

PHILIPS

Lamps

PL Series

Featuring ALTO technology

Low mercury, energy savings

Philips PL-T Amalgam Compact Fluorescent lamps offer designers, specifiers, and end-users new levels of efficiencies and versatility in sizes, configurations and application possibilities.

Temperature-independent lamp

- Amalgam technology provides high lumen output over a wide temperature range

Extended relamping cycles

- Reduced maintenance costs
- 16,000 hours rated average life¹ (3 hours per start)
- 20,000 hours rated average life² (12 hours per start)

Application flexibility and energy savings

- PL-T amalgam 4-pin lamps may be used with electronic ballasts.

More design flexibility

- 25% shorter than PL-C lamps

Better for the environment

- Only has 1.4mg of mercury with ALTO lamp technology

TCLP
Compliant*

† This lamp is better for the environment because of its reduced mercury content. All Philips ALTO lamps give you end-of-life options which can simplify and reduce your lamp disposal costs depending on your state and local regulations.

** The EPA's TCLP test is used to determine if an item can be managed as hazardous or non-hazardous waste. Philips ALTO and ALTO II lamps are TCLP Compliant and can be managed as non-hazardous waste.*

1. Average life under specified test conditions with lamps turned off and restarted no more frequently than once every 3 operating hours. Lamp life is appreciably longer if lamps are started less frequently.
 2. Average life under engineering data with lamps turned off and restarted once every 12 operating hours.
 3. Approximate initial lumens. The lamp lumen output is based upon lamp performance after 100 hours of operating life under standard laboratory conditions.
 4. For horizontal operation, install lamp with etch facing down.
- This lamp is better for the environment because of its reduced mercury content. All Philips ALTO lamps give you end-of-life options which can simplify and reduce your lamp disposal costs depending on your state and local regulations.

Lamp Dimensions
