Making business easy

Signify customer
and partner portal

MyLighting capabilities

MyLighting is a cloud-based, responsive portal that is accessible by laptop, tablet, smartphone or third party software. MyLighting has realtime connections with the Signify IT systems which allow you to do business with Signify on your own schedule.

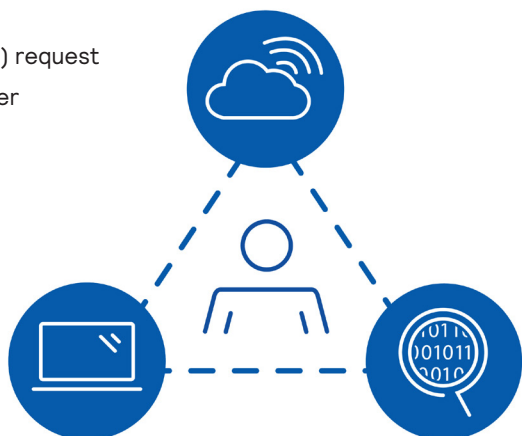

MyLighting can be used by Signify customers, agents and business partners, offering each user a profile that is customized for their role. MyLighting is conveniently organized so the information and transactions you need are at your fingertips.

www.mylighting.signify.com
