Signify Innovations India Limited Annual Report 2021-22

We are Signify

Our purpose is to unlock the extraordinary potential of light for brighter lives and a better world.

Signify is the world leader in lighting. We provide our customers with high-quality, energy-efficient lighting products, systems and services. By turning light sources into data collection points, we can connect more devices, places and people through light, contributing to a safer, more productive and smarter world.

Our values

Our values provide our people with a common understanding of what matters to us and how we work

Customer We partner with our external customers. they are at the center of what we do.

We collaborate across teams to build on our strengths and diversity, and work towards our shared goal.

We innovate to set ourselves apart and continue to lead in the market.

We work smarter and faster to deliver excellence.

Amidst all the chaos and disruption, we responded as one large family, supporting our employees, our partners and the society to get back on their feet. As the economy regained momentum in the second half of the year, we also witnessed a growth in demand for both consumer and professional lighting. Revival of new home construction and re-opening of most offices and industries buoyed the overall sentiment for the lighting industry; however global supply chain issues and component unavailability affected our ability to meet this high demand. By swiftly taking multiple mitigating actions and simultaneously managing our prices to offset the structural part of inflation, we managed to grow our topline and improve our profitability. All of these demonstrate that the fundamentals of our business are stronger than ever, driven by the ever-growing need for energy-efficient and digital lighting technologies.

It is integral to our company strategy that our growth must not be at the expense of the earth, but to its benefit. Our strategy identifies five domains for innovative and sustainable growth: contributing to climate action, contributing to a circular economy, increasing food availability, enhancing safety and security, and improving health and wellbeing. Our ambitious sustainability program, Brighter Lives, Better World 2025, builds on our 2020 achievement of carbon neutrality in our operations. Through this program, we will amplify our positive impact by enabling our customers and suppliers to become more sustainable. I am proud to say that we are on track to meet our commitments to double our positive impact on the environment and society by the end of 2025.

Chairman's Message

Dear Stakeholder,

The last financial year began on a subdued note owing to multiple waves of the COVID-19 pandemic affecting the entire country and taking a severe toll on lives and economic activity. While the pandemic tested us all severely, we at Signify responded swiftly and demonstrated exceptional resilience in dealing with a calamity that was unprecedented, by any standards.

Our strategic focus

Our strategic direction has been reinforced around our 5 Frontiers, which focuses on being even more customer centric, delivering differentiated offers, driving growth for sustainability, digitalizing and transforming for the future, and being a great place to work.

We continued to lead the LED transformation in the country by launching innovative products during the year, such as our Philips HexaStyle downlight, India's first hexagon-shaped LED downlight and Philips Motion Sensor T-Bulb. We also entered the fans category for the first time with our EcoLink brand, expanding our portfolio beyond lighting and switches. Our home decorative lighting business also registered a healthy growth on account of new home construction picking up across India. To tap into this growing opportunity, we expanded our Philips Smart Light Hubs network to 225 stores across the country and added our switches and 3D printed luminaires portfolio in these stores.

After a tough period in 2019 and 2020, our professional lighting business witnessed a revival this year, and we are very encouraged by the growing demand for connected lighting in the country. I am very happy to report that we managed to grow our connected light points installed base by winning prestigious sports lighting projects such as the Arun Jaitley Cricket stadium in Delhi and Baroda Cricket Stadium in Baroda, in addition to other significant projects with JCB, Metro Rail and NHAI, amongst many others. We also continued to make the world a safer place with our UVGI systems that are installed in a building's HVAC system and constantly purify the indoor air.

Our commitment to the society

As a socially responsible company, we remain committed to enabling underserved communities to get access to the benefits of sustainable lighting. To fulfill this mission, we partner with numerous social impact organizations to provide clean technology-based lighting systems to homes, communal spaces and institutions, empowering communities to be safer, active, and economically productive after sunset. Last year we positively impacted more than 3.3 million lives with our CSR programs spread across the country. We illuminated villages through solar based lighting, donated 120 oxygen concentrators to public healthcare institutions to mitigate the impact of the pandemic and made 25 hospitals safer with our UV-C air disinfection systems.

On behalf of our Board of Management and our entire leadership team, I want to thank our employees, who continue to show tremendous dedication, creativity and resilience and each day fulfil our purpose to unlock the extraordinary potential of light for brighter lives and a better world. I also thank our customers for their trust and loyalty, especially during these challenging times. This continues to motivate us to do our best every day. Finally, I thank our shareholders for their continued confidence in us and in the execution of our strategy.

Warm Regards, **Mahesh Iyer** Chairman Signify Innovations India Limited

An extraordinary year

We have been recognized as one of India's 100 Best Companies to work for in a survey conducted by the Great Place to Work institute for the fourth time in a row.

We illuminated Navi Mumbai's DY Patil Sports Stadium, one of India's premier cricket and football stadium, with 408 SportsStar LED Flood luminaires enabled with DMX networking control system for an ideal experience.

We illuminated Baroda Cricket Stadium, one of India's largest cricket stadium with our Philips LED Floodlighting system.

We launched India's first hexagonal shaped LED downlighter Philips HexaStyle.

We now have more than 225 smart light hubs across India offering our customer a first-hand experience of our wide lighting range.

We introduced our Philips Smart Wi-Fi LED lighting range for an extraordinary smart lighting experience.

It was an absolute honor to illuminate Chennai's iconic landmark - The Ripon building.

Signify launched its EcoLink range of fans across India.

We launched our Philips Skyline e-Way, a high performing lighting solution for safer expressways and highways.

Lighting up the new India

Har Gaon Roshan Lighting up villages

The objective of this program is to promote rural development by providing solar energy-based lighting facilities in rural villages to enhance the safety of women and children after sunset and extend the working day of the village, thereby also enabling economic activities after sunset. Under this program, a total of 43 villages were illuminated with solar street lighting & solar indoor home system in the Majuli district of Assam & Amritsar district of Punjab.

Swasthya Kiran Lighting up Hospitals

The objective of this program is to create a safer environment in hospitals across the country through UV-C lighting-based disinfection of common areas in the hospital. A total of 27 hospitals benefitted from the program wherein UV-C based air disinfection solutions were installed in these hospitals to reduce the risk of hospital-acquired air borne infections such as COVID-19, Tuberculosis.

Humanitarian Relief project

In the context of the COVID-19 pandemic, under COVID-19 Relief project, 120 Oxygen Concentrators were donated to 10 TB hospitals across India to enhance the availability of Oxygen in hospitals to support patients from the underprivileged sections of the society.

- I. The Members, whose names appeared in the Register of Members / list of Beneficial Owners as 6th June, 2022, i.e. the cut-off date, has been paid ₹ 37.50/- (375%) per share as Interim Dividend on the fully paid equity shares for the financial year 2021-22, within 30 days from the date of such declaration, duly approved by the Board of Directors on 30th May, 2022 and it has a pay-out of ₹ 2156.90/- million.
- II. Members whose shareholding is in electronic mode are requested to direct change of address notification and updates of saving bank account details to their respective Depository Participant(s). Members are encouraged to utilize the Electronic Clearing System (ECS) for receiving future dividends.
- III. Members holding shares in demat form are hereby informed that bank particulars registered with their respective Depository Participants, with whom they maintain their demat accounts, will be used by the Company for the payment of future dividend. The Company or its Registrar cannot act on any request received directly from the Members holding shares in demat form for any change of bank particulars. Such changes are to be intimated only to the Depository Participant(s) of the Members. Members holding shares in demat form are requested to intimate any change in their address and / or bank mandate immediately to their Depository Participants.
- IV. Members holding shares in physical form who have not registered/updated their mandate for receiving future dividends directly in their bank accounts through Electronic Clearing Services or any other means ("Electronic Bank Mandate"), can register/update their electronic Bank Mandate to receive future dividends directly into their bank account electronically, by sending following details/ documents in addition to the documents mentioned in the Note No. 9(II) above by sending email to the Company at harvinder. kumar@signify.com or contact KFintech at einward.ris@kfintech.com:
 - a. Name and Branch of Bank in which dividend is to be received and Bank Account type;
 - b. Bank Account Number allotted by your bank after implementation of Core Banking Solutions;
 - c. 11 digit IFSC Code; and
 - d. Self attested scanned copy of cancelled cheque bearing the name of the Members or first holder, in case shares are held jointly.
- V. Members may note that the Income Tax Act, 1961, as amended by the Finance Act, 2020, mandates that dividends paid or distributed by a Company after 1st April, 2020 shall be taxable in the hands of the Shareholders. The Company shall therefore be required to deduct Tax at Source (TDS) at the time of making the dividend. In order to enable us to determine the appropriate TDS rate as applicable, Members are requested to submit the documents in accordance with, the provisions of the Income Tax Act, 1961.
 - a. For Resident Shareholders, TDS shall be made under Section 194 of the Income Tax Act, 1961 at 10% on the amount of Dividend declared and paid by the Company during financial year 2021-22 provided PAN is registered by the Shareholder. If PAN is not registered, TDS would be deducted @ 20% (plus applicable surcharge and cess) as per Section 206AA of the Income Tax Act, 1961.

However, no tax shall be deducted on the Dividend payable to a resident individual if the total dividend to be received by them during financial year 2021-22 does not exceed ₹ 5,000. Please note that this includes the future dividends if any which may be declared by the Board in the financial year 2021-22.

Separately, in cases where the individual shareholder provides Form 15G (applicable to individual, who is a resident in India) / Form 15H (applicable to an individual above the age of 60 years), provided that the eligibility conditions are being met, no TDS shall be deducted.

- b. For Non-resident Shareholders, taxes are required to be withheld in accordance with, the provisions of Section 195 of the Income Tax Act, 1961 at the rates in force. As per the relevant provisions of the Income Tax Act, 1961, the withholding tax shall be at the rate of 20% (plus applicable surcharge and cess) on the amount of Dividend payable to them. However, as per Section 90(2) of the Income Tax Act, 1961, the non-resident shareholder has the option to be governed by the provisions of the Double Tax Avoidance Agreement (DTAA) between India and the country of tax residence of the shareholder, if they are more beneficial to them. For this purpose, i.e. to avail the Tax Treaty benefits, the non-resident shareholder will have to provide the following:
 - Self-attested copy of Tax Residency Certificate (TRC) obtained from the tax authorities of the country of which the shareholder is resident.
 - Self declaration in Form 10F if all the details required in this form are not mentioned in the TRC.
 - Self-attested copy of the Permanent Account Number (PAN Card) allotted by the Indian Income Tax authorities.
 - Self-declaration, certifying the following points:
 - i. Member is and will continue to remain a tax resident of the country of its residence during the financial year;
 - ii. Member is eligible to claim the beneficial DTAA rate for the purposes of tax withholding on dividend declared by the Company;

- iii. Member has no reason to believe that its claim for the benefits of the DTAA is impaired in any manner;
- iv. Member is the ultimate beneficial owner of its shareholding in the Company and Dividend receivable from the Company; and
- v. Member does not have a taxable presence or a permanent establishment in India during the financial year.
- VI. Please note that the Company is not obligated to apply the beneficial DTAA rates at the time of tax deduction / withholding on dividend amounts. Application of beneficial DTAA Rate shall depend upon the completeness and satisfactory review by the Company, of the documents submitted by Non-Resident shareholder.
- VII. Accordingly, in order to enable us to determine the appropriate TDS / withholding tax rate applicable, we request you to provide these details.
- VIII. Kindly note that the aforementioned documents may be submitted to the Company at harvinder.kumar@signify.com or to KFintech at einward.ris@kfintech.com.
- IX. Members are requested to contact KFintech / Investor Service Department of the Company for encashing the unclaimed dividends, if any, standing to the credit of their account.
- X. Pursuant to Sections 124, 125 and any other relevant provisions of the Companies Act, 2013 read with Investor Education and Protection Fund (Accounting, Audit, Transfer and Refund) Rules, 2016, dividends which are not encashed / claimed by the shareholder for a period of seven consecutive years shall be transferred to the Investor Education and Protection Fund (IEPF) Authority. The IEPF Rules mandate the Companies to transfer the shares of shareholders whose dividends remain unpaid / unclaimed for a period of seven consecutive years to the demat account of IEPF Authority.

Pursuant to Sections 123, 124 and 125 of the Companies Act 2013, the unpaid dividend that are due for transfer to the Investor Education and Protection Fund (IEPF) are as follows:

Dividend Number	Date of Declaration	For the year ended	Tentative date for transfer to IEPF

6. BUSINESS PERFORMANCE:

The year 2021-22 began on a volatile note with the second wave of COVID-19 severely disturbing the economic and social fabric of the entire country, and the daily cases hitting an all-time high number since the pandemic began in March 2020. Our healthcare system faced an unprecedented crisis due to the burgeoning number of cases and lack of adequate infrastructure like hospital beds, oxygen supplies and medicines. Several state governments announced lockdowns to contain the spread of the pandemic, and this in turn adversely affected all industries including ours. However, despite the volatility in the country's overall macro-economic environment during the year, your company recovered well in the remaining quarters of the year and managed to deliver good business results.

The LED transformation of our company continues, with LED products now constituting 82% of our total sales revenue. As the economy slowly revived during the remaining quarters of the year, our consumer lighting business also delivered a healthy 19.8% growth over last year, thanks to the pent-up demand in the market and revival of new home construction across India. We also introduced several new innovative products for consumers, such as our Philips HexaStyle downlight, India's first hexagon-shaped LED downlight and Philips Motion Sensor T-Bulb. We also entered the fans category for the first time with our EcoLink brand, expanding our portfolio beyond lighting and switches.

After a tough year in 2020, our professional lighting solutions business also witnessed a revival this year and delivered a growth of 14.0%, as most private and public offices and industries restarted their operations. This year, we also grew our connected light points installed base by winning prestigious sports lighting projects such as Arun Jaitley stadium in Delhi and Baroda Cricket Stadium in Baroda, in addition to other significant projects with JCB, Metro Rail and NHAI, amongst many others. We also continued to make the world a safer place with our UVGI systems that are installed in a building's HVAC system and constantly purify the indoor air.

Our home lighting business also registered a health growth on account of new home construction picking up across India. To tap into this growing opportunity, we expanded our Philips Smart Light Hubs network to 225 stores across the country, and also added our switches and 3D printed luminaires portfolio in these stores.

While conventional lighting still remains a substantial segment in India, it is steadily declining owing to the growing penetration of LED lighting. Our conventional lamps business has witnessed an expected de-growth of 8.2%, but we remain the market leader and now supply conventional products to most of the other lighting players in the industry as part of our last man standing strategy.

We continued our leadership in sustainability, and we are very proud of our inclusion in the DJSI World Index for the fifth year running. With our Brighter Lives, Better World 2025 program, we're now going beyond carbon neutrality as we work to double our positive impact on the environment and society.

17. INTERNAL FINANCIAL CONTROLS WITH REFERENCE TO FINANCIAL STATEMENTS:

Your Company is committed to ensure that its operations are carried out within a well-defined internal control framework, good governance, robust systems and processes, a vigilant finance function and an independent Internal Audit function are the foundations of the internal control systems. Your Company has the Audit Committee in place and the Audit Committee devises robust Internal Control System and Enterprise Risk Management for the Company.

Through our internal audit processes at all levels, both the adequacy and effectiveness of internal controls across various businesses and compliance with laid-down systems and policies are being regularly monitored. A trained internal audit team is periodically validating the major IT-enabled business applications for their integration, control and quality of functionality.

Your Company has appointed KPMG as its Internal Auditors and their function, scope of service etc. were approved by the Board of Director based on recommendation made by the Audit committee.

18. HUMAN RESOURCES AND INDUSTRIAL RELATIONS:

A great workplace is about great employee experience offered by company. And we ensure this by focusing on three areas namely employee value proposition, core values and culture of meritocracy. Our Employee Value Proposition structured around our core values and company's strategy is what helps in building a workplace that is highly performance driven. Our EVP is lived and felt by all employees via various programs and initiatives that run throughout the year, contextual to the focus of the organization during a specific period. Some of these initiatives are specifically tailored around creating a sense of pride and to embed a high performing value-driven culture throughout the organization:

- **Covid 19 Response Initiatives** COVID-19 challenged the very DNA, working models and culture of most organizations across the globe. At Signify India too, we made work from home for all our employee's mandatory even before the nation-wide lockdown was announced on 24th March 2020. Also, to create a greater sense of alignment and unity among employees and boost their morale in these unusual times, we organized successful virtual learning & engagement, upskilling programs, and coffee corner sessions with them on a regular basis.
 - o We took proactive measures on travel restrictions, advising employees in office & field on safety precautions, equipping our sales teams with safety kits, declaring WFH, controlling visitor's entry to sites and more.
 - o The Government allowed resumption of specific commercial activities from 20th April 2020. We created a plan to resume work at Factory, Warehouses, Offices, and field activities as per the directives.
 - o We worked with Authorities, Facility teams, Landlords, internal teams, and service partners to get the necessary permissions and get the sites ready and put together specific guidelines and protocols for each work area and deployed the same to the teams through Calls and Webinars before starting work. Protocols were created for Factory, Warehouses, Offices, Smart Hubs, Site Project Work, Field Service work, R&D locations, and Sales team.
 - o During the 2nd wave, when the country was undergoing a medical crisis of enormous proportions below approaches were taken to support employees and the larger ecosystem:
- **Regional coordinators** were appointed to respond to employee requests
 - Procured 100 machines for emergency use by employees/immediate family and our channel partners as well.
 - Crowdsourced leads (homecare, lab tests, nurses, ambulances) which were periodically verified by central team.

- Telemedicine & Doctor consultation.
 - Tied up with **Practo Plus** for doctor's consultation.
 - Crowdsourced Trusted Doctors database across locations with the help of our employees
 - Leveraged company's doctors for dedicated consultation
- 6 central teams were formed to manage support areas
- Leveraged **Insurance providers** for support on Hospitalization we provided COVID-19 insurance coverage to 622 third-party front-line workforces. Sum insured is INR 1 Lac per employee
- Organized Wellbeing Sessions by Inner Hour
- Vaccination drives were also organized for our employees
- Created Knowledge repository & learning paths

The above protocols were followed again strictly for gradual reopening of offices post the second COVID wave in April 2021 as well. Each team was divided into two sub-teams within each function. On any given day only one of the team's members worked from office depending on business requirements and basis their COVID clearance status.

- SheThePeople We have a significant woman population in our employee base, spread across locations in India. We wanted to have them connected through a common platform. We initiated SheThePeople with this thought. This is a platform for all our woman employees to connect once in a quarter. In these connect sessions, we organize ice-breaker activities, leadership talks and policy awareness sessions. At the end of these sessions, we conduct a moderated discussion in smaller groups (10-15 each) to understand from our woman employees as to how they are feeling, what challenges they are facing and how we as an organization and as a woman community within Signify can address those. Basis those feedbacks, we try to build interventions.
- Litmus World Employee Survey It is a SaaS platform that enables us to understand the pulse of the
 organization via candid & anonymous feedback from employees across various touchpoints. The LW
 platform is used to conduct various survey like Tenure and Exit surveys to gauge on the attrition and various
 other analysis and use those actionable insights to bridge the gaps.
- **Bright Beginning** -It is another new initiative linked to the new joiner's initial setting period into Signify. It is a platform for the new joiner to connect with the channel or function leader in starting itself. This serves three-fold agenda of discussion regarding introduction to leader, attempt at resolution of concerns mentioned in new joiner feedback survey and top management expectation setting.
- Step Up –This is a platform for all our employees to get a glimpse of all available roles within their functions and beyond. Under this, we had the leaders talk about the key skill requirements to perform those roles and how we as an organization would be helping them in their journeys. The message to the employees through this initiative was that they are the owners of their careers, and the organization is willing to support them in their aspirations. Multiple sessions were organized with industry experts on numerous topics such as Career Choices, Managers as Coaches to encourage employees to "Step Up" with their capabilities. This unique initiative ran for around 6 weeks, and we had strong participation from across functions. These sessions gave a good flavor of the roles in the organization and how to succeed in those roles, to our employees.
- Ignite Ignite was our global strategy deployment initiative. At the start of 2022, we launched our global strategy wherein we talked about how our organization is shifting towards a performance mindset and what kind of behaviours are required to make this shift. 4 new behaviours were introduced, in addition to our core values. The behaviours were Over Deliver, Trust, Execute and Own.

- **Manager Sensitization Workshops on Unconscious Bias** -The manager sensitization workshop was an outcome of the feedbacks from SheThePeople initiative. These workshops were conducted to sensitize managers in partnership with an external vendor. Workshop addresses finer nuances of Unconscious Bias in daily, real-life situations through a drama-based approach followed by a de-brief.
- o Meet Tanmay and Tanya (Comic Strip Campaign) was introduced to further sensitize our people managers in becoming more aware of unconscious biasness and emphasize importance of overcoming them at workplace.
- <u>Up! Surge Program</u> For women employees, aspiring to take on leadership roles, we partnered with XLRI to put them through a 3-week program centered around themes of Evoke, Amplify and Navigate. This program had a mix of classroom sessions and pre & post classroom extensive work. 5 of our woman employees went through this program and had glowing feedback about this.
 - o Global Leadership Programs At Signify, we have certain global level programs, wherein we continuously nominate our woman employees for their leadership development.
- Stagnation Analysis We analyze the stagnation of our women employees on a periodic basis. Most of our woman employees, who have been with us for more than 3 years, have either had a role enhancement or a promotion.
- **Buddy Program for Women proceeding on Maternity Leave** Motherhood is a very important life event for a woman. At this juncture, employees have a lot of questions about what the future has in store for them both personally and professionally. To have a go-to person at the professional front during this journey, we introduced the concept of a buddy for woman employees proceeding on a maternity break. This buddy is usually a woman employee who has already gone through this experience and is supposed to help the employee embark this journey with a lot more confidence and awareness.

All the above engagements coupled with our flexible and supportive culture, developmental and growth opportunities that we provide to our employees resulted in the company being recognized as a Great Place to Work by GPTW[®] Institute for the period April 2021-March 2022.

Learning & Talent Development

To stay ahead of competition, it is imperative that we as an organization continue to focus on building winning capabilities and strong leadership pipeline which is also the mainstay of our learning and talent management strategies. We have curated certain initiatives to empower our employees with specific skills and help them grow in the workplace.

- Accelerated Leadership Program Our flagship PACE program for out Top Talents was rechristened as the Accelerated Leadership Program in 2021. This is a talent development initiative aimed to develop the top talent within the organization and identifying people in succession for larger roles. This Program is a mix of Self Learning Modules via Learning@Signfiy, Classroom/Virtual trainings, Live Projects, & Shadowing. It is an initiative to nurture the top talent of the company through a structured systematic process comprising of programs for senior high performing employees. These programs help build their financial acumens by bringing a wider sense of the business and making them future ready for excellent career opportunities within the organization.
- <u>IMPACT</u> It is our commercial top talent capability building program centered around goal of winning in the face of evolving market through 4 learning modules and dedicated coach. These modules are the changing marketplace, building trust with stakeholders, grow commercial opportunities and present to captivate. 18 employees and 3 coaches were nominated for this program.
- **EDGE** Edge is a transformational leadership development for top talent that focuses on building:
 - o Personal edge which is targeted towards personal growth & profession development and
 - o Functional edge which is targeted towards effective leadership, customer impact and business mastery.

The focus of this initiative is also on developing more female leaders within the organization.

Spotlight – Spotlight is a platform for strong performers who have been with us for at least 2 years to showcase their potential and get the opportunity of moving into next level roles. Under this we devised a process to seek nominations from our regional leaders of our high potential employees and gave them projects and assignments to work on in the field, along with their regular set of deliverables. It turned out to be strong way of engaging with our top talents in a challenging business environment and provide them opportunity to move ahead in their career ladder.

Talent Acquisition

To build high brand recall amongst critical talent segments, our company actively used the social medium- the Life (a) Signify India page on Facebook and Signify India page on LinkedIn. Our company also actively engaged with Premiere/Non-Premium B-Schools/Engineering Colleges through Campus Sparks Internship Program, Business Leadership Program, Sales Trainee Program and Postgraduate/Graduate Trainee Program.

We continuously encourage internal talent to take on diverse and bigger roles in both domestic and international markets through internal marketplace called "Opportunity Knocks". Employee Referrals continues to be the one of the top sources of hiring the right talent externally (13% hiring through referrals in 2022). We introduced 'Each One, Bring One' campaign for increasing diversity referrals in sales role. Also, we launched an online tool for capturing referrals during 'first impressions' induction program.

In our Innovation Centre at Bangalore, we continued with "Campus Verve Program" to hire interns from engineering colleges. Also, we had 18 conversions from last year's batch who have joined us as Engineering Trainees. In our Innovation Centre at Noida, we have hired 3 Post Graduate Engineer Trainees who will be joining us in August. In our Cooper Lighting Solution's Innovation Centre at Pune, we hired 10 Technical Trainees who would be joining us in August. We also hired 2 Graduate Trainees in specification sales, and they will be joining us in July. In non-technical domain we had 6 joiners in Business Leadership Program and another 6 in Sales Trainee Program.

For new members in the Signify Innovations family, we revamped our 'First Impressions' program for commercial organization and continued successful implementation "Plug-In" program for SIL, Bangalore site. 'First Impressions' enables to induct the new joiners in Lighting business environment as well as helps them transition to their new role smoothly by providing the right tools to accelerate at our organization. Subject matter experts run various sessions during the induction program followed by market visits and shadowing which enable the new joiners to start understanding the business and give their best at their professional roles. This year we introduced Check-Ins by HRBP and Hiring Manager/Hiring Manager plus 1 in addition to online employee experience survey through the tool called 'Litmus World'.

This year we relaunched our renowned women returnee program titled 'Back In the Game' for giving women who are on career break an opportunity to restart their professional journey with us on Fixed Term Contract of 1 year with possibility of full-time employment basis performance and position availability.

We amplified our efforts towards diversity hiring focusing on both gender and age diversity (46% age diversity and 33% gender diversity in external hiring for 2022). Also, we introduced focused employer branding targeting gender diversity in sales role. In this we launched 'Women in Sales' LinkedIn group to serve as platform for showcasing success stories of our female sale employees to outside world. Apart from posts, we also put efforts in two videos testimonials that highlighted the extent of empowerment/support Signify provides to female employees in sales role.

Total Rewards

Sustaining a culture of recognition continued to be the focus area to engage and motivate employees. Your company continued to strengthen its flagship recognition policy 'Light-Up' executed through an online platform. The policy focuses on acknowledging and rewarding employees who deliver superior performance while demonstrating Signify's values and business principles in their ways of working. This Rewards and Recognition program is one of a kind in India amongst other Signify markets. Your Company also continued the 'Long Service Awards' policy to

recognize the loyalty and commitment shown by employees over the years. We continued to strengthen our position in the market by adjusting our salary bands with the latest benchmarks and best practices to attract and retain the best talent pool.

In 2019, Signify India partnered with InnerHour to provide psychological, emotional and wellbeing support to the employees. Innerhour is a dedicated platform for emotional, behavioral, and psychological well-being. Employee concerns are categorized in 6 major parts being:

- Sleeping Better
- Stress Control
- Mood Management
- Anger Management
- Worry Management
- Living Happiness

There are bi-weekly webinars organized by InnerHour on key issues pertaining to mental wellness. Employees are also provided with free counselling sessions for themselves and their families via InnerHour counsellors.

Similarly Signify India partnered with Marsh Mercer Benefits India to organize holistic wellness webinars on topics such as Yoga, Nutrition and Financial Wellness.

Industrial and Employee Relations

We continued to strengthen HR services model by creating a simple yet strong platform for employees to access in terms of their HR needs and queries. With the new HR Service Now portal it has become easier for employees to access their data and benefits at a one stop solution and get queries resolved in a shorter time frame. New functionalities are being developed and piloted before deployment to reduce manual interventions thereby transforming the face and functionality of HR processes across the organization in India market. The journey in digitalization of the HR function continues to be on track and HR Workday aims to be the single source of all employees related data and further enhance process efficiency and cost optimization in HR.

Our Vadodara Light Factory (VLF) achieved significant productivity improvements through the assimilation of Lean Philosophy. This was brought about through the incorporation of continuous improvement behavior at shopfloor through planned interventions and the factory enjoyed healthy and cordial Industrial Relations. We have a long history of peaceful industrial relations at Vadodara Light Factory and is a testimony of workers participation in Management. Both Management and Union ensures that all the decisions are taken after considering the welfare and interest of the workers.

In 2021, in the middle of the pandemic, the team also worked hard on facilitating the Covid vaccination for all Signify employees and achieved 100% by end of Q1-22. And as VLF is now also embarking on another exciting phase of journey by expanding our manufacturing capability by producing LED Lamps, LED Drivers, MSB Battens and Stadium lighting luminaires for the Indian market, so here first time in history we went on mass hiring of Apprentices under State and National Apprenticeship Promotion Scheme (NAPS) to support these new businesses and to remain cost viable.

Information under Section 197 of the Companies Act, 2013, read with Rule 5 of the Companies (Appointment and Remuneration of Managerial Personal) Rules, 2014, forms part of the Board's Report and are available for inspection at the registered office of your Company during working hours and any Member interested in obtaining such information may write to the Company Secretary.

19. CONSERVATION OF ENERGY, FOREIGN EXCHANGE OUTGO AND TECHNOLOGY ABSORPTION:

Information on Conservation of Energy, Technology Absorption and Foreign Exchange earnings ratio and outgo, required to be given pursuant to Section 134(3)(m) of the Companies Act, 2013 read with the Companies (Accounts) Rules, 2014, is provided in Annexure IV to this Report.

20. ENVIRONMENT, ENERGY, OCCUPATIONAL HEALTH & SAFETY:

The Company's Vadodara Light Factory (VLF) has been actively involved in implementing Signify Eco Vision program. 100% of waste generated is being recycled. Many energy saving projects were undertaken. Safety of employees is the foremost concern at VLF and working towards providing a safe and accident free working environment is a culture here. We have Started monitoring of participation in the INJURY PREVENTION RATE program for people engagement. Regular trainings and awareness sessions are carried out on Behavior Based Safety (BBS), Machine Safety for the employees to achieve zero accidents in the factory.

Due to spread of COVID-19 and the critical situation, all safety measures recommended by Local government and Signify safety team are implemented and awareness to the people program "SURAKSHA SAMVAD" are regularly held to discuss on safety measures. During Covid-19 pandemic, thermal camera was installed at entry point of factory for fast scanning of person's body temperature.

The Company's Vadodara Light Factory (VLF), with its focus on the environment and safety issues, has been very well appreciated during various audits done in the year. National Safety week, World safety week and World Environment Day are celebrated every year in the plant to spread awareness and safety culture within the factory. VLF had replaced the conventional lightings from the shopfloor area with energy efficient LED lights- give us significant energy saving along with many energy saving programs. One "Six sigma Black belt certification" on Energy saving done after assigned projects completion successfully. Also implemented many programs on waste reduction and Energy conservation to protect environment. Regular training and seminars are conducted on Safety and started new initiatives like Night duty manager, Monthly Safety Review with managers, Departmental safety committee meeting. Injury Prevention Rate (IPR), Industrial Equipment safety standard (IESS) going on and inculcate behavior change amongst its employees in pursuit of the Company's our aim of zero accidents at the site. VLF is also actively involved in implementing the Signify Eco-Vision program. During the year, substantial part of the waste generated at VLF was recycled. E-waste also was disposed through Proper and authorized TSDF-Treatment, Storage and Disposal Facilities.

During the year under review, oxygen generation plant was installed within the VLF premises. This point was triggered due to crisis of oxygen in the market during second wave of Covid-19 pandemic specially in the months of March & April, 2021. Due to shortest of oxygen in the market, there was uncertainty about the supply in near future during the given period, which could extremely impact the manufacturing process. In view of the same, an oxygen generation plant was installed in VLF in a short span of period, which successfully restored supply of oxygen to the manufacturing process. Even with continuation of manufacturing process, now the plant is saving money from own generated oxygen due to lower unit rate.

We are pleased to share TRC (total recordable cases) are reported only 1 in last year, with no case of loss of work or fatality.

ANNUAL REPORT ON CSR ACTIVITIES

[Pursuant to Section 135 of the Companies Act, 2015 read with the Companies (Corporate Social Responsibility) Rules, 2014]

1. A brief outline of CSR Policy of the Company:

The Board of Directors approved CSR Policy of the Company, pursuant to the provisions of Section 135 of the Companies Act, 2013 and the rules notified thereunder. The CSR Policy of the Company is accessible on your Company's website at *https://www.signify.com/en-in/our-company/company-profile*.

In terms of the mandate of the CSR Committee and being a Lighting Company, the focus of the CSR programs of the Company has been to unlock the extraordinary potential of light for creating brighter lives and a better world, by providing underprivileged sections of the society access to clean & renewable solar based lighting and enhancing the employability of rural youth through skill development programs. The key pillars of our CSR program are as follows:

- Har Gaon Roshan (Lighting up villages) The objective of this program is to promote rural development by
 providing solar energy-based lighting facilities in rural villages to enhance the safety of women and children
 after sunset and extend the working day of the village, thereby also enabling economic activities after sunset. A
 total of 43 villages were illuminated with solar street lighting & solar indoor home system in the Majuli district of
 Assam & Amritsar district of Punjab as a part of this program.
- Swasthya Kiran (Lighting up Hospitals) The objective of this program is to create a safter environment in hospitals across country through UV-C lighting-based disinfection of common areas in the hospital. A total of 27 hospitals benefitted from the program wherein UV-C based air disinfection solutions were installed in these hospitals to reduce the risk of hospital-acquired air borne infections such as COVID-19, Tuberculosis.
- Humanitarian Relief project In the context of the COVID-19 pandemic, 120 Oxygen Concentrators were donated to 10 TB hospitals across India, as COVID-19 Relief project, to enhance the availability of Oxygen in hospitals to support patients from the underprivileged sections of the society.

INDEPENDENT AUDITOR'S REPORT

To the Members of Signify Innovations India Limited

Report on the Audit of the Financial Statements

Opinion

We have audited the accompanying financial statements of Signify Innovations India Limited ("the Company"), which comprise the Balance sheet as at March 31 2022, the Statement of Profit and Loss, including the statement of Other Comprehensive Income, the Cash Flow Statement and the Statement of Changes in Equity for the year then ended, and notes to the financial statements, including a summary of significant accounting policies and other explanatory information.

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013, as amended ("the Act") in the manner so required and give a true and fair view in conformity with the accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2022, its profit including other comprehensive income, its cash flows and the changes in equity for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SAs), as specified under section 143(10) of the Act. Our responsibilities under those Standards are further described in the 'Auditor's Responsibilities for the Audit of the Financial Statements' section of our report. We are independent of the Company in accordance with the 'Code of Ethics' issued by the Institute of Chartered Accountants of India together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the financial statements.

Other Information

The Company's Board of Directors is responsible for the other information. The other information comprises the information included in the Board's report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether such other information is materially inconsistent with the financial statements or our knowledge obtained in the audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

Responsibility of Management for the Financial Statements

The Company's Board of Directors is responsible for the matters stated in section 134(5) of the Act with respect to the preparation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with the accounting principles generally accepted in India, including the Indian Accounting Standards (Ind AS) specified under section 133 of the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding of the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and the design,

implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

Those Board of Directors are also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on
 the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast
 significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty
 exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements
 or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence
 obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to
 cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

Report on Other Legal and Regulatory Requirements

- 1. As required by the Companies (Auditor's Report) Order, 2020 ("the Order"), issued by the Central Government of India in terms of sub-section (11) of section 143 of the Act, we give in the "Annexure 1" a statement on the matters specified in paragraphs 3 and 4 of the Order.

In terms of the information and explanations sought by us and given by the company and the books of account and records examined by us in the normal course of audit and to the best of our knowledge and belief, we state that:

- (i) (a) (A) The Company has maintained proper records showing full particulars, including quantitative details and situation of Property, Plant and Equipment.
- (i) (a) (B) The Company has maintained proper records showing full particulars of intangibles assets.
- (i) (b) All Property, Plant and Equipment were physically verified by the management in the previous year in accordance with a planned programme of verifying them once in three years which is reasonable having regard to the size of the Company and the nature of its assets.
- (i) (c) The title deeds of immovable properties (other than properties where the Company is the lessee, and the lease agreements are duly executed in favour of the lessee disclosed in note 3 to the financial statements included in property, plant and equipment are held in the name of the Company. Certain title deeds of the immovable Properties, in the nature of freehold land and buildings, as indicated in the below mentioned cases which were acquired pursuant to a Scheme of Arrangement approved by Hon'ble High Court of Calcutta Order dated January 27, 2016, are not individually held in the name of the Company, however the deed of merger has been registered by the Company.

Description of Property	Gross carrying value (₹ In million)	Held in name of	Whether promoter, director or their relative or employee	Period held - indicate range, where appropriate	Reason for not being held in the name of Company
Land and Building	607.93	Philips India Limited		-	The Company has acquired these assets, pursuant to the scheme of arrangement for Demerger amongst Philips India Limited ("Demerged Company") and Signify Innovations India Limited ("Resulting Company"), the ownership of all the immovable properties pertaining to Lighting business of the Demerged Company which included the Land and Building at Vadodara have been transferred to and vested in the name of resulting Company. The Company is in the process of getting these in the name of company.

- (i) (d) The Company has not revalued its Property, Plant and Equipment (including Right of use assets) or intangible assets during the year ended March 31, 2022.
- (i) (e) There are no proceedings initiated or are pending against the Company for holding any benami property under the Prohibition of Benami Property Transactions Act, 1988 and rules made thereunder.

- (ii) (a) The management has conducted physical verification of inventory at reasonable intervals during the year. In our opinion the coverage and the procedure of such verification by the management is appropriate. Discrepancies of 10% or more in aggregate for each class of inventory were not noticed on such physical verification.
- (ii) (b) As disclosed in note 10 to the financial statements, the Company has been sanctioned working capital limits in excess of ₹ five crores in aggregate from banks during the year on the basis of security of current assets of the Company. As represented to us by the Company, since there is no fund based working capital limits sanctioned, bank has exempted the Company to file the quarterly returns/ statements to them. Accordingly, the requirement to report on clause 3(ii)(b) of the Order is not applicable to the Company.
- (iii) (a) During the year the Company has not provided loans, advances in the nature of loans, stood guarantee and provided security to companies, firms, Limited Liability Partnerships or any other parties. Accordingly, the requirement to report on clause 3(iii)(a) of the Order is not applicable to the Company.
- (iii) (b) During the year the Company has not made investments, provided guarantees, provided security and granted loans and advances in the nature of loans to companies, firms, Limited Liability Partnerships or any other parties. Accordingly, the requirement to report on clause 3(iii)(b) of the Order is not applicable to the Company.
- (iii) (c) The Company has not granted loans and advances in the nature of loans to companies, firms, Limited Liability Partnerships or any other parties. Accordingly, the requirement to report on clause 3(iii)(c) of the Order is not applicable to the Company.
- (iii) (d) The Company has not granted loans or advances in the nature of loans to companies, firms, Limited Liability Partnerships or any other parties. Accordingly, the requirement to report on clause 3(iii)(d) of the Order is not applicable to the Company.
- (iii) (e) There were no loans or advance in the nature of loan granted to companies, firms, Limited Liability Partnerships or any other parties. Accordingly, the requirement to report on clause 3(iii)(e) of the Order is not applicable to the Company.
- (iii) (f) The Company has not granted any loans or advances in the nature of loans, either repayable on demand or without specifying any terms or period of repayment to companies, firms, Limited Liability Partnerships or any other parties. Accordingly, the requirement to report on clause 3(iii)(f) of the Order is not applicable to the Company.
- (iv) There are no loans, investments, guarantees, and security in respect of which provisions of sections 185 and 186 of the Companies Act, 2013 are applicable and accordingly, the requirement to report on clause 3(iv) of the Order is not applicable to the Company.
- (v) The Company has neither accepted any deposits from the public nor accepted any amounts which are deemed to be deposits within the meaning of sections 73 to 76 of the Companies Act and the rules made thereunder, to the extent applicable. Accordingly, the requirement to report on clause 3(v) of the Order is not applicable to the Company.
- (vi) We have broadly reviewed the books of account maintained by the Company pursuant to the rules made by the Central Government for the maintenance of cost records under section 148(1) of the Companies Act, 2013, related to the manufacture or service of electric lamps and fluorescent tubes, and are of the opinion that prima facie, the specified accounts and records have been made and maintained. We have not, however, made a detailed examination of the same.
- (vii) (a) The Company is regular in depositing with appropriate authorities undisputed statutory dues including goods and services tax, provident fund, employees' state insurance, income-tax, sales-tax, service tax, duty of customs, duty of excise, value added tax, cess and other statutory dues applicable to it. ANNEXURE 2 TO THE INDEPENDENT AUDITOR'S REPORT OF EVEN DATE ON THE FINANCIAL STATEMENTS OF SIGNIFY INNOVATIONS INDIA LIMTED

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

We have audited the internal financial controls with reference to financial statements of Signify Innovations India Limited ("the Company") as of March 31, 2022 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

Management's Responsibility for Internal Financial Controls

The Company's Management is responsible for establishing and maintaining internal financial controls based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by the Institute of Chartered Accountants of India ("ICAI"). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to the Company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditor's Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls with reference to these financial statements based on our audit. We conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting (the "Guidance Note") and the Standards on Auditing, as specified under section 143(10) of the Act, to the extent applicable to an audit of internal financial controls, both issued by ICAI. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls with reference to these financial statements was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls with reference to these financial statements and their operating effectiveness. Our audit of internal financial controls with reference to financial statements included obtaining an understanding of internal financial controls with reference to these financial statements, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls with reference to these financial statements.

Meaning of Internal Financial Controls With Reference to these Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements includes those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls With Reference to Financial Statements

Because of the inherent limitations of internal financial controls with reference to financial statements, including the possibility of collusion or improper management override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls with reference to financial

statements to future periods are subject to the risk that the internal financial control with reference to financial statements may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

Opinion

In our opinion, the Company has, in all material respects, adequate internal financial controls with reference to financial statements and such internal financial controls with reference to financial statements were operating effectively as at March 31, 2022, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note issued by the ICAI.

1. Reporting Entity

Signify Innovations India limited ("the Company") was incorporated as a public limited company on 22 April 2015 with its registered office at Mangalam Business Center, Block B, 6th Floor, 22, Camac Street, Kolkata – 700016, West Bengal. The Company is domiciled in India and engaged in manufacturing, trading and distribution of all kinds of lighting and allied products and lighting system solution.

2. Significant Accounting Policies

The Company has consistently applied the following accounting policies to all periods presented in the financial statements.

(a) Basis of preparation and measurement

The Ind AS financial statements of the Company have been prepared in accordance with Indian Accounting standards (Ind AS) notified under the Companies (Indian Accounting Standards) Rules, 2015 (as amended from time to time).

The financial statements have been prepared on a historical cost basis except the following items, which are measured on fair value basis on each reporting date:

- Financial assets and liabilities that is measured at fair value (Refer Note 36)
- Defined benefit liability/(assets): fair value of plan assets less present value of defined benefit obligation (Refer Note 35)

The financial statements are presented in Indian Rupees ('INR') in millions and all amounts are rounded to nearest million, except number of shares, face value of share, earning/ (loss) per share or wherever otherwise indicated.

'The Ministry of Corporate Affairs (MCA) vide its notification dated March 24, 2021 amended the Schedule III to the Companies Act, 2013. The Company has considered the impact in the financial statements for the year ended March 31, 2022.

These financial statements were authorized for issue by the Board of Directors on 29 June 2022.

(b) Significant accounting judgments estimates and assumptions

The preparation of the Company's financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts of revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

Judgments

In the process of applying the Company's accounting policies, management has made the following judgments, which have the most significant effect on the amounts recognized in the financial statements.

Leases

The Company has taken various commercial properties on leases. Classification of leases under finance lease or operating lease requires judgment with regard to the estimated economic life and estimated cost of the asset. The Company has analyzed each lease contract on a case by case basis to classify the arrangement as an operating lease or a finance lease.

Estimates and assumptions

The key assumptions concerning the future and other key sources of estimation uncertainty at the reporting date, that have a significant risk of causing a material adjustment to the carrying amounts of assets and liabilities within the next financial year, are described below. The Company based its assumptions and estimates on parameters available when the financial statements were prepared. Existing circumstances and assumptions about future developments, however, may change due to market changes or circumstances arising beyond the control of the Company. Such changes are reflected in the assumptions when they occur.

Share-based payment payments

The cost of cash-settled transactions is measured initially at fair value at the grant date using a "Black-Scholes" option pricing model, further details of which are given in Note 37. This fair value is expensed over the period until the vesting date with recognition of a corresponding liability. The liability is remeasured to fair value at each reporting date up to, and including the settlement date, with changes in fair value recognized in employee benefits expense.

Taxes

Uncertainties exist with respect to the interpretation of complex tax regulations, changes in tax laws, and the amount and timing of future taxable income. Given the wide range of business relationships and the long-term nature and complexity of existing contractual agreements, differences arising between the actual results and the assumptions made, or future changes to such assumptions, could necessitate future adjustments to tax income and expense already recorded. The Company establishes provisions, based on reasonable estimates. The amount of such provisions is based on various factors, such as experience of previous tax audits and differing interpretations of tax regulations by the taxable entity and the responsible tax authority.

Gratuity benefit

The cost of defined benefit plan and the present value obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions which may differ from actual developments in the future. These include the determination of the discount rate, future salary increases and mortality rates. Due to the complexity of the valuation, the underlying assumptions and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date.

In determining the appropriate discount rate, management considers the interest rates of long-term government bonds with extrapolated maturity corresponding to the expected duration of the defined benefit obligation.

The mortality rate is based on publicly available mortality tables. Future salary increases are based on expected future inflation rates for the respective countries. Further details about the assumptions used, including a sensitivity analysis, are given in Note 35.

Useful life of Property, plant and equipment

For the useful life of Property, plant and equipment's refer Note 3 on Property, plant and equipment.

Fair value measurement of financial instrument

When the fair value of financial assets and financial liabilities recorded in the balance sheet cannot be measured based on quoted prices in active markets, their fair value is measured using valuation techniques including the Discounted Cash Flow (DCF) model. The inputs to these models are taken from observable markets where possible, but where this is not feasible, a degree of judgment is required in establishing fair values. Judgments include considerations of inputs such as liquidity risk, credit risk and volatility. Changes in assumptions about these factors could affect the reported fair value of financial instruments. Refer Note 36

Impairment of financial assets

The impairment provisions of financial assets are based on assumptions about risk of default and expected loss rates. The Company uses judgment in making these assumptions and selecting the inputs to the impairment calculation, based on Company's past history, existing market conditions as well as forward looking estimates at the end of each reporting period.

Impairment of non-Financial assets

The Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the Company estimates the asset's recoverable amount. An assets recoverable amount is the higher of an asset's or CGU'S fair value less cost of disposal and its value in use. It is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from other assets or groups of assets. Where the carrying amount

of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, or other fair value indicators.

(c) Classification of Assets and Liabilities as Current and Non-Current

The Company presents assets and liabilities in the Balance Sheet based on current/ non-current classification. An asset is treated as current when it is:

- Expected to be realized or intended to be sold or consumed in normal operating cycle.
- Held primarily for the purpose of trading
- Expected to be realized within twelve months after the reporting period, or
- Cash and cash equivalent unless restricted from being exchanged or used to settle a liability for at least twelve months after the reporting period.

All other assets are classified as non-current.

A liability is treated as current when:

- It is expected to be settled in normal operating cycle.
- It is held primarily for the purpose of trading
- It is due to be settled within twelve months after the reporting period, or
- There is no unconditional right to defer the settlement of the liability for at least twelve months after the reporting period.

All other liabilities are classified as non-current.

Deferred tax assets and deferred tax liabilities are classified as non- current assets and liabilities. The operating cycle is the time between the acquisition of the assets for processing and their realization in cash and cash equivalents. The Company has identified twelve months as its operating cycle.

(d) Property, plant and equipment

Recognition and measurement

Items of property, plant and equipment are stated at cost less accumulated depreciation and accumulated impairment loss, if any. The cost of assets comprises of purchase price and directly attributable cost of bringing the assets to working condition for its intended use including borrowing cost and incidental expenditure during construction incurred up to the date when the assets are ready to use. Capital work in progress includes cost of assets at sites, construction expenditure and interest on the funds deployed.

If significant parts of an item of property, plant and equipment have different useful lives, then they are accounted for as a separate item (major components) of property, plant and equipment. Likewise, when a major inspection is performed, its cost is recognized in the carrying amount of plant and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognized in the statement of profit and loss as incurred.

Gains or losses arising from derecognition of Property, Plant and equipment are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognized in the statement of profit and loss when the asset is derecognized.

Subsequent Measurement

Subsequent expenditure is capitalized only if it is probable that the future economic benefits associated with the expenditure will flow to the company.

Depreciation

Depreciation on property, plant and equipment's (except dies and tools and leasehold improvement) is calculated on Straight Line Method using the rates arrived at based on the estimated useful lives given in Schedule II of the Companies Act.

Dies and tools are depreciated over the estimated useful lives of 5 years, on the basis of technical assessment made by the management.

Leasehold improvements are depreciated over the shorter of lease term and their useful life. Freehold land is not depreciated.

Management believes that the useful life as given above best represent the period over which the assets are likely to be used.

Depreciation methods, useful lives and residual values are reviewed in each financial year end and changes, if any, are accounted for prospectively.

(e) Financial instruments

A financial instrument is any contract that gives rise to a financial asset of one entity and a financial liability or equity instrument of another entity. Financial instruments also include derivative contracts such as foreign currency foreign exchange forward contracts and embedded derivatives in the host contract.

Financial Assets

Initial recognition and measurement

All financial assets are recognized initially at fair value plus, in the case of financial assets not recorded at fair value through profit or loss, transaction costs that are attributable to the acquisition of the financial asset.

Subsequent measurement

Subsequent measurement for purposes of subsequent measurement, financial assets are classified in four categories:

- Debt instruments at amortized cost
- Debt instruments at fair value through other comprehensive income (FVTOCI)
- Debt instruments, derivatives and equity instruments at fair value through profit or loss (FVTPL)
- Equity instruments measured at fair value through other comprehensive income (FVTOCI)

Debt instruments at amortized cost

A financial asset is measured at amortized cost only if both of the following conditions are met:

- The asset is held within a business model whose objective is to hold assets for collecting contractual cash flows, and
- Contractual terms of the asset give rise on specified dates to cash flows that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

This category is the most relevant to the Company. After initial measurement, such financial assets are subsequently measured at amortized cost using the effective interest rate (EIR) method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included in finance income in the statement of profit or loss. The losses arising from impairment are recognized in the statement of profit or loss. This category generally applies to trade and other receivables.

After initial measurement, such financial assets are subsequently measured at amortized cost using the Effective Interest Rate ('EIR') method. Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance income in the profit or loss.

In addition, the Company may elect to classify a debt instrument, which otherwise meets amortized cost or FVOCI criteria, as at FVTPL. However, such election is allowed only if doing so reduces or eliminates a measurement or recognition inconsistency (referred to as 'accounting mismatch').

Debt instruments included within the FVTPL category are measured at fair value with all changes recognized in the profit and loss.

All other Financial Instruments are classified as measured at FVTPL.

Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is primarily derecognized (i.e. removed from the company's balance sheet) when:

- The rights to receive cash flows from the asset have expired, or
- The company has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party under a 'pass-through' arrangement; and either (a) the company has transferred substantially all the risks and rewards of the asset, or (b) the company has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset

When the company has transferred its rights to receive cash flows from an asset or has entered into a passthrough arrangement, it evaluates if and to what extent it has retained the risks and rewards of ownership. When it has neither transferred nor retained substantially all of the risks and rewards of the asset, nor transferred control of the asset, the company continues to recognize the transferred asset to the extent of the company's continuing involvement. In that case, the company also recognizes an associated liability. The transferred asset and the associated liability are measured on a basis that reflects the rights and obligations that the company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and the maximum amount of consideration that the company could be required to repay.

On derecognition of a financial asset, the difference between the carrying amount of the asset (or the carrying amount allocated to the portion of the asset derecognized) and the sum of (i) the consideration received (including any new asset obtained less any new liability assumed) and (ii) any cumulative gain or loss that had been recognized in OCI is recognized in profit or loss.

Impairment of financial assets

In accordance with Ind AS 109, the Company applies expected credit loss (ECL) model for measurement and recognition of impairment loss on the following financial assets and credit risk exposure:

- a) Financial assets that are debt instruments, and are measured at amortized cost e.g., deposits, trade receivables and bank balance
- b) Trade receivables or any contractual right to receive cash or another financial asset that result from transactions that are within the scope of Ind AS 18 (referred to as 'contractual revenue receivables')

The Company follows 'simplified approach' for recognition of impairment loss allowance on:

Trade receivables

The application of simplified approach does not require the Company to track changes in credit risk. Rather, it recognizes impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition.

For recognition of impairment loss on other financial assets and risk exposure, the Company determines that whether there has been a significant increase in the credit risk since initial recognition. The credit risk has not increased significantly, 12-month ECL is used to provide for impairment loss. However, if credit risk of customer has increased significantly, lifetime ECL is used. If, in a subsequent period, credit quality of the instrument improves such that there is no longer a significant increase in credit risk since initial recognition, then the entity reverts to recognizing impairment loss allowance based on 12-month ECL.

Lifetime ECL are the expected credit losses resulting from all possible default events over the expected life of a financial instrument. The 12-month ECL is a portion of the lifetime ECL which results from default events that are possible within 12 months after the reporting date.

ECL is the difference between all contractual cash flows that are due to the Company in accordance with the contract and all the cash flows that the entity expects to receive (i.e., all cash shortfalls), discounted at the original EIR. When estimating the cash flows, the Company considers:

All contractual terms of the financial instrument (including prepayment, extension, call and similar options) over the expected life of the financial instrument. However, in rare cases when the expected life of the financial instrument cannot be estimated reliably, then the entity is required to use the remaining contractual term of the financial instrument

Cash flows from the sale of collateral held or other credit enhancements that are integral to the contractual terms

As a practical expedient, the Company uses a provision matrix to determine impairment loss allowance on portfolio of its trade receivables. The provision matrix is based on its historically observed default rates over the expected life of the trade receivables and is adjusted for forward-looking estimates. At every reporting date, the historical observed default rates are updated and changes in the forward-looking estimates are analyzed.

ECL impairment loss allowance (or reversal) recognized during the period is recognized as income/ expense in the statement of profit and loss. This amount is reflected under the head 'other expenses' in the statement of profit and loss. The balance sheet presentation for various financial instruments is described below:

Financial assets measured as at amortized cost and contractual revenue receivables: ECL is presented as an allowance, i.e., as an integral part of the measurement of those assets in the balance sheet. The allowance reduces the net carrying amount. Until the asset meets write-off criteria, the Company does not reduce impairment allowance from the gross carrying amount.

For assessing increase in credit risk and impairment loss, the Company combines financial instruments on the basis of shared credit risk characteristics with the objective of facilitating an analysis that is designed to enable significant increases in credit risk to be identified on a timely basis.

The Company does not have any purchased or originated credit impaired (POCI) financial assets, i.e., financial assets which are credit impaired on purchase/ origination.

Financial liabilities

Initial recognition and measurement

Financial liabilities are classified, at initial recognition, as financial liabilities at fair value through profit or loss, loans and borrowings, payables.

All financial liabilities are recognized initially at fair value and, in the case of loans and borrowings and payables, net of directly attributable transaction costs.

The Company's financial liabilities include trade and other payables, loans and borrowings including bank overdrafts, financial guarantee contracts and derivative financial instruments.

Subsequent measurement

The measurement of financial liabilities depends on their classification, as described below:

Financial Liabilities measured at amortized cost

After initial recognition, interest-bearing loans and borrowings are subsequently measured at amortized cost using the EIR method. Gains and losses are recognized in profit or loss when the liabilities are derecognized as well as through the EIR amortization process.

Amortized cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the EIR. The EIR amortization is included as finance costs in the statement of profit and loss.

De-recognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the de-recognition of the original liability and the recognition of a new liability. The difference in the respective carrying amounts is recognized in the statement of profit or loss.

Offsetting of financial instruments

Financial assets and financial liabilities are offset and the net amount is reported in the balance sheet if there is a currently enforceable legal right to offset the recognized amounts and there is an intention to settle on a net basis, to realize the assets and settle the liabilities simultaneously.

Reclassification of financial assets

The company determines classification of financial assets and liabilities on initial recognition. After initial recognition, no reclassification is made for financial assets which are equity instruments and financial liabilities. For financial assets which are debt instruments, a reclassification is made only if there is a change in the business model for managing those assets. Changes to the business model are expected to be infrequent. The company's senior management determines change in the business model as a result of external or internal changes which are significant to the company's operations. Such changes are evident to external parties. A change in the business model occurs when the company either begins or ceases to perform an activity that is significant to its operations. If the company reclassifies financial assets, it applies the reclassification prospectively from the reclassification date which is the first day of the immediately next reporting period following the change in business model. The company does not restate any previously recognized gains, losses (including impairment gains or losses) or interest.

(f) Inventories

Raw materials (including packing material), stores and spares are valued at lower of cost and net realizable value. However, materials and other items held for use in the production of inventories are not written down below cost if the finished products in which they will be incorporated are expected to be sold at or above cost.

Costs incurred in bringing each product to its present location and condition are accounted for as follows:

- Raw materials (including packing material) and stores and spares: cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on First In First Out method basis.
- **Finished goods and work in progress:** cost includes cost of direct materials and labor and a proportion of manufacturing overheads based on the normal operating capacity but excluding borrowing costs. Cost of finished goods includes excise duty. Cost is determined on First In First Out method basis.
- **Traded goods:** cost includes cost of purchase and other costs incurred in bringing the inventories to their present location and condition. Cost is determined on First In First Out method basis.

Net realizable value is the estimated selling price in the ordinary course of business, less estimated costs of completion and estimated costs necessary to make the sale.

(g) Provisions

Provisions are recognized when the Company has a present legal or constructive obligation as a result of past events, it is probable that an outflow of resources will be required to settle the obligation and the amount can be reliably estimated. Provisions are not recognized for future operating losses.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. These estimates are reviewed at each reporting date and adjusted to reflect the current best estimates. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognized as interest expense.

- **Replacement warranty**: The Company periodically assesses and provides for the estimated liability on warranty given on sale of its products based on past performance of such products.
- Environmental restoration: The Company periodically assess the liability for expenses to be incurred on restoration of environmental damage caused by carrying out of production activity in company manufacturing plants.
- Extended warranty: For certain products, customer has the option to purchase an extension of warranty. Accordingly, a provision for deferral of revenue is made at the time of sale of goods and recognition of revenue. Revenue recognition in future period occurs on straight-line basis over extended warranty contract period.

(h) Contingent liability:

A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of the Company or a present obligation that is not recognized because it is not probable that an outflow of resources will be required to settle the obligation. A contingent liability also arises in extremely rare cases where there is a liability that cannot be recognized because it cannot be measured reliably. The Company does not recognize a contingent liability but discloses its existence in the financial statements.

(i) Revenue from contract with customer

The Company manufactures, trades and sells a range of lighting and allied products and lighting system solution. Revenue from sale of these products is recognized at a point in time when control of the product is transferred to customer at an amount that reflects the consideration to which the Company expects to be entitled in exchange for those goods.

Revenue Recognition principal adopted by Company for its contracts with customers are given below:

Sale of goods

Revenue from sale of goods is recognised at the point in time when control of the goods is transferred to the customer, generally on delivery of the goods.

The Company considers, whether there are other promises in the contract those are separate performance obligations to which a portion of the transaction price needs to be allocated. In determining the transaction price for the sale of goods, the Company considers the effect of variable consideration, warranty obligation, significant financing components, schemes (if any): -

(i) Variable consideration

If the consideration in a contract includes a variable amount, the Company estimates the amount of consideration to which it will be entitled in exchange for transferring the goods to the customer. The variable consideration is estimated at contract inception and constrained until it is highly probable that a significant revenue reversal in the amount of cumulative revenue recognized will not occur when the associated uncertainty with the variable consideration is subsequently resolved. Certain contracts with customers provide a right of return, trade discounts or volume rebates. Currently, the Company recognizes revenue from the sale of goods measured at the expected value of the consideration

received or receivable, net of returns and allowances, trade discounts and volume rebates. If revenue cannot be reliably measured, the Company defers revenue recognition until the uncertainty is resolved. Such provisions give rise to variable consideration and are estimated at contract inception and updated thereafter.

(ii) Warranty obligations

The Company generally provides for warranties for general repairs that existed at the time of sale, as required by contract. These assurance-type warranties are accounted for under Ind AS 37 Provisions, Contingent Liabilities and Contingent Assets. For certain products, customer has the option to purchase an extension of warranty. Accordingly, a deferral of revenue is made at the time of sale of goods and recognition of revenue. Revenue recognition in future period occurs on straight-line basis over extended warranty contract period. Therefore, accounted for as separate performance obligations to which the Company allocates a portion of the transaction price.

(iii) Significant Financing Components

In respect of short-term advances from its customers, using the practical expedient in Ind AS 115, the Company does not adjust the promised amount of consideration for the effects of a significant financing component if it expects, at contract inception, that the period between the transfer of the promised good or service to the customer and when the customer pays for that good or service will be within normal operating cycle.

In respect of long-term contracts, the transaction price for such contracts is discounted, using the rate that would be reflected in a separate financing transaction between the Company and its customers at contract inception, to take into consideration the significant financing component.

(iv) Schemes

The Company operates several sales incentive programmes wherein the customers are eligible for several benefits on achievement of underlying conditions as prescribed in the scheme programme such as credit notes, tours, gifts etc. Revenue from contract with customer is presented net of scheme.

Sale of services

The Company recognizes revenue from sales of services mainly software over time, because the customer simultaneously receives and consumes the benefits provided by the Company. Revenue from services related activities is recognized as and when services are rendered and on the basis of contractual terms with the parties.

> Contract balances

A contract asset is the right to consideration in exchange for goods or services transferred to the customer. If the Company performs by transferring goods or services to a customer before the customer pays consideration or before payment is due, a contract asset is recognized for the earned consideration that is conditional. A receivable represents the Company's right to an amount of consideration that is unconditional.

Trade receivables represent the Company's right to an amount of consideration that is unconditional (i.e., only the passage of time is required before payment of the consideration is due).

A contract liability is the obligation to transfer goods or services to a customer for which the Company has received consideration (or an amount of consideration is due) from the customer. If a customer pays consideration before the Company transfers goods or services to the customer, a contract liability is recognized when the payment is made or the payment is due (whichever is earlier). Contract liabilities are recognized as revenue when the Company performs under the contract.

Interest income

Interest income is recognized using the EIR method. The EIR is the rate that exactly discounts the estimated future cash receipts through the expected life of the financial instrument or a shorter period, where appropriate to the net carrying amount of the financial asset. The EIR is computed basis the expected cash

flows by considering all the contractual terms of the financial instrument. The calculation includes all fees, transaction costs, and all other premiums or discounts paid or received between parties to the contract that are an integral part of the effective interest rate.

(j) Government grants and subsidies

Government grants are recognized where there is reasonable assurance that the grant will be received and all attached conditions will be complied with. When the grant relates to an expense item, it is recognized as income on a systematic basis over the periods that the related costs, for which it is intended to compensate, are expensed. When the grant relates to an asset, it is recognized as income in equal amounts over the expected useful life of the related asset.

When the Company receives grants of non-monetary assets, the asset and the grant are recorded at fair value amounts and released to profit or loss over the expected useful life in a pattern of consumption of the benefit of the underlying asset i.e. by equal annual instalments.

(k) Employee benefits

Gratuity

The Employee's Gratuity Fund Scheme, which is defined benefit plan, is managed by employee trust maintained with Life Insurance Corporation. The cost of the defined benefit gratuity plan and the present value of the gratuity obligation are determined using actuarial valuations. An actuarial valuation involves making various assumptions that may differ from actual developments in the future. These include the determination of the discount rate, expected rate of return on assets, future salary increases and mortality rates. Due to the complexities involved in the valuation and its long-term nature, a defined benefit obligation is highly sensitive to changes in these assumptions. All assumptions are reviewed at each reporting date

In determining the appropriate discount rate for plans operated in India, the management considers the interest rates of government bonds in currencies consistent with the currencies of the post-employment benefit obligation. The mortality rate is based on mortality rates from Indian Assures Lives Mortality 2006-08. Those mortality tables tend to change only at interval in response to demographic changes. Future salary increases and gratuity increases are based on expected future inflation rates. Further details about gratuity obligations are given in note 36.

Provident fund

Retirement benefit in the form of provident fund is a defined benefit plan. In respect of employees who are members of constituted and approved trusts, the Company recognises contribution payable to such trusts as an expense including any shortfall in interest between the amount of interest realised by the investment and the interest payable to members at the rate declared by the Government of India. In respect of other employees, provident funds are deposited with the Employees Provident Fund organisation and recognised as expense. The Company recognizes contribution payable to the provident fund scheme as an expenditure when an employee renders the related services.

Compensated Absences

Accumulated leave, which is expected to be utilized within the next 12 months, is treated as short-term employee benefit. The Company measures the expected cost of such absences as the additional amount that it expects to pay as a result of the unused entitlement that has accumulated at the reporting date.

The Company treats accumulated leave expected to be carried forward beyond twelve months, as long-term employee benefit for measurement purposes. Such long-term compensated absences are provided for based on the actuarial valuation using the projected unit credit method at the year-end. Actuarial gains/losses are immediately taken to statement of Profit and Loss in the period in which they occur. The Company presents the entire leave as a current liability in the balance sheet, since it does not have an unconditional right to defer its settlement for 12 months after the reporting date.

Long term incentive plan

Signify Innovations India Limited group company (Signify N.V.) introduced the Long-term Incentive Plan (LTI Plan) during the financial year ended 31 March 2018. Under the Signify LTI Plan, which is equity settled, eligible employees are granted both conditional shares and performance shares. Vesting of performance shares is conditional on the achievement of performance conditions measured over a period of three years. Also, vesting is conditional to the grantee still being employed with Signify at the vesting date. In addition to shares awarded under the LTI Plan, Signify may in individual cases, such as in the hiring process of members of seniormanagement, also grant restricted shares.

During the vesting period, the costs of the LTI plan is calculated and accounted by the Company as an employee benefit expense with corresponding increase in payable to the holding company in accordance with the recognition and measurement principles as prescribed in Ind AS 102 Share Based Payments.

The total expense is recognized over the vesting period, which is the period over which all the specified vesting conditions are to be satisfied.

Employee stock purchase plan (ESPP)

ESPP is a company-run program in which company contributes an additional 15% on top of employee's voluntary share purchase contribution. Employees pay into the plan through payroll deductions, which are used to buy shares of the Group company (Signify N.V.), which is listed on the Euronext Amsterdam Stock Exchange. The Company uses the funds to purchase shares on behalf of the participating employees. The Company contribution is recognized as an expense in the month of contribution.

(l) Foreign currency transactions

The Company's financial statements are presented using the currency of the primary economic environment in which the Company operates ('the functional currency'). The financial statements are presented in INR, which is the company's functional and presentation currency, being the currency in which the Company's share capital is denominated.

Derivative

The Company enters into certain derivative contracts to hedge risks which are not designated as hedges. Such contracts are accounted for at fair value through profit or loss and are included in other income/ expense.

Transactions and balances

Foreign currency transactions are recorded, on initial recognition in the functional currency, by applying to the foreign currency amount the spot exchange rate between the functional currency and the foreign currency at the date of the transaction.

Monetary assets and liabilities denominated in foreign currencies are translated at the functional currency spot rates of exchange at the reporting date.

Exchange differences arising on settlement or translation of monetary items are recognized in statement of profit or loss.

(m) Borrowing Cost

Borrowing costs directly attributable to the acquisition, construction or production of an asset that necessarily takes a substantial period of time to get ready for its intended use or sale are capitalized as part of the cost of the asset. All other borrowing costs are expensed in the period in which they occur. Borrowing costs consist of interest and other costs that an entity incurs in connection with the borrowing of funds. Borrowing cost also includes exchange differences to the extent regarded as an adjustment to the borrowing costs.

(n) Income tax

Current income tax

Current income-tax is measured at the amount expected to be paid to the tax authorities in accordance with the Income-tax Act, 1961 enacted in India and tax laws prevailing in the respective tax jurisdictions where the

company operates. The tax rates and tax laws used to compute the amount are those that are enacted or substantively enacted, at the reporting date.

Current income tax relating to items recognized outside statement of profit or loss is recognized outside statement of profit or loss (either in other comprehensive income or in equity). Current tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity. Management periodically evaluates positions taken in the tax returns with respect to situations in which applicable tax regulations are subject to interpretation and establishes provisions where appropriate.

Deferred tax

Deferred tax is provided using the liability method on temporary differences between the tax bases of assets and liabilities and their carrying amounts for financial reporting purposes at the reporting date.

Deferred tax liabilities are recognized for all taxable temporary differences, except:

- When the deferred tax liability arises from the initial recognition of goodwill or an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss
- In respect of taxable temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, when the timing of the reversal of the temporary differences can be controlled and it is probable that the temporary differences will not reverse in the foreseeable future

Deferred tax assets are recognized for all deductible temporary differences, the carry forward of unused tax credits and any unused tax losses. Deferred tax assets are recognized to the extent that it is probable that taxable profit will be available against which the deductible temporary differences, and the carry forward of unused tax credits and unused tax losses can be utilized, except:

- When the deferred tax asset relating to the deductible temporary difference arises from the initial recognition of an asset or liability in a transaction that is not a business combination and, at the time of the transaction, affects neither the accounting profit nor taxable profit or loss
- In respect of deductible temporary differences associated with investments in subsidiaries, associates and interests in joint ventures, deferred tax assets are recognized only to the extent that it is probable that the temporary differences will reverse in the foreseeable future and taxable profit will be available against which the temporary differences can be utilized

The carrying amount of deferred tax assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the deferred tax asset to be utilized. Unrecognized deferred tax assets are re-assessed at each reporting date and are recognized to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are measured at the tax rates that are expected to apply in the year when the asset is realized or the liability is settled, based on tax rates (and tax laws) that have been enacted or substantively enacted at the reporting date.

Deferred tax relating to items recognized outside statement of profit or loss is recognized outside statement of profit or loss (either in other comprehensive income or in equity). Deferred tax items are recognized in correlation to the underlying transaction either in OCI or directly in equity.

Deferred tax assets and deferred tax liabilities are offset if a legally enforceable right exists to set off current tax assets against current tax liabilities and the deferred taxes relate to the same taxable entity and the same taxation authority.

(o) Impairment of non-financial assets

The Company assesses, at each reporting date, whether there is an indication that an asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, the company estimates the asset's recoverable amount. An asset's recoverable amount is the higher of an asset's or cash-generating unit's (CGU) fair value less costs of disposal and its value in use. The recoverable amount is determined for an individual asset, unless the asset does not generate cash inflows that are largely independent of those from

other assets or groups of assets. Where the carrying amount of an asset or CGU exceeds its recoverable amount, the asset is considered impaired and is written down to its recoverable amount.

In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. In determining fair value less costs of disposal, recent market transactions are taken into account. If no such transactions can be identified, an appropriate valuation model is used. These calculations are corroborated by valuation multiples, quoted share prices for publicly traded companies or other available fair value indicators.

The Company bases its impairment calculation on detailed budgets and forecast calculations, which are prepared separately for each of the Company's cash-generating units to which the individual assets are allocated. These budgets and forecast calculations generally cover a period of five years. For longer periods, a long-term growth rate is calculated and applied to project future cash flows after the fifth year.

To estimate cash flow projections beyond periods covered by the most recent budgets/forecasts, the Company extrapolates cash flow projections in the budget using a steady or declining growth rate for subsequent years, unless an increasing rate can be justified. In any case, this growth rate does not exceed the long-term average growth rate for the products, industries, or country or countries in which the entity operates, or for the market in which the asset is used.

Impairment losses are recognized in the statement of profit and loss.

For assets excluding goodwill, an assessment is made at each reporting date to determine whether there is an indication that previously recognized impairment losses no longer exist or have decreased. If such indication exists, the Company estimates the asset's or CGU's recoverable amount. A previously recognized impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable amount since the last impairment loss was recognized. The reversal is limited so that the carrying amount of the asset does not exceed its recoverable amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognized for the asset in prior years. Such reversal is recognized in the statement of profit or loss.

(p) Segment Reporting

An operating segment is a component of the Company that engages in business activities from which it may earn revenues and incur expenses, including revenues and expenses that relate to transactions with any of the Company's other components, and for which discrete financial information is available.

Results of the operating segments are reviewed regularly by the Company's Chief Executive Officer (CEO) who has been identified as the Chief Operating Decision Maker ('CODM'), to make decisions about resources to be allocated to the segment and assess its performance and for which discrete financial information is available. Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker ('CODM').

The Company is operating under only one segment i.e. Lighting Segment. Though the Company has various range of products, all of them have been considered into lighting segment based upon their final use by end consumer.

(q) Cash and cash equivalents

Cash and cash equivalents comprise cash at bank and on hand and short-term money market deposits with original maturities of three months or less that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.

(r) Leases

The Company assesses at contract inception whether a contract is, or contains, a lease. That is, if the contract conveys the right to control the use of an identified asset for a period of time in exchange for consideration. The determination of whether an arrangement is (or contains) a lease is based on the substance of the arrangement at the inception of the lease.

Where the Company is lessee

The Company applies a single recognition and measurement approach for all leases, except for short-term leases and leases of low-value assets. The Company recognizes lease liabilities to make lease payments and right-of-use assets representing the right to use the underlying assets.

Right-of-use Assets

The Company recognizes right-of-use assets at the commencement date of the lease (i.e., the date the underlying asset is available for use). Right-of-use assets are measured at cost, less any accumulated depreciation and impairment losses, and adjusted for any remeasurement of lease liabilities. The cost of right-of-use assets includes the amount of lease liabilities recognized, initial direct costs incurred, and lease payments made at or before the commencement date less any lease incentives received. Right-of-use assets are depreciated on a straight-line basis over the shorter of the lease term and the estimated useful lives of the assets.

- Office / Buildings: 2 to 9 years
- Motor Vehicles: 3 to 5 years

The right-of-use assets are also subject to impairment.

Lease Liabilities

At the commencement date of the lease, the Company recognizes lease liabilities measured at the present value of lease payments to be made over the lease term. The lease payments include fixed payments (including in substance fixed payments) less any lease incentives receivable, variable lease payments that depend on an index or a rate, and amounts expected to be paid under residual value guarantees. The lease payments also include the exercise price of a purchase option reasonably certain to be exercised by the Company and payments of penalties for terminating the lease, if the lease term reflects the Company exercising the option to terminate.

In calculating the present value of lease payments, the Company uses its incremental borrowing rate at the lease commencement date because the interest rate implicit in the lease is not readily determinable. After the commencement date, the amount of lease liabilities is increased to reflect the accretion of interest and reduced for the lease payments made. In addition, the carrying amount of lease liabilities is remeasured if there is a modification, a change in the lease term, a change in the lease payments (e.g., changes to future payments resulting from a change in an index or rate used to determine such lease payments) or a change in the assessment of an option to purchase the underlying asset.

(s) Earnings Per Share

Basic earnings per share is calculated by dividing the profit attributable to owners of the Company by the weighted average number of equity shares outstanding during the financial year, adjusted for bonus elements in equity shares issued during the year and excluding treasury shares.

Diluted earnings per share adjusts the figures used in the determination of basic earnings per share to take into account the after income tax effect of interest and other financing costs associated with dilutive potential equity shares and the weighted average number of additional equity shares that would have been outstanding assuming the conversion of all dilutive potential equity shares.

(t) Non -current assets held for sale

The company classifies non -current assets and (or disposal groups) as held for sale if their carrying amounts will be recovered principally through a sale rather than through continuing use. Actions required to complete the sale should indicate that it is unlikely that significant changes to the sale will be made or that the decision to sell will be withdrawn. Management must be committed to the sale expected within one year from the date of classification.

For these purposes, sale transactions include exchanges of non-current assets for other non-current assets when the exchange has commercial substance. The criteria for held for sale classification is regarded met only when the assets or disposal group is available for immediate ale in its present condition, subject only to terms

that are usual and customary for sales of such assets (or disposal group), its sale is highly probable; and it will genuinely be sold, not abandoned.

(u) Business Combination and Goodwill

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value and the amount of any non-controlling interests in the acquiree. For each business combination, the Company elects whether to measure the non-controlling interests in the acquiree at fair value or at the proportionate share of the acquiree's identifiable net assets. Acquisition-related costs are expensed as incurred.

At the acquisition date, the identifiable assets acquired, and the liabilities assumed are recognized at their acquisition date fair values. For this purpose, the liabilities assumed include contingent liabilities representing present obligation and they are measured at their acquisition fair values irrespective of the fact that outflow of resources embodying economic benefits is not probable.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognized for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Company re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognized at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognized in OCI and accumulated in equity as capital reserve. However, if there is no clear evidence of bargain purchase, the entity recognizes the gain directly in equity as capital reserve, without routing the same through OCI.

After initial recognition, goodwill is measured at cost less any accumulated impairment losses. For the purpose of impairment testing, goodwill acquired in a business combination is, from the acquisition date, allocated to each of the Company's cash-generating units that are expected to benefit from the combination, irrespective of whether other assets or liabilities of the acquiree are assigned to those units.

A cash generating unit to which goodwill has been allocated is tested for impairment annually, or more frequently when there is an indication that the unit may be impaired. If the recoverable amount of the cash generating unit is less than its carrying amount, the impairment loss is allocated first to reduce the carrying amount of any goodwill allocated to the unit and then to the other assets of the unit pro rata based on the carrying amount of each asset in the unit. Any impairment loss for goodwill is recognized in profit or loss. An impairment loss recognized for goodwill is not reversed in subsequent periods.

Where goodwill has been allocated to a cash-generating unit and part of the operation within that unit is disposed of, the goodwill associated with the disposed operation is included in the carrying amount of the operation when determining the gain or loss on disposal. Goodwill disposed in these circumstances is measured based on the relative values of the disposed operation and the portion of the cash-generating unit retained.

If the initial accounting for a business combination is incomplete by the end of the reporting period in which the combination occurs, the Company reports provisional amounts for the items for which the accounting is incomplete. Those provisional amounts are adjusted through goodwill during the measurement period, or additional assets or liabilities are recognized, to reflect new information obtained about facts and circumstances that existed at the acquisition date that, if known, would have affected the amounts recognized at that date. These adjustments are called as measurement period adjustments. The measurement period does not exceed one year from the acquisition date.

(v) Exceptional item.

Items of income or expense of non-routine are presented separately when their nature and amount of such significance and is relevant to an understanding of the entity's financial performance.

2.2 Change in accounting Policies and disclosures

New and amended standards

Several other amendments apply for the first time for the year ending 31 March 2022, but do not have an impact on the financial statements of the Company. The Company has not early adopted any standards, amendments that have been issued but are not yet effective/notified.

(a) Amendments to Ind AS 116: Covid-19-Related Rent Concessions

The amendments provide relief to lessees from applying Ind AS 116 guidance on lease modification accounting for rent concessions arising as a direct consequence of the Covid-19 pandemic. As a practical expedient, a lessee may elect not to assess whether a Covid-19 related rent concession from a lessor is a lease modification. A lessee that makes this election accounts for any change in lease payments resulting from the Covid-19 related rent concession the same way it would account for the change under Ind AS 116, if the change were not a lease modification. The amendments are applicable for annual reporting periods beginning on or after the 1 April 2020. In case, a lessee has not yet approved the financial statements for issue before the issuance of this amendment, then the same may be applied for annual reporting periods beginning on or after the 1 April 2019. This amendment had no impact on the financial statements of the Company.

(b) Amendments to Ind AS 107 and Ind AS 109: Interest Rate Benchmark Reform

The amendments to Ind AS 109 Financial Instruments: Recognition and Measurement provide a number of reliefs, which apply to all hedging relationships that are directly affected by interest rate benchmark reform. A hedging relationship is affected if the reform gives rise to uncertainty about the timing and/or amount of benchmark-based cash flows of the hedged item or the hedging instrument. This amendment had no impact on the financial statements of the Company as it does not have any interest rate hedge relationships.

The amendments to Ind AS 107 prescribe the disclosures which entities are required to make for hedging relationships to which the reliefs as per the amendments in Ind AS 109 are applied. These amendments are applicable for annual periods beginning on or after the 1 April 2020. This amendment had no impact on the financial statements of the Company.

The standards issued but not yet effective will not have any material impact on the financial statements.

(c) Amendments to Ind AS 103 Business Combinations

The amendment states that to qualify for recognition as part of applying the acquisitioned identifiable assets acquired and liabilities assumed must meet the definitions of assets and liabilities in the Framework for the Preparation and Presentation of Financial Statements in accordance with Indian Accounting Standards* issued by the Institute of Chartered Accountants of India at the acquisition date. Therefore, the acquirer does not recognise those costs as part of applying the acquisition method. Instead, the acquirer recognises those costs in its post-combination financial statements in accordance with other Ind AS.

These amendments had no impact on the financial statements of the Company.

(d) Amendment to Ind AS 105, Ind AS 16 and Ind AS 28

The definition of "Recoverable amount" is amended such that the words "the higher of an asset's fair value less costs to sell and its value in use" are replaced with "higher of an asset's fair value less costs of disposal and its value in use". The consequential amendments are made in Ind AS 105, Ind AS 16 and Ind AS 28.

These amendments had no impact on the financial statements of the company.

** During the year ended March 31,2020, the Company had acquired business of Cooper India, a division of Eaton on slump sale basis at an aggregate consideration of ₹ 939 million against which net assets acquired was of ₹ Nil and accordingly excess of purchase consideration over net assets acquired on fair value had been recognized as 'Intangibles assets' in the financial statements. The said intangibles primarily relate to customer contract, customer for the purpose of evaluation of impairment testing on acquired intangible assets. The company performed its annual impairment test for years ended 31 March 2022 and 31 March 2021. The company considers the relationship between its head count of employees and markup agreed for the services, when eviewing for indicators of impairment. As at reporting date, there were no indicators for impairment of intangible assets considering the below set of key elationships and others* and are not separately identifiable in terms of Ind AS 103. The company has considered Cooper India a cash generating unit assumptions.

Others refer to the technical know how, assembled workforce, business processess & business generating potential

Key assumptions used for value in use calculations

The calculation of value in use is most sensitive to the following assumptions:

- a) Employee head count
- b) Discount rates
- Growth rates used to extrapolate cash flows beyond the forecast period

Employee head count

Headcount additions for FY 2022- 2023 has been considered as per the approved business plan by the management. Increase in head count from next year onwards has been considered based on future growth road map considering the current business scenarios. Decreased operations of the CGU can lead to a decline in the employee head count. A decrease in the head count by 5% would not result in any impairment

Discount rates

underlying assets that have not been incorporated in the cash flow estimates. The discount rate calculation is based on the specific circumstances of the Discount rates represent the current market assessment of the risks specific to CGU, taking into consideration the time value of money and risks of company and its operating segments and is derived from its weighted average cost of capital (WACC). The WACC takes into account equity. The cost of equity is derived from the expected return on investment by the company's investors. CGU specific risk is incorporated by applying individual beta factors. The beta factors are evaluated annually based on publicly available market data. Adjustments to the discount rate are made to factor in the specific amount and timing of the future tax flows in order to reflect a pre-tax discount rate. A rise in the pre-tax discount rate to 15.0% (i.e., +1%) would not result to any impairment.

c) Growth rates used to extrapolate cash flows beyond the forecast period

The Growth rate at terminal value is considered as 5% basis management estimate of future cash flow considering businees outlook and agreement for services. A decline in 1% of growth rate would not result to any impairment

24.2. Nature of provisions:

(a) Decommissioning liability

Decommission liability is the estimated amount of dismantling and restoration cost that the company expects to incur in the future years on the dismantling of assets and restoring the site to a specified state upon the termination of lease.

(b) Replacement guarantee

The Company provides for the estimated liability on guarantees given on sale of its products based on past performance of such products. The provision represents the expected cost of replacement and free of charge services and it is expected that the expenditure will be incurred over the guarantee period which usually ranges from 6 months to 24 months.

(c) Legal and regulatory

The Company has made provision for taxes and duties relating to cases that are pending assessments before Adjudicating Authorities where probable outflow of resources may arise in future which would depend on the ultimate outcome on conclusion of the cases.

(d) Employee related payables

The Company has made provisions in respect of amounts payable to employees on account of accumulated leaves (leave encashment) and defined benefits payable in respect of provident fund.

(e) Contingencies

The Company has created provisions in respect of certain claims against the Company in which there is probable outflow of resources.

(f) Environmental Provisions

The Company has created provisions in respect of probable chances of amount payable for environmental losses to the regulatory authorities as applicable to the Company.

Performance obligations

Sale of products:

Performance obligation in respect of sale of goods is satisfied at the point in time when control of the goods is transferred to the customer, generally on delivery of the goods.

Installation service:

The performance obligation in respect to of installation services is satisfied upon completion of installation and acceptance of customer.

Warranty obligation:

For certain products, customer has the option to purchase an extension of warranty. Accordingly, a provision for deferral of revenue is made at the time of sale of goods and recognition of revenue. Revenue recognition in future period occurs on straight-line basis over extended warranty contract period. Therefore, accounted for as separate performance obligations to which the Company allocates a portion of the transaction price.

Schemes:

The Company operates several sales incentive programmes wherein the customers are eligible for several benefits on achievement of underlying conditions as prescribed in the scheme programme such as credit notes. Revenue from contract with customer is presented net of scheme.

Significant financing component:

In respect of long-term contracts, the transaction price for such contracts is discounted, using the rate that would be reflected in a separate financing transaction between the Company and its customers at contract inception, to take into consideration the significant financing component.

Significant judgments:

Significant judgment in determining the timing of satisfaction of performance obligation

The Company exercises judgement in determining whether the performance obligation is satisfied at a point in time or over a period of time.

Critical judgment in determining the transaction price

Judgement is also required to determine the transaction price for the contract. The estimated amount of variable consideration is adjusted in the transaction price only to the extent that it is highly probable that a significant reversal in the amount of cumulative revenue recognised will not occur and is reassessed at the end of each reporting period.

For this, Judgment is required in determining the probability and level of discounts that will be granted. The estimate is updated throughout the term of the contract.

34. Segment information

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker.

In accordance with Ind AS 108– Operating Segment, the operating segments used to present segment information are identified on the basis of information reviewed by the Company's management to allocate resources to the segments and assess their performance. An operating segment is a component of the Company that engages in business activities from which it earns revenues and incurs expenses, including revenues and expenses that relate to transactions with any of the Company's other components.

Results of the operating segments are reviewed regularly by the Company's Chief Executive Officer (CEO) who has been identified as the Chief Operating Decision Maker ('CODM'), to make decisions about resources to be allocated to the segment and assess its performance and for which discrete financial information is available.

The Company is primarily engaged in manufacturing, trading and distribution of all kinds of lighting and allied products and lighting system solution. Given that the economic environment in which the Company operates is significantly similar and not subject to materially different risks and rewards and all of the activities whether on a stand alone basis or in aggregate do not exceed the quantitative threshold mentioned in Ind AS 108 (Operating Segments), the Company has identified and operates as a single reportable operating segment.

35. Employee benefits

The Company contributes to the following post-employment defined benefit plans in India.

(i) Defined Contribution Plans:

The Company makes contributions towards provident fund to a defined contribution retirement benefit plan for qualifying employees. Under the plan, the Company is required to contribute a specified percentage of payroll cost to the retirement benefit plan to fund the benefits.

		(₹ in million)
	For the year ended 31 March 2022	For the year ended 31 March 2021

Assumptions regarding future mortality have been based on published statistics and mortality tables.

E. Sensitivity analysis

Reasonably possible changes at the reporting date to one of the relevant actuarial assumptions, holding other assumptions constant, would have affected the defined benefit obligation by the amounts shown below.

			(₹ in million)
	31 March 2022 31 March 2			
	Increase	Decrease	Increase	Decrease
Discount rate (1% movement)	381	435	361	417
Expected rate of future salary increase (1% movement)	434	381	417	361

Although the analysis does not take account of the full distribution of cash flows expected under the plan, it does provide an approximation of the sensitivity of the assumptions shown.

F. The following payments are expected contributions to the defined benefit plan in future years:

		(₹ in million)
	March 31, 2022	March 31, 2021

(iii) Other long-term employee benefits:

During the year ended 31 March 2022, the Company has incurred an expense on compensated absences amounting to ₹ 54 million (previous year ₹ 43 million). The Company determines the expense for compensated absences basis the actuarial valuation of plan assets and the present value of the obligation, using the Projected Unit Credit Method.

(iv) Provident Fund

In accordance with Indian law, eligible employees of Signify Innovations India Limited are entitled to receive benefits in respect of provident fund, a defined benefit plan, in which both employees and the Company make monthly contributions at a specified percentage of the covered employees salary (currently 12% of employees' salary). Employees who have joined on or after 1 April 2016 are part of EPFO set up and old employees who are on rolls on or before 31 March 2016 are part of Philips India PF Trust (erstwhile demerged company's PF trust). The interest rate payable to the members of the trust shall not be lower than the statutory rate of interest declared by the Central Government under the Employees Provident Funds and Miscellaneous Provisions Act, 1952 and shortfall, if any, shall be made good by the Company. The liability in respect of the shortfall of interest earnings of the Fund is determined on the basis of an actuarial valuation.

In the current year the Company has closed the Philips India Provident Fund Trust and settled all its net liability payable as on the closure date i.e. September 9, 2021. The Philips India PF trust has transferred all the contributions to EPFO.

From the current year the company's policy has been changed from defined benefit plan to defined benefit contribution plan.

The security deposits (financial assets) being in nature of longterm in nature are discounted and fair valued through profit and loss.

B. Fair value hierarchy

This section explains the judgements and estimates made in determining the fair values of the financial instruments that are:

- (a) recognised and measured at fair value and
- (b) measured at amortised cost and for which fair values are disclosed in the financial statements

To provide an indication about the reliability of the inputs used in determining fair value, the Company has classified its financial instruments into the three levels prescribed under the accounting standard. An explanation of each level follows underneath the table.

The Company uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: Level 1 hierarchy includes financial instruments measured using quoted prices.

Level 2: The fair value of financial instruments that are not traded in an active market (for example, derivatives) is determined using valuation techniques which maximize the use of observable market data and rely as little as possible on entity-specific estimates. If all significant inputs required to fair value an instrument are observable, the instrument is included in level 2.

Level 3: If one or more of the significant inputs is not based on observable market data, the instrument is included in level 3. This is the case for unlisted equity securities.

II. Financial risk management

The Company has exposure to the following risks arising from financial instruments:

- credit risk;
- liquidity risk; and
- market risk

i. Risk management framework

The Company's board of directors has overall responsibility for the establishment and oversight of the Company's risk management framework. The board of directors has established the Risk framework for developing and monitoring the Company's risk management policies.

The Company's risk management framework is established to identify and analyze the risks faced by the Company, to set appropriate risk limits and controls and to monitor risks and adherence to limits. Risk management framework is reviewed regularly to reflect changes in market conditions and the Company's activities. The Company, through its training and management standards and procedures, aims to maintain a disciplined and constructive control environment in which all employees understand their roles and obligations.

The Company's Audit Committee oversees how management monitors compliance with the Company's risk and reviews the adequacy of the risk management framework in relation to the risks faced by the Company. The Audit Committee is assisted in its oversight role by Internal Audit. Internal Audit undertakes periodic reviews of company processes and risks, the results of which are reported to the Audit Committee.

ii. Credit risk

Credit risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers and investments in debt securities.

The carrying amount of financial assets represents the maximum credit exposure.

Trade and other receivables

The Company's exposure to credit risk is influenced mainly by the individual characteristics of each customer. However, management also considers the factors that may influence the credit risk of its customer base, including the default risk of the industry and country in which customers operate.

An impairment analysis is performed on an individual basis for major customers. In addition, a large number of minor receivables are grouped into homogenous groups and assessed for impairment collectively. The maximum exposure to credit risk at the reporting date is the carrying value of each class of financial assets. The Company evaluates the concentration of risk with respect to trade receivables as low, the trade receivables are located in several jurisdictions and operate in largely independent markets.

The Company establishes an allowance for impairment that represents its estimate of incurred losses in respect of trade and other receivables. Basis the evaluation, the management has determined that there are credit impairment loss on the trade and other receivables.

iii. Liquidity risk

Liquidity risk is the risk that the Company will encounter difficulty in meeting the obligations associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach to managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when they are due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation.

Prudent liquidity risk management implies maintaining sufficient cash and marketable securities and the availability of funding through an adequate amount of committed credit facilities to meet obligations when due and to close out market positions. Due to the dynamic nature of the underlying businesses, Company treasury maintains flexibility in funding by maintaining availability under committed credit lines.

Management monitors rolling forecasts of the Company's liquidity position (comprising the undrawn borrowing facilities below) and cash and cash equivalents on the basis of expected cash flows. This is generally carried out at local level in the operating companies of the Company in accordance with practice and limits set by the Company. In addition, the Company's liquidity management policy involves projecting cash flows in major currencies and considering the level of liquid assets necessary to meet these, monitoring balance sheet liquidity ratios against internal and external regulatory requirements and maintaining debt financing plans.

Market risk

Market risk is the risk that changes in market prices such as foreign exchange rates and interest rates will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return.

The Company uses derivatives (forward contracts) to manage market risks. All such transactions are carried out within the guidelines set by the Risk Management Committee.

(₹ in million)

....

Notes to the financial statements for the year ended 31 March 2022

Currency risk

The Company is exposed to foreign exchange risk arising from foreign currency transactions, primarily with respect to the USD, and EUR. Foreign exchange risk arises from future commercial transactions and recognized assets and liabilities denominated in a currency that is not the company's functional currency (INR). The risk is measured through a forecast of highly probable foreign currency cash flows.

In respect of other monetary assets and liabilities denominated in foreign currencies, the Company's policy is to ensure that its net exposure is kept to an acceptable level by buying or selling foreign currencies at spot rates when necessary to address short-term imbalances.

Capital management

The Company monitors capital using a ratio of 'adjusted net debt' to 'adjusted equity'. For this purpose, adjusted net debt is defined as total liabilities, comprising interest-bearing loans and borrowings and obligations under finance leases, less cash and cash equivalents. Adjusted equity comprises all components of equity.

37. Employees' Share-based Payments:

Signify Long-term Incentive Plan

During the year 2017-18 Signify introduced the Long-term Incentive Plan (LTI Plan). Under the Signify LTI Plan, which is equity settled, eligible employees are granted both conditional shares and performance shares of the Group company (Signify N.V.). Conditional shares have a three-year cliff vesting period and will vest if a grantee is still employed with Signify at the vesting date.

Vesting of performance shares is conditional on the achievement of performance conditions measured over a period of three years. The performance condition measurement is based on three measures, Relative Total Shareholder Return (TSR) (25% of the shares), Free Cash Flow (FCF) (25% of the shares), return on capital employed (25% of the shares) Sustainability (25% of the shares). In addition, vesting is conditional to the grantee still being employed with Signify at the vesting date.

For the Board of Management and certain members of senior management, the LTI Plan consists of performance shares only. Shares are conditionally granted annually.

In addition to shares awarded under the Signify LTI Plan, Signify may in individual cases, such as in the hiring process of members of (senior-) management, also grant restricted shares. Restricted shares have either three-year cliff vesting period or vest gradually over the vesting period of one, two or three years.

Under the terms of the employee stock purchase plan (ESPP) established by Signify in the FY 2017-18, employees are eligible to purchase a limited number of Signify shares at discounted prices through payroll withholdings.

Signify performance shares

TSR performance measurement is a market performance condition.

The fair value of shares granted under TSR is measured based on Monte Carlo simulation. The closing share price at grant date is adjusted for the present value of expected dividends during the vesting period, as participants are not compensated for Signify dividend payouts. Monte Carlo simulation takes into account market conditions expected to impact relative Total Shareholders' Return performance in relation to selected peers.

Assumptions used in Monte Carlo Simulation

for valuation in %

	FY 2020-21
Risk-free interest rate	(0.7%)
Expected share price volatility	39%

The assumptions were used for these calculations only and do not necessarily represent an indication of Signify management's expectation of future developments for other purposes. Historic volatility was measured over the same timeframe as the simulation period (weighted average 2.6 years).

The amount calculated as an expense for TSR shares is not adjusted for actual performance.

FCF and Sustainability measurements are non-market performance conditions. Fair value of shares granted under FCF and Sustainability conditions equals the closing share price on the grant date, again adjusted for the present value of expected dividends during the vesting period.

The amount calculated as an expense for FCF and Sustainability shares is adjusted for actual performance.

A summary of Signify performance shares movements as of 31 March, 2022, is presented below:
