

PHILIPS

LED lamps

InstantFit lamps

This is **real compatibility**

Other lamps claim compatibility, but only InstantFit has been proven to work with over 350 ballasts and drivers delivering even light output, proven energy savings and a long average lifetime. **That's true compatibility.**

- **InstantFit works with over 350 ballasts and drivers**
More than any other lamp so you know it's going to perform as expected and prevent rework.
- **Proven over 40% energy savings¹**
Over fluorescent means continual payback for the life of the product.
- **Lifetime delivered²**
Average life rating of 50,000 hrs, with up to 70,000 hrs.
- **Proven product history**
Philips is a company with a long history of innovation and reliability in the lighting industry.
- **Powerful flexibility³**
Most Philips InstantFit lamps operate as both UL Type A and UL Type C lamps.
- **Light quality and performance predictability**
Consistent light output and no flicker means delighted customers.
- **Shatter prevention**
Unlike competitors' coated glass lamps, our polycarbonate lamps prevent breakage, not just contain the shattered glass.
- **No perceivable flicker⁴**
All InstantFit lamps have a below 1.0 SVM.

1. Savings based on comparison to F32T8 electronic instant start systems.

2. Tested to B50 L70 requirement with a ballast factor < 0.88.

3. DLC Product ID list is for UL Type A only. The product may also be DLC certified as UL Type C. To verify search the DLC QPL using the model number.

4. Refer to NEMA77, IEC 61547 & IEC 63158 standard for SVM (Stroboscopic Visibility Measure).

1. Bare lamp wattage. For system wattage see charts on last page.

2. LED lifetime means the length of time (in hours) until half of the LED light sources maintain at least 70% of their initial lumen output (B50, L70). Testing with a ballast whose ballast factor is ≤ 0.88.

3. DLC Product ID list is for UL Type A only. The product may also be DLC certified as UL Type C. To verify search the DLC QPL using the model number.

Many lamps claim compatibility. **InstantFit proves it.**

1. Measured data provided as a reference. System power may vary depending on ballast manufacturer and ballast age. Please refer to www.philips.com/instantfit for the latest ballast compatibility guide.

Many lamps claim compatibility. **InstantFit proves it.**

Philips InstantFit LED lamps

Philips TLED types

G13

Type A InstantFit

Fastest ROI Plug-and-play

Compatible ballast types:

- Instant-Start
- Programmed start
- Programmed start dimmable
- Emergency

Type A UniversalFit

Plug-and-play¹ on magnetic and electronic ballasts

Compatible ballast types:

- Instant-Start (Electronic)
- Magnetic (T12)
- Emergency

Type B MainsFit

Long term simplicity

Compatible ballast types:

- No ballast required
- Compatible with emergency backup lighting inverters (Bodine ELI-S series)

Type C InstantFit

Most efficient solution

Compatible ballast types:

- Many Philips Type A lamps double as our Type C lamps
 - Type C when paired with our range of TLED drivers.
- See <https://www.signify.com/en-us/brands/advance/ballasts>

1. Compatibility subject to change as additional ballasts are tested. If you do not see your ballast on the compatibility list please contact your local Philips Lighting representative. Always verify ballast compatibility using the Philips Ballast Compatibility Guide (PLT-16118CR) before installation.

Many lamps claim compatibility. **InstantFit proves it.**
