Explore WiZ

With WiZ, you don't just illuminate rooms, but sync to the needs of everyone who lives there. Everyone can have lighting that improves their day, simply and intuitively.

This is smart lighting that welcomes you into the kitchen when it's still dark outside. Winds down your rambunctious kids before bedtime. Eases you into relaxation after a long day at the home office. Secures your home when you're away, and comforts you when you pull into the driveway at night. No matter who you are, where you live, or how much technical knowledge you have — WiZ offers smart lighting that's surprisingly thoughtful.

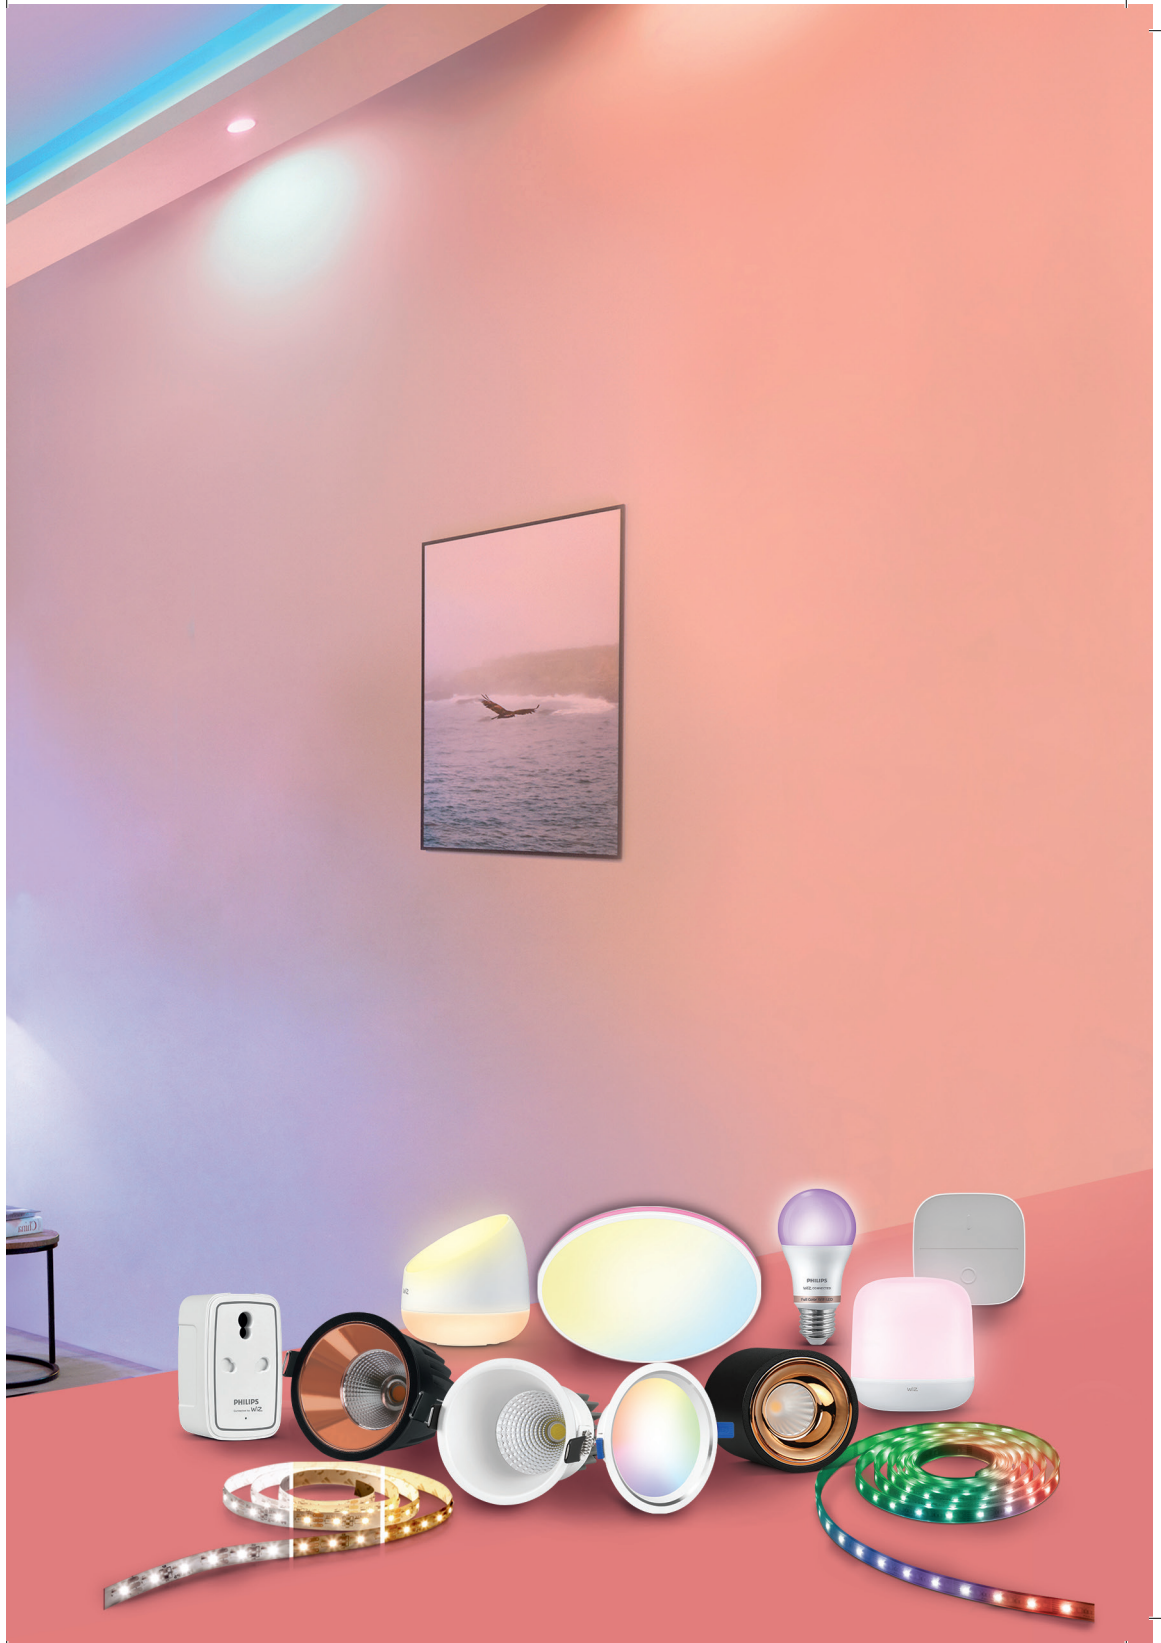

Smart lighting for your everyday needs

Make a smart choice with Philips Smart Wi-Fi LED lights using features like voice control, timers & schedules, smart dimming and 16 million colour options for the apt lighting. Choose from various range starting from Smart LED downlights, lamps, strips, bulbs and get started.

Be it your housewarming party or enjoying a perfect movie night we have it all.

Connected by

WIZ

Say hello to limitless possibilities

16 Million colours

Enjoy the dimmable white and coloured light for the desired ambience depending on your mood.

Timers and schedules

Set automated home lighting schedules to suit your lifestyle.

Voice control

Enjoy full control of your lights with voice activated devices.

Smart dimming

Transition easily from bright day light to warm cozy light with smart dimming.

Circadian rhythm

Automate lights with circadian rhythm to suit various times and moods of the day.

No hub required

No additional equipment required, just follow simple steps and pair your device with the app.

Pre-set modes

Comes with variety of preset light modes for everyday situations ranging from fun to functional relax mode.

Tunable white/yellow

Enjoy the energising tunable white light or warm yellow light for a perfect ambience.

Power outage recovery

Lights that were turned off in the absence of power, won't turn on when power supply is resumed.

Privacy guaranteed

The WiZ Connected app fully guarantees privacy as no personal information is used, retrieved or stored. No risk of hacking too.

Multi-user multi-location

With multi-user/multi-location feature, control your lights from remote locations.

SpaceSense™

Equipped with SpaceSense

An omni-directional motion detection technology that detects motion without any external motion sensors.

A spectacle is just a tap away

Just download your WiZ Connected app and connect your Philips Smart Wi-Fi LED lights to turn them on or off, set schedules, create perfect ambience and more with its user-friendly interface.

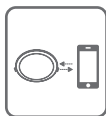

Smart lighting made easy

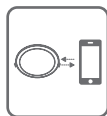

- 1 Download the free WiZ Connected app**
Search for "WiZ lighting"

- 2 Install a light**
Place the fixture and plug in

- 3 Pair light***
Follow the on-screen steps in the app to complete the setup

- 4 Enjoy your light**
Dimmable white and colored light to create your desired ambience at home

Steps to pair your device with the WiZ Connected app.

Product requires a Wi-Fi connection to operate wirelessly. Compatible only with WiZ Connected apps and products.

Control your lights wherever you are using the WiZ Connected app or your favourite compatible voice control device.

* Please connect via 2.4GHz network while pairing the lights

SpaceSense™

Philips Smart Wi-Fi LED lights motion detection with SpaceSense

SpaceSense is a never-seen-innovation in the consumer lighting industry by WiZ. An omni-directional motion detection technology for lighting system without installation of any sensors, offering a new way to automate your lights using Wi-Fi sensing technology for a more comfortable, careful and joyful home.
