Why choose Signify?

Quick, reliable service out of our distribution centers.

* Will Call (pickup only)
** Coming 2021 Q2

Find just what you need

Our Ready-to-go portfolio makes it easy to find just what you need with Stock Ready, Design Ready and Spec Ready options. Ready to go products are designed for easy ordering through Signify's MyLighting portal, easy to install with minimal steps, and competitively priced to meet the demands of budget conscious projects focused on cost and energy. Distributors can benefit from our Stock Ready program which offers deals on freight, guaranteed sales, price change reimbursement, delistment notifications, marketing support, merchandising, and more.

Your one-stop shop for any lighting need

Signify offers the most complete stock offering in the industry. We provide conventional and LED lamps, ballasts, drivers, retrofit kits, and indoor and outdoor stock luminaires. Save time and improve efficiencies by consolidating your stock purchases with Signify.

Brands you can trust with a long history of excellence

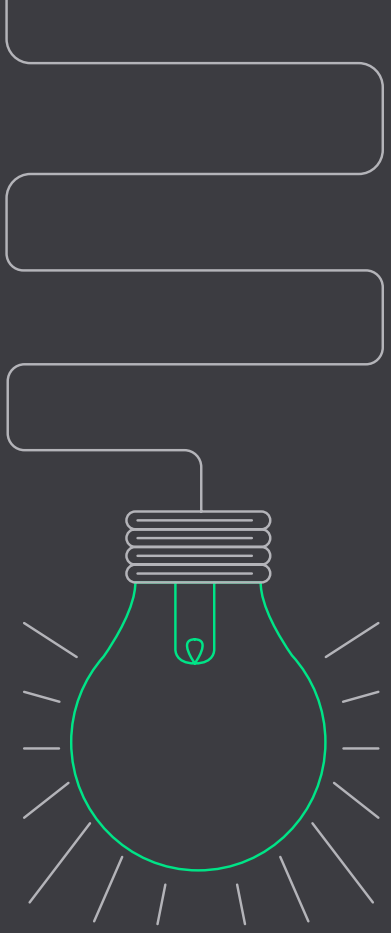

As the global leader in lighting for more than 125 years, Signify has the know-how and most comprehensive portfolio to meet any application. We achieved 100% Carbon Neutrality in 2020. We are number 1 in conventional lamps, LED and Connected lighting. We have over 17,750 patents. We invest 4.8% of total sales in R&D which is two times our nearest competitor! Partnership is more than sales. Let's go together. Let's grow together. We are ready to go with you.

Signify is leading the industry transition

100%	No. 1	$7.3 B	> 64 M	4.8%	100+
Carbon Neutral in 2020	Connected Lighting, Conventional lamps & LED lamps	Sales ~75% Professional	Connected light point	Total sales invested in R&D 2X our nearest competitor	University partnerships

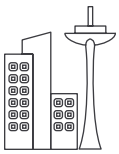

The right solution for every need

Signify provides the solution to every lighting need whether it's lighting and connecting your public spaces, giving your commercial building an energy saving upgrade, or working on a yet to be constructed hospital, we've got you covered.

Stock up on our new Field Selectable product line

With the unique convenience of adjustable color temperatures and/or lumen outputs, our new Field Selectable product line makes it easy to always have the right product for the job. Field Selectable products give you the added benefit of carrying one SKU versus multiple SKUs, keeping your inventory low and turns high. The Field Selectable products are priced right and are all part of our Ready to go offering.

Calculite LED

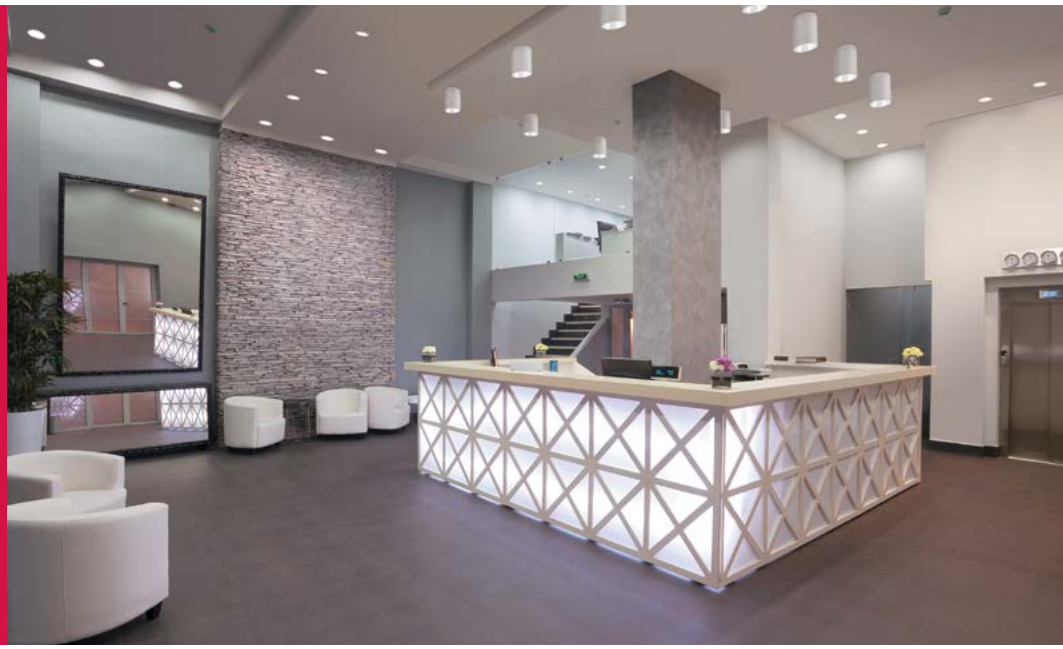

Industry leading visual comfort

Calculite features excellent uniform illumination over time and patented installation flexibility.

Why choose the Calculite family?

- Maximize visual appeal with three beam spread options to give the right distribution and light output
- Ultimate user comfort by providing 50° physical and 45° reflected cutoff, creating less brightness
- Uniform light and color consistency at an SDCM of 2
- Modular three piece design that makes servicing and upgrading convenient
- Installation efficiency accomplished by a tool-free install and quick connect technology

LyteProfile LED

Flexible

The next generation of Lightolier LyteProfile LED downlights have been redesigned to be flexible for changing project needs.

Why choose LyteProfile LED?

- 60° cut off ensures proper positioning of optics providing better visual comfort
- The combined light engine and reflector allow tool-free installation using quick connect technology
- Standard 120/277V frame simplifies planning and installation
- Easy troubleshooting, changes and upgrades to products post installation
- Uses the same UniFrame infastructure as the EasyLyte and Calculite families allowing 50K+ product configurations

LIGHTOLIER
by signify

UniFrame Frame

Adaptable, so you can be flexible

Why choose the Lightolier Frame?

- Modular plug-and-play receptacle enables quick and easy tool-free installation
- Configurable solutions mean installation can start sooner and be completed in stages
- Future-proof modular design allows easy upgrades without ceiling disturbance
- Unexpected design changes have minimal schedule impact and waste

Surface Mount Downlight 7"

Surface Mount Downlight 5"

Surface Mount Downlight

The shallow ceiling **problem solver**

Ideal when you are faced with a challenging ceiling, but you still want a good-looking downlight.

Why choose the Surface Mount Downlight?

- Easy to install on standard J-boxes
- Surface mount downlight solves the problem of limited plenum space
- Glare controlling lens for comfortable light distribution
- Affordable alternative to Air-Seal IC recessed housings
- Support wire attached for easy installation
- ENERGY STAR and Title 24 listed

SlimSurface

Add style and light **to any space easily**

Ideal when you are faced with a challenging ceiling, but you still want a good-looking downlight.

SlimSurface 5"

SlimSurface 7"

Why choose SlimSurface?

- Slender 5/8" profile solves the problem of limited plenum space
- Easy to install on standard J-boxes with a quick snap
- Affordable as alternative to Air-Seal IC recessed housings or Fire-Rated boxes
- Wet location listing allows for use in showers and bathrooms (if code requires)
- Even illumination edge-lit technology (flex strip LEDs) will give even illumination with no dark spots or shadows

Commercial Retrofit Downlight

Bright, brighter, brightest... **it's your choice**

Will reduce onsite time and headaches for busy installers with its adjustable lumen and color output switch

Why choose the Commercial Retrofit Downlight?

- Adjustable lumen output and color temperature switch allows you to make choices while you install or afterward
- Great for different ceiling heights and different light level needs
- Sturdy metal clips provide a solid fit and easy installation
- Out-of-the-box pre-wired with flexible metal conduit
- 50,000 hour rated life (L70)

Retrofit Downlight 4"

Retrofit Downlight 5/6"

Retrofit Downlight

An LED retrofit as **easy as snap and click**

Hassle-free install will save you time and frustration on the job site. You may not even need to open your toolbox.

Why choose the Retrofit Downlight?

- Utilizes existing frames to make replacing old downlighting and upgrading to LED a truly easy task
- Flexible springs allow for installation without tools
- Quick-connect plug and medium-based socket adapter means no extra accessories to purchase
- Contemporary and discreet, white baffle trim design
- Uniform LED light with glare-reduction filter, means a more comfortable space

LyteCaster LED

Comfort and quality

Lightolier LyteCaster LED Downlight and Adjustable luminaires provide comfortable, quality illumination for new construction and renovation spaces.

Why choose the LyteCaster LED?

- Comprehensive low cost IC family provides great value and visual performance
- 4", 5" and 6" round and square
- Efficacy up to 90lm/W
- Lumens: 650–2000

LyteCaster LED accent

Design versatility **to fit any space**

A wide range of options to customize your lighting solution for any application with efficacies ranging up to 800 lm/W.

Why choose LyteCaster LED accent?

- Sizes: 3"
- Efficacy: up to 72 lm/W
- Lumens: 800
- Wattage: 11 W
- Voltage: 120V or 120V-277V
- CCT: 2700 K-3500 K
- CRI: 80 min
- Dimming: ELV/TRIAC (10%)
- Lifetime: 50,000 hour (L70)

LyteCaster

Defining downlighting

Ideal general purpose downlighting solution, providing comfortable, quality light. Offered in two lumen packages, downlight is wet location listed and comes in three trim options.

Why choose the LyteCaster downlight?

- Sizes: 4", 5", and 6" round and square
- Efficacy: up to 90 lm/W
- Lumens: 650-2000
- Wattage: 7-20 W
- Voltage: 120V or 120V-277V
- CCT: 2700 K-4000 K
- CRI: 80 and 90 min
- Dimming: ELV/TRIAC and 0-10V
- Lifetime: 50,000 hour (L70)

CorePro Downlight

Low cost

The CorePro LED downlight family is Lightolier's low cost LED recessed downlight.

Why choose the CorePro Downlight?

- Affordable solution for retrofit, new construction or remodeling
- Save up to 85% in energy cost compared to 65W & 75W incandescent light source
- Compatible with many Lightolier brand or competitive housings

EasyLyte LED

Ease and quality

Lightolier EasyLyte LED downlight is the best choice for the money without sacrificing ease of install or product quality.

Why choose EasyLyte LED?

- Unitized optics with 70° cut off ensure proper positioning of light source to ensure expected lighting distribution
- Field adjustable springs accommodate ceiling thicknesses of 1.5" (4") and 2" (6") fixtures
- Polycarbonate round aperture trim inserts offer splay and baffle finish options in both 4" and 6" round sizes
- Tool-free install using modular quick connects
- Emergency frame option with emergency battery pack and remote test switch

Flat Downlight Select

Make your next lighting project faster and easier, with a product from a name you can trust.

Why choose Flat Downlight Select?

- Field selectable color temperature
- Quick and easy installation without frame or reflector
- ½" depth luminaire and 1" deep junction box are ideal for shallow plenum or use under joist
- Junction box clips to luminaire meeting National Electric Code (NEC)
- Dimmable to 10%. Lifetime >50,000 hours (L70)
- IC-rated for direct contact with insulation. UL1598 wet location rated

OmniSpot LED

Small is the **new big**

These luminaires are no exception. Combining compact design with power to keep attention focused exactly on designated areas of interest.

Why choose the OmniSpot LED?

- Compact, sleek aesthetic with no visible heat sink
- Excellent beam control with industry leading center beam candlepower up to 30,000
- Unobtrusive track head at less than 1" of space between the track and track head
- 6 different track adapters available, making installation a breeze
- Superior optical control designed for retail

Alcyon LED

The quick and easy **install solution**

Alcyon LED Vertical Cylinders are ideal for display, accent and task lighting and offer higher efficiency than incandescent or halogen sources leading to energy savings with no ultraviolet or infrared radiation.

Why choose the Alcyon LED?

- Market leading efficiency and “candlepower punch”
- Tool-less aiming, tilt and pull-down design
- 3-part system designed for high performing, target illumination

BoldFlood LED

Magnificent colors,
effortlessly and efficiently

Why choose the BoldFlood LED?

- High efficacy with the best in flood and wall wash performance
- Designed to maintain high quality performance and rich color saturation
- Available in 2000lm and 4000lm with industry leading price per foot value
- Perfect for illuminating any retail wall display or wall application

CorePro Track LED

Designed with simplicity in mind

The Lightolier CorePro LED Mini Cylinder is small and sleek for lower mounting heights and smaller spaces.

Why choose the CorePro Track LED?

- Consumes 82% less energy than a 50W MR16
- Higher flux than available LED MR16 lamps
- Provides the efficiency, output and lifetime only an integrated LED solution can offer
- No need to replace halogen lamps and bi-pin sockets

Gimbal Rings

Clean design for a **close fit**

Features a minimalistic form designed with LED lamps in mind, helping keep the customer's focus where you want it to be.

Why choose the Gimbal Rings?

- Designed with minimalistic form to create a close fit with LED lamps
- Miniaturized detailed yoke and ring-shaped lampholder for a clean appearance
- Front relamping for easy maintenance
- Units adjust horizontally up to 350° and vertically up to 90°
- Molded polycarbonate bodies allow for scratch free handling during installation and relamping

Track

While continually improved over the years, our original track design from 1961 remains intact.

Every Lightolier track luminaire today will work on the very first piece of track we ever produced.

Why choose Track?

- Basic: Single circuit with capacity of 20 amps at 120V
- Advent: Double circuit with capacity of 40 amps at 120/240V
- Can be installed vertically or horizontal on walls
- Can be field cut
- Use with suspension beam or recessed housing

HCY14/HCY21

HCY sealed high bay

Modern design and **energy savings**

A great new look with no more sacrifices and dependability you can trust.

Why choose HCY sealed high bay?

- Field selectable color 4000K or 5000K
- Corrosion resistant black finish
- Heavy duty eyelet provided for connection to customer supplied suspension
- Accessory options of polycarbonate reflector and surface mount bracket
- Listed cULus for use in wet locations up to 50°C ambient, and IP65 rated

FCY value high bay

Update and upgrade for **real savings**

Low profile and durable design, efficiency and great price – FCX value high bay has it all.

Why choose FCY value high bay?

- Die formed sheet metal housing and end plates
- Corrosion resistant gloss white paint after fabrication
- V-hooks and 48" chains supplied (set of 2) for installation
- Lumen maintenance up to 70% (L70) at 50,000 hours
- Access plate located on top of housing for easy wiring
- Frosted acrylic diffuser provides superior glare control and wide light distribution
- Field CCT selectable for 4000K or 5000K
- cULus listed for use in damp locations, -20°C to 45°C ambient

FBX LED high bay

Wire Guard
(accessory)

Compact and economical with the latest technology

Save energy without straining your project budget or sacrificing light output.

Why choose FBX LED high bay?

- Versatile fixture ideal for a variety of spaces including warehouses, big box retail and school gymnasiums
- 12,000, 16,000 and 24,000 lumen options
- All three configurations are serious energy savers with efficacy up to 138lm per watt
- Dimming is standard
- Simple installation

FBD Fluorescent High Bay

A flexible fluorescent linear luminaire

Designed to meet the needs of today's industrial environment.

Why choose FBD Fluorescent High Bay?

- 95% reflective specular aluminum reflectors maximize luminaire efficiency and control light distribution
- Steel housing with white polyester powder finish
- Electronic ballast(s)
- Rotating ring, locking type lampholders For T5HO and T8 lamps

Luminaire

HBO High Bay

A general purpose high bay suitable for a host of applications

Applications including retail, education and industrial where uplight is required.

Why choose HBO High Bay?

- Heavy wall, two piece die cast aluminum housing with white polyester powder finish
- Heavy gauge yoke provides positive mounting of reflector to ballast assembly and field adjustable light distribution patterns
- Injection molded 100% virgin acrylic prismatic reflector
- UL 1598 Listed suitable for damp location and 40°C ambient (55°C ambient for 400W)

EvoGrid LED

Quiet obtrusive lighting for a variety of applications

EvoGrid LED delivers high efficacies (125–135lm/W) and superior visual comfort.

Why choose the EvoGrid LED?

- T Bar grids integral to the body for 15/16 and 9/16 grids
- Integral sensors, wired and wireless and POE control options
- Tunable options to support well-being and performance

FluxGrid LED

Clear cut progress, **lasting and consistent**

Functional, efficient, and environmentally friendly illumination throughout the space.

Why choose FluxGrid LED?

- Discretely designed to blend seamlessly into your space
- Access to LED boards and drivers from below the ceiling increases maintenance convenience
- Diffused ribbed lens creates soft, even illumination
- Four lumen packages at 4 color temperatures
- Specification grade ceiling and configuration options

TG LED

Rugged and reliable low profile recessed prismatic lens troffer ideal for school applications

Why choose the TG LED?

- Broad rage of lumen packages 3200-7400 for varying ceiling heights
- Prismatic lens types suitable for classrooms
- Patterns:
  12 .100 nominal diffuse 50%
  12F DB 12 .125" nominal diffuse 50%
  9F DB 19 .156" nominal diffuse 50%
- Robust door frame with multiple gasket options
- Flexible wiring

SofTrace Gen2

A family of classic fully luminous aperture troffers

Pairs a contoured upper reflector with efficiency, visual comfort and wired and wireless controls.

Why choose the SofTrace Gen2?

- DLC Standard and Premium options
- Wet location listed
- Antimicrobial finish
- Full lambertian light distribution assures uniform illumination from floor to ceiling
- Integral controls
- 5-year warranty[1]

45V Line Edge-lit LED

High quality specification grade edge-lit exit sign that is aesthetically appealing and designed for architectural excellence. It includes self-diagnostic/self-test circuitry, standard on all models.

Why choose 45V Line Edge-lit LED?

- Self-diagnostic standard
- Self-test standard
- Special wording available
- Injection molded wedge shaped panel
- California Energy Commission compliant
- Precision molded, etched letters and chevrons
- Exit panel is ultrasonically welded together eliminating the need for visible hardware
- DoE compliant

LED bollard

The path ahead looks
clear and bright

Why choose the LED bollard?

- Clean lines for a timeless, modern look
- Rugged, aluminum construction and high quality finish
- Simple installation
- Silicone gaskets protect internals from harsh elements
- 50,000 hour rated life (L70)

Accent Line Voltage

Spot lighting focuses an intense beam of light on a particular subject to showcase focal points. Moon lighting simulates the light of a full moon filtering through the foliage of a tree.

Why choose Accent Line Voltage?

- For projects requiring a system designed to operate utilizing lamping options such as HID, LED or incandescents
- 120 Volts
- 1/2" NPS fitter
- Shrouding and light shielding options available

Accent Line Voltage, Conventional

Accent LED Line Voltage

This accent line-voltage landscape luminaire has interchangeable optics 20°, 36° and 65° by switching optic lenses.

Why choose Accent LED Line Voltage?

- Narrow, medium and wide flood beam patterns, interchangeable via snap-on lenses
- Standard 0-10V dimming
- Five field adjustable lumen outputs

Accent LED, Low Voltage

The all-in-one solution for landscape lighting. Imagine the convenience and cost savings of having different light levels and a variety of beam patterns, all within a single LED luminaire.

Why choose Accent LED Low Voltage?

- Beam adjustability – lens zooms from narrow (15°) to medium (30°) beam, accessible after easy removal of twist-off shroud. Interchangeable flood (60°) lens included.
- Switchable light levels – easy-access integral switch for 4 preset light outputs: based on 3K, MED beam, 130, 280, 500, 670 lumens. Simply adjust using side knob and Phillips-head screwdriver.
- Precise aiming – adjustable knuckle arm enables range of 150°. Vibration locking teeth secured by black SS screw.

Deck Lighting

Illuminating deck floors and steps while enhancing design and outdoor living spaces.

Why choose Deck Lighting?

- Consider placing fixtures under built in benches for a clean, inconspicuous look. When placing under handrails, mount fixtures high enough for good light distribution but be careful not to see the source when seated.

Inground LED, Low Voltage

The FlexScape LED inground luminaire IL9 is **designed for optimal LED performance and superior flexibility.** It creates visual interest for pathways, walls, columns and foliage. Its rugged housing installs directly into the soil.

Why choose Inground LED Low Voltage?

- Competitively priced outdoor lighting offers performance and versatillty.
- 100% molded silicone gaskets
- Convenient onsite beam adjustability
- CCT: 3000K and 4000K
- CRI: 70
- Wattage: 12W (max)
- Voltage: 12V typical (10.5V–15V)
- 50,000 hour rated life (L70)

Reach & Reach Elite

Rely on Reach

Why choose Reach and Reach Elite?

- Available in 3000K, 4000K and RGBW color-changing options
- High-quality (90+ CRI) white and color light from IntelliHue option
- Numerous external spread lenses for beam control
- Supports 120VAC to 277VAC (auto-ranging)

Controls & Power Supplies

Easily configure and control LED light shows

Why choose controls?

- Full range of simple to programmable architectural lighting controls
- Button stations, dials and other physical configurations
- DMX-512 and Ethernet (Color Kinetics proprietary) output formats

Why power supplies?

- Options for dimming and dynamic installations
- Single voltage (dimming) or auto-ranging (dynamic) support

Retrofit kits

EvoKit Click

Why choose EvoKit Click LED retrofit kits?

- Sleek and modern look for a refreshed space
- Integrated light engine enables easy maintenance and future upgradeability from below ceiling without tools
- High efficacy/low wattage for maximum rebates and energy savings
- Fits most 2x4 and 2x2 troffers (grid/narrow grid)
- Control options for maximum flexibility

PHILIPS

Retrofit kits

EvoKit

Why choose EvoKit LED retrofit kits?

- Sleek and modern look for a refreshed space
- Integrated light engine enables easy maintenance and future upgradeability from below ceiling without tools
- High efficacy/low wattage for maximum rebates and energy savings
- Fits most 2x4 and 2x2 troffers (grid/narrow grid)
- Control options for maximum flexibility

PHILIPS

LED Lamps

CorePro InstantFit T5 (Type A/C)

Why choose CorePro InstantFit (Type A/C) lamps?

- Works with more ballasts and drivers than any other lamp so it's going to perform as expected and prevent rework
- Most lamps are DLC listed and all are NSF listed
- Proven over 40% energy savings[1] over fluorescent for continual payback over the life of the product
- Average life rating of 50,000 hours[2]

CorePro MainsFit (Type B)

Why choose CorePro MainsFit (Type B) lamps?

- Patented design prevents shock with surge protection
- Double-ended for faster installs
- Proven over 40% energy savings[1] over fluorescent systems
- Average life rating of 50,000 hours[2]
- UL Type B ballast bypass
- Emergency capable with Philips PTB15D, Bodine ELI-S-20 or ELI-S-100 EM drivers

LED Lamps

CorePro FlexFit (Type A+B)

Why choose CorePro FlexFit (Type A+B) lamps?

- One lamp for two applications, works as either a plug-and-play (UL Type A) or ballast bypass (UL Type B) lamp
- Provide the flexibility to fit your lighting application needs. As a Type A lamp it is compatible with a variety of ballasts, however, if a ballast is not desired the lamp can quickly be installed as a double-ended ballast bypass lamp.
- Glass tube with >320° illumination angle
- 50,000 hr[1] rated life and standard 5-year limited warranty[2]
- Color consistency throughout life

● Stock Ready

1. Savings based on comparison to F32T8 electronic instant start systems.
2. Tested to B50 L70 requirement. LED lifetime means the length of time (in hours) until half of the LED light sources maintain at least 70% of their initial lumen output (B50, L70).

PHILIPS

LED Lamps

MasterClass ExpertColor PAR lamps

Why choose MasterClass ExpertColor PAR lamps?

- Average life rating of up to 40,000 hours[1]
- Up to 90% energy savings compared to halogen lamps[2]
- Easy to replace/retrofit in most current halogen fixtures
- Deep dimming below 5%
- Consistent color and lumen maintenance over life of product
- Up to 5-year limited warranty[3]
- No mercury allowing for non-hazardous waste disposal
- Emit virtually no UV/IR light in the beam

● Stock Ready

1. Tested to B50 L70 requirement. LED lifetime means the length of time (in hours) until half of the LED light sources maintain at least 70% of their initial lumen output (B50, L70).
2. See www.signify.com/warranties for details.

PHILIPS

LED Lamps

Title 20 MR16 lamps

Why choose Title 20 MR16 lamps?

- Average life rating of 25,000 hours[1]
- Single optic lens reduces glare to help improve shopping experience
- Easy to replace/retrofit in most current halogen fixtures
- 3-year limited warranty[2]
- Complies with Title 20 regulations
- No mercury allowing for non- hazardous waste disposal
- Emit virtually no UV/IR light in the beam

● Stock Ready

1. Tested to B50 L70 requirement. LED lifetime means the length of time (in hours) until half of the LED light sources maintain at least 70% of their initial lumen output (B50, L70).

Conventional
Lamps

Philips

- CFL Integrated
- CFL Pin-Based
- Fluorescent
- HID
- Halogen
- Incandescent

PHILIPS

Lamps

CFL Integrated

Why choose CFL Integrated lamps?

- Shape and size similar to an incandescent A19
- Fits into incandescent fixtures
- Available in a wide variety of color temperatures
- Energy saving replacement for incandescent bulbs

CFL Integrated

PHILIPS

Lamps

CFL Pin-Based

Why choose CFL Pin-Based lamps?

- Broad range of color temperatures available in 2700K, 3500K and 4100K
- Extended relamping cycles with up to 20,000 hours rated average life (based on 12 hours per start)
- High light output in a compact size with 80%+ lumen maintenance
- Energy saving system available without changing a ballast

PHILIPS

Lamps

Fluorescent

Why choose Fluorescent lamps?

- Outstanding lumen performance with 95% lumen maintenance
- Long life lamps available with up to 90K hours (based on 12 hour per start, operated on program start ballasts for Twice the Life lamps)
- Operates on existing ANSI ballasts and fits into existing fixtures
- 4' T8 lamp family contains only 1.7mg of mercury
- 25W and 28W energy saving products available for 4' T8 replacement options

PHILIPS

Lamps

HID

Why choose High Intensity Discharge (HID) lamps?

- Use HID lamps in existing fixtures for easy relamping option
- Non-cycling HPS lamp life up to 40K hours (based on 10 hours per start)
- Low wattage CDM (Ceramic Metal Halide) lamps have excellent color – up to 92CRI and are available in compact sizes
- Energy Advantage CDM Lamp with AllStart Technology can be used in probe pulse start metal halide ballasts

Lamps

Halogen

Why choose Halogen Reflector lamps?

- Halogen lamps are low cost options to help provide a warm and inviting look and feel
- Lamps are suitable in retail and residential applications
- PAR lamps fit into track and recessed lighting fixtures to provide accent lighting as well as general lighting
- Outdoor PAR38 lamps help provide security lighting in all weather conditions

PHILIPS

Lamps

Incandescent

Why choose Incandescent lamps?

- Simple to replace and use in existing applications
- Provides soft white light that end users are familiar with
- Heat lamps will provide warmth where needed
- TuffGuard lamps to help contain glass in case of accidental breakage

Advance LED Drivers & Ballasts

Advance Xitanium LED drivers set the standard for performance

Why choose Advance LED Drivers & Ballasts?

- Slim profile housing enables easy design-in with excellent thermal performance
- Enables simple, fast, flexible application-specific configurations for both indoor and outdoor applications
- Enables fixture designs with comprehensive application coverage for various loads and lumen levels
- Wide operating windows and simple current adjustability for ease of luminaire design
- Broad selection in terms of power, input main voltage and can sizes
