

# Philips Dynalite System Builder

## Fast and efficient lighting control system set-up

Designed with the system installer and integrator in mind, System Builder is a comprehensive platform from Philips Dynalite. This user-friendly and intuitive application sets a new benchmark for efficient lighting control system set-up.

# Philips Dynalite System Builder

## Fast and efficient lighting control system set-up

- New and improved set-up templates Provides a simple and intuitive interface for access to advanced system functionality, allowing flexibility to modify, customize or create specific tasks if required.
- Faster commissioning times Includes a series of common device settings based on typical lighting control scenarios. Tailor to your project, save and replicate across other sites as required.
- **Virtual panel** Control any area of the system directly, run sequences and test final operations.
- Complex functionality made simple Manage logical grouping of lamps and other system hardware elements using simple graphical representations.

- Maintenance made easy Print out project floor plans with fixture details, including DALI addresses, to facilitate maintenance planning.
- Live data details The status of each lamp is visually represented using icons, which change color to reflect current lighting levels.
- Monitor the whole system Inbuilt network monitor details and logs all Philips Dynalite network traffic, as well as DALI network traffic.

#### **Specifications**

Due to continuous improvements and innovations, specifications may change without notice.

#### **Software Requirements**

Microsoft NFT	Version 4.8 or later
	Windows 10
Operating System	Windows 8.1

#### **Hardware Requirements\***

GHz dual core or higher
≥ 4 GB
≥ 10 GB available
≥ 1024x768
≥ 1920x1080

\* These requirements apply to commissioning small projects. Larger projects may require improved hardware specification.
