

# Real pros choose **new connections for new opportunities**

Take the first step into connected lighting with **Philips MasterConnect LEDlamps**.

Works with Interact and Philips MasterConnect apps

## **Philips MasterConnect LEDlamps.** Big news for businesses that want to switch to connected lighting.

Who says you have to spend a lot of money to have smart lighting? Take your first step with **Philips MasterConnect LEDlamps:** smart retrofit LED lamps that give you an easy and seamless way to upgrade and embrace all benefits of connected lighting.

Thanks to the proven wireless connected technology, MasterConnect LEDlamps maximize energy savings, while providing wireless and automated light for your comfort and convenience.

Simply set up with an intuitive app (such as the Interact or Philips MasterConnect app), your lighting system can be programmed to deliver automated occupancy and daylight detection, zone control, wireless dimming, and scenes. Once the basics are defined, it just works automatically, allowing for an 'install and forget' experience.

With MasterConnect LEDlamps, your system is fully scalable and upgradable. If you want to enjoy further benefits such as remote control or management dashboard, you can simply keep the currently installed lamps and add a gateway to experience all the advantages of a cloud-based system.

There's no better way to take lighting solutions to the next level.

### Philips MasterConnect LEDlamps

#### MasterConnect LEDtube

- · Retrofit to T8 lamps on EM ballast or mains
- Safe and hassle-free installation
- 55% energy savings compared with fluorescent lamps
- Extra-long lifetime of 60,000 hrs
- Perfect for office, school, retail, healthcare, parking and warehouse

#### MasterConnect LEDspot

- · Perfect fit design to retrofit halogen lamps
- 90% energy savings compared with halogen lamps
- Color spectrum that replicates halogen, CRI 90
- Lifetime of up to 25,000 hrs
- Perfect for hospitality, restaurant and retail

· Management dashboard

\*Savings based on published articles and Signify internal study. Total solution means utilizing all available control strategies such as occupancy sensing, daylight harvesting, high-end trim, scheduling, personal control, demand response etc. All savings are compared with non-controlled LED lighting system. Actual savings may vary depending on the application and usage.

## MasterConnect LEDtube – lighting possibilities

· () ·

-

#### **Meeting rooms**

Optimize energy savings by automatically switching on/off the light when entering/leaving the room.

Occupancy and daylight sensor

#### Classrooms

Optimize comfort by adjusting the light level to the amount of natural light in the room.

**4**-button switch

#### **Conference rooms**

Group the lamps and adjust the level of light depending on the activity (e.g. presentation mode, focus time)

**Storage/parking garages** Maximize energy savings by

automatically boosting or dimming the lights depending on presence in the area.

## MasterConnect LEDspot – lighting possibilities

Occupancy and daylight sensor

#### **Meeting rooms**

Group the lamps and optimize lighting for various tasks. Adjust natural/artificial light level in a balanced way.

**4**-button switch

#### Retail

Optimize shelf lighting by boosting or dimming the light level where needed or by setting different scenes.

4-button switch

Hospitality/restaurants Group the lamps and adjust the light level or set different scenes to create the desired ambiance.

Visit **philips.com/masterconnect** for an overview of compatible control devices and systems.

### **Simple. Scalable. Standardized.** Discover how Philips MasterConnect LEDlamps are a win-win for **you** and your **customers**.

#### Truly easy installation

- ✓ Wireless retrofits minimum renovation
- $\checkmark$  No additional wiring and gateway needed
- Intuitive mobile app set up 'install and forget'

#### **Reliable quality**

#### ✓ Wide selection of high-quality LED lamps

 Minimal maintenance thanks to guaranteed product lifetime and system reliability

#### **Future-proof solution**

 Become a trusted advisor and set up service contracts for recurring business

#### More convenient than ever before

- ✓ Lighting automation enhances comfort
- ✓ Wireless dimming
- Easily set up scenes
- ✓ No gateway no IT impact

#### Improved energy savings

 Various lighting control strategies available to improve energy efficiency and maximize savings

#### Grow your business, grow your light

 Upgradable to a cloud-based solution without reinvesting in hardware

### Smart lighting is only a few simple steps away,

thanks to easy installation and instant setup via the app.

#### Adjust

Once everything is set up, your customer can download the app and, if desired, change the light settings.

## Looking for more optimization and personalization of your light settings?

Designed for various applications, Philips MasterConnect LEDlamps can also be used with the Interact app. Optionally add a gateway to enjoy cloud-based benefits such as:

- Monitor lighting and energy with the Interact dashboard for further optimization
- Optimized and personalized light levels for your customer's daily business, supporting employees, tasks, safety and security
