

Clean the air in your work environment

UV-C disinfection Active air

The UV-C Active air device is designed to disinfect the air during day-to-day business activities, without interruption. It can be installed on a wall or on a ceiling in many different types of location, even UV-C sensitive ones. Thanks to ventilators, the air from the room is pulled inside the device, filtered, and then submitted to an intense disinfection thanks to 2x60W UV-C lamps. The air comes out of the UV-C Active air device clean into the room.

Benefits

- Enable continuous operation while business activity continues
- High air disinfection power
- Safe use
- Easy to install and commission
- Easy maintenance

Features

- Philips PL-L TUV lamps included: 2x60W
- Dust filter
- Wall mount or ceiling mount
- UV-C emitted only inside the device, not outside

Application

- Offices, meeting rooms, toilets, cafeterias, phone booth
- Locker rooms, guestrooms, waiting rooms
- Food production unit, maturing rooms, museums

UV-C disinfection Active air

Warnings and Safety

- **DANGER:** Like any disinfection system, UV-C lamps and devices must be installed and used in the correct way. Direct exposure to UV-C can be dangerous and result in a sunburn-like reaction to the skin and serious damage to the cornea. UV-C disinfection Active air units must only be sold through qualified partners and installed by professionals according to our stringent safety and legal requirements. Our UV-C products are not meant to be used in applications or activities which may cause and/or lead to death, personal injury and/or damage to the environment. **DISCLAIMER:** The UV-C disinfection Active air effectiveness in the inactivation of certain viruses, bacteria, protozoa, fungi or other harmful micro-organisms is as described above under the heading “Benefits”. Signify and its group of companies do not promise or warrant that the use of the UV-C disinfection Active air will protect or prevent any user from infection and/or contamination with any viruses, bacteria, protozoa, fungi, illness or disease. The UV-C disinfection Active air is not approved for, is not intended for and must not be used to disinfect medical devices and must not be used in medical settings. In addition to and without limitation of any exclusions or limitations of liability of Signify and its group of companies as set forth in any agreement for the sale, distribution or otherwise making available of the UV-C disinfection Active air, Signify and its group of companies shall have no responsibility or liability whatsoever for any claim or damage that may arise from or relate to any use of the UV-C disinfection Active air outside of their intended use or contrary to their installation and operation instructions, each as described in this document under the heading “Application”, the user manuals and/or the mounting instructions.
