

Merit Hotel

Cyprus

The hotel

Merit Crystal Cove Hotel is one of the most striking hotels in Northern Cyprus, with both sea and mountain views, and an exceptional quality of service.

A unique identity

The hotel was looking to create a unique identity and accentuate its façade to give an amazing visual experience to the guests at night. They chose Signify CSI, Lumisistem, for the task.

Lumisistem is **proud** to be associated with the Merit Hotel. Philips Uni luminaires **perfectly fit** the customer need from a lighting effect perspective, and we were able to **outperform all competition**. The support from Signify team on documents and reports was **amazing**."
