

Turkistan Karavansaray

Turkistan City of Kazakhstan

An acient city

Turkistan Karavansaray, located in Turkistan City of Kazakhstan, is one of the ancient cities of the Turkic World. Its ambience combines tradition and modernity, with two concept hotels, an amazing shopping mall, entertainment center filled with fun attractions, delicious dining venues, and captivating shows.

A unique identity

Creating a unique identity of the complex and accentuating the traditional look was a key requirement of the project. Signify Turkey along with its CSI, EGFA, worked with Philips Uni lighting for the breathtaking facade.

Signify is the **world's leading** lighting solutions company, and we are **proud to create this marvel** at Turkistan Karavansaray along with the Signify team.

The entire team of Turkistan Karavansaray management is **happy to see the output**. Signify's product portfolio and expertise in implementing such projects by EGFA has really brought out **a great experience**."

Fatih Ceylan, Owner, EGFA
