to atmospheric restaurant lighting, luxurious retail experiences to relaxing hotel stays. Just right for all applications where people should feel comfortable and welcome.

Retail

Hospitality

Office

General lighting

Enjoy bright, welcoming light that adds to any atmosphere while providing the energy efficacy that is necessary for locations where lighting is on a great part of the day. Both Philips CorePro and MASTER LEDstrips offer luminous fluxes of 1,000 to 2,000 lm/m that are ideal for general lighting.

Ambient lighting

Create the right accent lighting with subdued lighting nuances: Philips LED strips come in luminous fluxes from 300 to 700 lm/m and four white light colours. A dimmable transformer lets you create even more atmospheric notes.

Cove lighting

Get the cozy, indirect lighting that sets the right accents in all areas where an intimate and private atmosphere is desired. Luminous fluxes from 500 to 1,000 lm/m are available in both ranges.

# Easy installation from start to fantastic finish

Both Philips MASTER and CorePro LEDstrips offer easy and flexible out-of-the-box installation for a long lifetime of energy savings, reliability and robust durability.

- Easy handling and wiring
- Pre-wired
- Self-adhesive tape for simple mounting on most smooth surfaces
- Easy to select correct LED transformer and dimmer with the simple rule: LED strip load must not exceed 90% of maximum transformer rated power.

See separate installation instructions for more detailed information

Dimensions

LED strips

❶ **Corner connector**

❷ **Tape-to-tape connector**

❸ **Tape-to-wire connector**
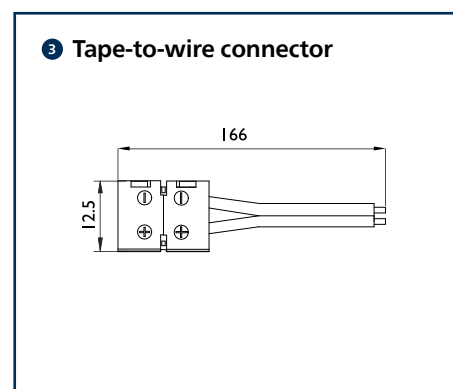

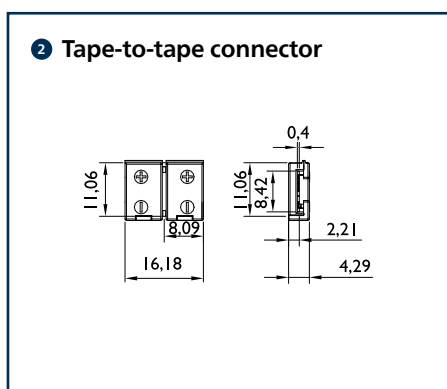

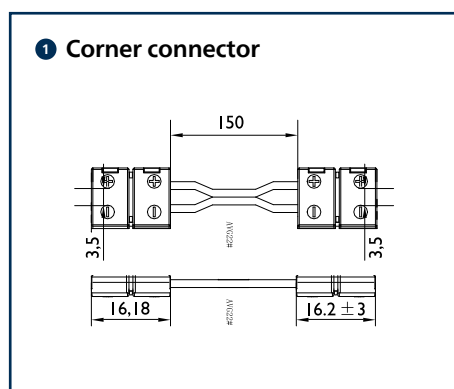

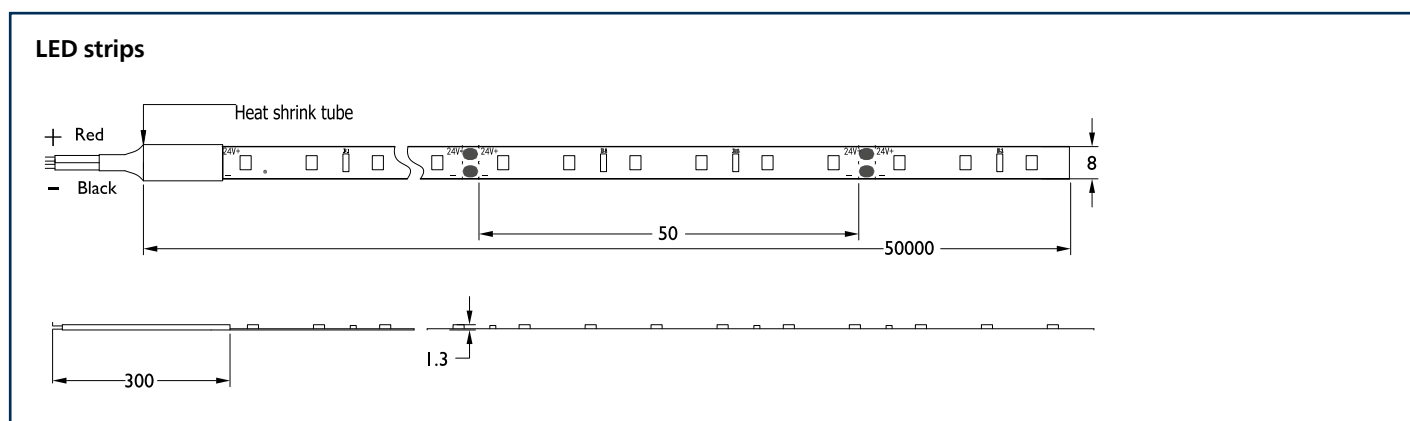

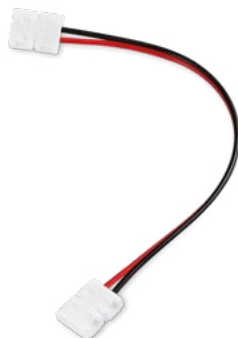

Attention: when using connectors please take account of the limitation on maximum length of tape. Never exceed 2A or 48W for a series connection. Detailed information can be found in the installation manual.
