Create a learning environment for bright ideas

K-12 School Lighting
A comprehensive portfolio

As the global leader in lighting for more than 125 years, Signify has the know-how and the most comprehensive portfolio of energy efficient technology to meet all your application needs.

Educational establishments fulfill a unique role in society as places of learning, belonging, and community cohesion. LED lighting can enhance the learning environment, contribute to comfort and wellbeing, and help sustainability efforts while reducing energy and associated costs compared to traditional lighting. Signify LED lighting creates inviting outdoor areas and indoor spaces that inspire concentration and focus to support your educational objectives for today, tomorrow, and the future.

1. When compared to traditional incandescent bulbs.
School applications

Learning Areas:
Enhance focus and contribute to wellbeing with the right lighting.

Social Gathering:
Welcome students into large spaces for socialization or assemblies.

General Illumination:
A bright atmosphere to promote a sense of security and invigorate the community.

Outdoor:
Ensure parking lots, recreational areas, as well as walkways feel safe and well-illuminated.
Learning Areas

The wellbeing of students and teachers is of utmost importance.

Lighting needs to bring maximum quality and installation flexibility to provide visual acuity, comfort, and performance support while meeting energy and budget constraints. It must be flexible enough to provide appropriate illumination for both print and digital media, focused individual work, or calm contemplation. Classrooms and Libraries are multitasking multi-media environments tasked with engaging, informing, and inspiring. Beyond the visual task requirements, the lighting in these spaces can be customized with the school’s colors to cost effectively promote community identity.

Learning Areas

Linear Suspended luminaires for classroom applications

- Ledalite FloatPlane Suspended
  Provides the affordability of fluorescent with the quality of high-end LED luminaires.

- Ledalite Sync Suspended
  The epitome of compact style with exceptional glare control, making it the perfect fit over your whiteboard.

- Ledalite TruGroove Suspended
  Drives performance and delivers exceptional uniformity.

- Ledalite TruGroove Suspended Micro
  Offers a 1-1/4” aperture that delivers exceptional uniformity and wide row spacing. Custom colors and angles are available.

Linear Wall Mount luminaires for classroom applications

- Ledalite FloatPlane Wall Mount
  Provides the affordability of fluorescent with the quality of high-end LED luminaires.

- Ledalite Sync Wall Mount
  The epitome of compact style with exceptional glare control, making it the perfect fit over your whiteboard.

- Ledalite TruGroove Wall Mount
  Drives performance and delivers exceptional uniformity.

- Ledalite TruGroove Wall Micro
  Offers a 1-1/4” aperture that delivers exceptional uniformity and wide row spacing. Custom colors and angles are available.

Linear luminaires for library applications

- Day-Brite FluxStream Strip
  Available in a variety of lengths and color temperatures to meet the lighting needs in your lobby.

- Day-Brite OWL Wraparound
  The ideal surface mount general illumination luminaire for quality and affordability.

- Ledalite TruGroove Recessed
  Drives performance and delivers exceptional uniformity.

- Ledalite TruGroove Recessed Micro
  Offers a 1-1/4” aperture that delivers exceptional uniformity and wide row spacing. Custom colors and angles are available.
Learning Areas

Recessed Troffers solutions for library and classrooms applications

- **Day-Brite FluxGrid Recessed**
  - Offers a familiar style with high quality LED light at an affordable price for your general lighting needs.

- **Day-Brite FormFlex Recessed**
  - Antimicrobial finish and offers high performance and aesthetic flexibility to customize the effect while still saving energy.

- **Ledalite SilkSpace Definition**
  - Fully luminaire lens, providing excellent visual comfort at a cost-conscious price, ideal for tight budget library projects.

Downlighting luminaires for library and classrooms applications

- **Lightolier EasyLyte**
  - Budget-friendly, adaptable and flexible for easy-installation needs.

- **Lightolier LyteProfile**
  - Flexible and design-friendly, offering both square and round options without compromising quality.

- **Lightolier Calculite with IntelliHue technology**
  - Offers uniform illumination with millions of combinations of precise white and color to reduce glare and support concentration.

Track luminaires for library applications

- **Lightolier Track Head**
  - Simple and budget-friendly.

- **3D Printed MS Series**
  - Allows you to choose from a variety of finishes and textures, configured to your specifications.

- **Lightolier OmniSpot**
  - Provides sleek and discrete aesthetics and high power.

Retrofit solutions

- **Lightolier Commercial Retrofit Downlight**
  - An easy and quick downlight solution that is perfect for varying ceiling heights.

- **3D Printed Pendant**
  - Maximize visual appeal, beam spreads options, color temperatures, lumen options, and ensure ease of longterm maintenance by selecting from a variety of Philips PAR Lamps.

- **3D Printed BA-L Series**
  - Offers customizable color, texture, finish, and mounting options to build your school’s brand.

LED A-Shape lamps

- **Lightolier Calculite with IntelliHue technology**
  - Offers uniform illumination with millions of combinations of precise white and color to reduce glare and support concentration.

- **Lightolier Commercial Retrofit Downlight**
  - An easy and quick downlight solution that is perfect for varying ceiling heights.

- **Lightolier EasyLyte**
  - Budget-friendly, adaptable and flexible for easy-installation needs.

- **Lightolier LyteProfile**
  - Flexible and design-friendly, offering both square and round options without compromising quality.

- **Lightolier Calculite with IntelliHue technology**
  - Offers uniform illumination with millions of combinations of precise white and color to reduce glare and support concentration.

- **Lightolier OmniSpot**
  - Provides sleek and discrete aesthetics and high power.

LED PAR lamps

- **Philips CorePro LED PAR and MR lamps**
  - Offer efficiency and quality to meet your basic lighting needs.

- **Philips MasterClass LED ExpertColor PAR lamps**
  - Provide warm, rich light to create an inviting atmosphere.

LED PAR lamps

- **Philips CorePro LED PAR and MR lamps**
  - Offer efficiency and quality to meet your basic lighting needs.

- **Philips MasterClass LED ExpertColor PAR lamps**
  - Provide warm, rich light to create an inviting atmosphere.

TLED lamps

- **Philips CorePro LED InstantFit Linear lamps**
  - Integrate into traditional fluorescent form factors to upgrade your general lighting and conserve energy.

- **Philips MasterClass LED InstantFit Linear lamps**
  - Provide consistent light output for quality illumination and are available in plastic for shatter resistance.

Visit www.signify.com/education to learn more.
Social Gathering

Invite students into large spaces for socialization or assemblies with peace of mind.

Welcome the community into the auditorium, to share in special moments. This is a great place to add color or simply utilize LED lighting to save energy and spare the budget. Flexibility is essential for cafeterias, which so often serve multiple functions and are the heart of the school community. Glare-free, high-color-quality lighting can provide comfort and enhanced appreciation of the space, while supporting facial modeling critical to communication and social interactions.

Add wireless controls to create activity zones, save energy by using light only where and when it is needed and simplify future reconfiguration of the space. Gymnasiums and locker rooms are challenging environments. Requirements to address high humidity, good color quality, and vertical illumination to find socks at the bottom of a locker compete with energy and budget constraints. Lighting solutions need to be tailored to provide just the right features to promote wellbeing at the right cost.

Social Gathering

Linear Wall Mount solutions for cafeteria applications

- Philips EvoKit retrofit kits
  Easily upgrade existing fluorescent troffers to fast-track payback with energy-efficient LEDs in just 5 minutes.

- Ledalite Jump
  Offers aesthetic design elements and playful patterns with multiple distributions in a seamless continuum of lumenarity.

- Ledalite FloatPlane Selectable
  A versatile luminaire available in a variety of sizes with selectable color temperatures and lumen packages and recessed or surface mounting options.

- Ledalite TruGroove
  A low profile with excellent general illumination performance for dark areas such as locker rooms.

- Ledalite FluxGrid
  Offers a familiar style with high quality LED light at an affordable price for your general lighting needs.

- Ledalite Jump
  Offers a familiar style with high quality LED light at an affordable price for your general lighting needs.

- Ledalite TruGroove
  Drives performance and delivers exceptional uniformity.

Recessed Troffer solutions for the locker room applications

- Day-Brite FluxGrid
  Antimicrobial finish and offers high performance and aesthetic flexibility to customize the effect while still saving energy.

- Day-Brite FluxGrid Recessed
  Offers a familiar style with high quality LED light at an affordable price for your general lighting needs.

- Day-Brite T-Grid Recessed
  A low profile with excellent general illumination performance for dark areas such as locker rooms.

- Day-Brite FormFlex
  A low profile with excellent general illumination performance for dark areas such as locker rooms.
Social Gathering

Downlighting solutions for cafeteria and auditorium applications

- **Lightolier EasyLyte**: Budget-friendly, adaptable and flexible for easy-installation needs.
- **Lightolier LyteProfile**: Flexible and design-friendly, offering both square and round options, without compromising quality.
- **Lightolier Calculite with IntelliHue technology**: Offers uniform illumination with millions of combinations of precise white and color to reduce glare and support concentration.

Downlighting solutions for locker room applications

- **Lightolier Calculite**: Offers quality uniform illumination, patented installation flexibility, and industry-leading visual comfort to support concentration.
- **Lightolier EasyLyte**: Budget-friendly, adaptable and flexible for easy-installation needs.
- **Lightolier LyteProfile**: Flexible and design-friendly, offering both square and round options, without compromising quality.
- **Lightolier LyteProfile Shower Light**: Provides an adaptable, flexible design for use in wet locations, making it perfect to brighten the dark corners of your locker room.

High Bay (rectangular) solutions for gymnasium applications

- **Day-Brite FCY LED High Bay**: Merges performance with quality for a cost-efficient, high-ceiling solution.
- **Day-Brite FBZ LED High Bay**: Combines targeted optics with energy efficiency to provide the right light in your space.
- **Day-Brite FBY LED High Bay**: Versatile in form and function with a variety of lumen packages and accessories for your needs.
- **Day-Brite HBY High Bay**: Provides durability in an appealing compact form and is suitable for use in wet locations such as your natatorium.

High Bay (round) solutions for gymnasium, cafeteria and auditorium applications

- **Day-Brite HCY LED High Bay**: Presents functional lighting with an aesthetic appeal and round form factor perfect for a gymnasium, auditorium, or other area of a school with high ceilings.
- **3D Printed PM Series**: Consists of customizable, durable and high output polycarbonate pendants. Try adding lighting with your school colors to the gym!
- **Day-Brite RBX LED High Bay**: Fulfills your general lighting needs with a variety of lumen packages and color temperatures.
- **Day-Brite FBZ LED High Bay**: Combines targeted optics with energy efficiency to provide the right light in your space.

Low bay solutions for auditorium applications

- **Day-Brite FluxStream Strip**: High-performing, energy-efficient luminaire delivering smooth diffused light ideal for hallways.
- **3D Printed BA-L Series**: Offers customizable color, texture, finish, and mounting options to build your school’s brand.

Architectural lighting solutions

- **Color Kinetics**: Delivers indoor and outdoor LED lighting systems in a wide range of types, form factors, and output levels — empowering you to achieve your unique vision.
- **Strand**: A robust control and distribution system from Strand ensures theatres have the infrastructure to accommodate a touring rig while offering local events the creative options they need.

Pendant solutions for cafeteria and auditorium applications

- **3D Printed Pendant**: Maximizes visual appeal, beam spreads options, color temperatures, lumen options, and ensure ease of longterm maintenance by selecting from a variety of Philips PAR Lamps.
- **Lightolier Calculite Cylinder**: Features industry-leading visual comfort and uniform illumination to accent display cases.
Social Gathering

Step Light solutions for auditorium applications

Chloride SoftGlo Night Light
Provides low-level illumination for small areas in a variety of color temperatures and finishes.

Chloride PathMaster Mini Step Light
An architectural, customizable, and energy efficient option.

Chloride MSL Series Mini Step Light
A mini low-level lighting option offered in a variety of finishes, ideal for an auditorium.

Chloride SD Series Step Light
A small, weather-proof option available in a variety of color temperatures and finishes with different facade plate options.

Tape Light for auditorium applications

Vaya Free Form
Sets the mood of interior and exterior spaces with this compact, bendable LED luminaire.

Canopy for cafeteria applications

Gardco SoftView
Features edge-lit technology for visual comfort with minimal glare, making it great for a cafeteria. Increase your students’ sense of security with an added uplight feature.

Lighting inspired by nature for library, classroom, hallway and general gathering space applications

Ledalite NatureConnect
Lighting inspired by nature. Bringing the colors and dynamics from nature indoors for a fully immersive experience.

Retrofit solutions

Luminaires

Philips EviKit retrofit kits
Easily upgrade existing fluorescent troffers to fast-track payback with energy-efficient LEDs in just 5 minutes.

Lightolier Commercial Retrofit Downlight
An easy and quick retrofitting solution that is perfect for varying ceiling heights.

PAR lamps

Philips MasterClass LED PAR and MR lamps
Offer efficiency and quality to meet your basic lighting needs.

Philips CorePro LED ExpertColor PAR lamps
Provide warm, rich light to create an inviting atmosphere.

A-Shape lamps

Philips CorePro LED A-Shape lamps
Deliver energy savings, minimized maintenance cost and dependable performance, compared to traditional incandescent bulbs, to meet your basic lighting needs.

Philips MasterClass LED A-Shape lamps
Feature smooth dimming down to 10% or less in a variety of color temperatures to create an inviting atmosphere any time of day.

PAR lamps

Philips CorePro LED PAR and MR lamps
Offer efficiency and quality to meet your basic lighting needs.

Lighting by nature for library, classroom, hallway and general gathering space applications

TLED lamps

Philips CorePro LED InstantFit Linear lamps
Integrates into traditional fluorescent form factors to upgrade your general lighting and conserve energy.

Philips MasterClass LED InstantFit Linear lamps
Provide consistent light output for quality illumination and are available in plastic for shatter resistance.

High Bay LED lamps

Philips CorePro LED High Bay lamps
Help reduce energy usage in your existing HID high bay application.

Philips MasterClass LED TrueForce High Bay lamps
Couple light distribution and high color rendering with energy efficiency to create a comfortable and high productivity environment.

General Illumination

Provide a welcoming environment with bright, energy-efficient LED lighting to invigorate students and staff throughout the building.

Choose from luminaires with customizable color options to promote your school’s identity in the main lobby for all to enjoy. Consider UV-C solutions to inactivate viruses and bacteria in the air and treat surfaces in high-traffic areas. Provide a sense of security in dark areas, such as stairwells or janitor closets, with exit and emergency lighting, and consider control solutions to maximize energy savings.

General Illumination

Linear Wall Mount luminaires for hallway, stairwell, restroom, administration office and closet applications

- Day-Brite FluxStream EZ Wraparound: Simple, 4’ energy-efficient option ideal for brightening your stairwells.
- Day-Brite FluxStream Strip: High performing, energy-efficient luminaire delivering smooth diffused light ideal for hallways.
- Day-Brite OWL Wraparound: The ideal surface mount general illumination luminaire for quality and affordability.

- Day-Brite Stairwell: Offers bi-level lighting and an integrated motion sensor to balance energy efficiency with a feeling of security.
- Day-Brite LPL Vandal Resistant: Heavy-duty and designed to meet demands of extreme environments, ideal for a school restroom.
- Day-Brite DW Vaporlume Industrial: Sealed and durable for use in wet locations.

- Day-Brite FluxGrid: Offers a familiar style with high quality LED light at an affordable price for your general lighting needs.

Recessed Troffer luminaires for hallway, stairwell, restroom, administration office, and closet applications

- Day-Brite T-Grid: Low profile with excellent general illumination performance for areas such as utility closets.
- Day-Brite FluxGrid: Offers a familiar style with high quality LED light at an affordable price for your general lighting needs.
- Day-Brite EvoGrid: Balances affordability and dependable design with architectural appeal.
- Day-Brite FormFlex: Has antimicrobial finish and offers high performance and aesthetic flexibility to customize the effect while still saving energy.

Security & Emergency

Promote a sense of security and comfort by ensuring well-lit spaces throughout the interior and exterior of the building.

Now more than ever, the health and safety of students and teachers is top priority. Consider upper air UV-C solutions to inactivate viruses and bacteria in busy areas, such as cafeterias. Meet code requirements with exit and emergency solutions that provide a sense of security for your students and staff in hectic moments.

UV-C solutions for upper air and surface treatment applications

UV-C lighting can play an important role in neutralizing harmful viruses and bacteria, especially in mask-off environments such as cafeterias. This additional layer of protection may provide a greater sense of comfort for teachers and coaches, as they lead students while in classrooms and gymnasiums. UV-C upper-air and closed chambers can also run continually, helping to reduce the need for manual disinfection, especially in high-traffic areas such as restrooms or locker rooms.

UV-C upper-air and closed chambers can also run continually, helping to reduce the need for manual disinfection, especially in high-traffic areas such as restrooms or locker rooms.

Exit / Emergency luminaires

Chloride Value+ VLT/CLC Exit Combo
Suitable for any general-purpose application with its low-profile design and affordability.

Chloride Compac CLC Exit Combo
Prepares you for any emergency with its sleek design that enables general wayfinding and immediate egress in an emergency.

Chloride Edge-Lit 441 Exit Sign
Features a contemporary universal and compact design that can be surface-mounted or recessed.

Control Systems for UV-C applications

Philips Dynalite UV-C Controls
Control system allows the UV-C lighting system to be used and operated with greater safety than a system without an equivalent control solution in place.

Interact
The Interact Space Management application can be used to further identify which areas have been occupied and need to be sanitized, as well as help manage social distancing.

Once BioShift Chambers
Uses UV-C light to inactivate viruses and other pathogens on objects placed in the chamber, neutralizing most viruses in 5 minutes.

UV-C Chambers for object treatment applications

Alkco UV-C Upper Air U2C 2x2 Grid Ceiling Mount
Treats air in occupied spaces to offer a layer of protection against bacteria, viruses, and fungal spores to help your students and staff feel secure.

Alkco UV-C Upper Air UWL Louvered Wall Mount
Treats air in occupied spaces to offer a layer of protection against bacteria, viruses, and fungal spores to help your students and staff feel secure.

Alkco UV-C Surface UST Strip
Can immobilize bacteria on preparation surfaces and equipment with surface and suspended mounting options.

Alkco UV-C Surface UHB High Bay
Can immobilize bacteria on preparation surfaces and equipment for ceiling heights of 10’ to 25’.

Pedestrian lighting solutions

Gardco PureForm Area
Features a sleek, low-profile design and comfort optics to reduce glare and provide peace of mind in parking lots.

Gardco PureForm Post Top comfort
Features a sleek, low-profile design with comfort optics to reduce glare. Type 1, 2, 3, and 5 optical distributions are available.

Gardco PureForm Area Medium P26
Features a sleek, low profile design and comfort optics to reduce glare and provide peace of mind in parking lots.

Gardco SoftView
Features edge-lit technology, providing visual comfort with minimal glare to enhance visibility in your parking garage. An added uplight feature reduces cave effect for an increased sense of security.

Parking lot lighting solutions

Stonco Area Light
Pole-mounted fixture delivering value with high energy efficiency.

Gardco EcoForm
Combines economy with performance and makes it simple to switch to LED and brighten your parking area.

Gardco PureForm Area Medium P26
Features a sleek, low profile design and comfort optics to reduce glare.

Canopy lighting solutions

Stonco Garage and Canopy
The go-to durable, cost-effective lighting solution for your parking garages, covered walkways and outdoor canopies.

Gardco SoftView
Features edge-lit technology, providing visual comfort with minimal glare to enhance visibility in your parking garage. An added uplight feature reduces cave effect for an increased sense of security.

Day-Brite FluxStream Sealed Strip
Linear option, suitable for wet locations and available in a variety of lengths and color temperatures.

Outdoor

Provide a sense of security outside of your school building and upgrade to LED lighting. Ensure parking lots, recreational areas, and walkways are well-illuminated as students, teachers, and visitors travel to their cars or to the field to cheer on the home team.

Outdoor

Wall Mounted lighting solutions for perimeter applications

- **Stonco WallPack DualSelect**
  Combines classic design with LED for energy-efficient wall lighting.

- **Stonco LytePro 7 Wall Sconce**
  Features outstanding value in a small and compact, architectural design, combining energy efficiency with performance.

- **Stonco LytePro 16 Wall Sconce**
  Features outstanding value in a medium but compact, architectural design, combining energy efficiency with performance.

- **Stonco LytePro 32 Wall Sconce**
  Features outstanding value in a large but compact, architectural design, combining energy efficiency with performance.

- **Gardco PureForm PBL**
  Integrates a sleek, low profile design, extraordinary light output, and energy savings into an innovative pedestrian scale luminaire with a high performance optical system designed to achieve wide spacings and full cutoff performance.

- **Stonco Commercial Bollard**
  Combines classic low-glare pathway illumination and energy-saving LED technology with a tough architectural bronze finish.

- **Gardco Full Cutoff Bollard BR840**
  Feature LEDs concealed below cast louvers to provide down lighting for landscape and pathway applications with 4" diameter extruded aluminum shafts.

- **Lumec Roadway Security Luminaire**
  The definition of security made simple and affordable with easy installation and maximized operations.

- **Philips CorePro LED Wall Pack Lamps**
  An ideal HID replacement providing high intensity/illumination for added visibility outside of your building.

- **Philips MasterClass LED TrueForce Corn Cob Lamps**
  Provides the “perfect fit” with uncompromising efficacy and color quality to keep parking areas brightly lit.

- **Philips CorePro LED Corn Cob Lamps**
  Maximize energy savings with this LED solution at an affordable price.

Roadway/Parking Lot solutions

- **Gardco 111 Mini Sconce**
  Compact and perfect for low mounting height wall applications. This luminaire integrates naturally to wall surfaces. Available with three different distribution patterns.

- **Gardco 101 Wall Sconce**
  Combines full cutoff performance, usable illumination patterns and powerful wattages into a compact and architecturally pleasing design.

- **Lumec RoadStar Architectural Roadway**
  Combines a decorative look with powerful performance in two sizes.

- **Gardco 121 Wall Sconce G4**
  Offers a stylish, powerful optical design, while delivering high light levels and functional distributions for excellent visibility.

- **Stonco LytePro 16 Wall Sconce**
  Features outstanding value in a medium but compact, architectural design, combining energy efficiency with performance.

- **Stonco LytePro 32 Wall Sconce**
  Features outstanding value in a large but compact, architectural design, combining energy efficiency with performance.

- **Gardco DuraForm**
  Provides seamless replacement of HID luminaires in three sizes.

- **Gardco ClearScape**
  Features an architecturally stylish design that will complement your field’s visual landscape.

- **Philips CorePro LED Wall Pack Lamps**
  An ideal HID replacement providing high intensity/illumination for added visibility outside of your building.

- **Philips MasterClass LED TrueForce Corn Cob Lamps**
  Provides the “perfect fit” with uncompromising efficacy and color quality to keep parking areas brightly lit.

Floodlight solutions for field perimeter and playground applications

- **Gardco 121 Wall Sconce G4**
  Offers a stylish, powerful optical design, while delivering high light levels and functional distributions for excellent visibility.

- **Stonco Slim Flood**
  Your best value for general floodlighting with a discreet and modern design.

- **Gardco 101 Wall Sconce**
  Combines full cutoff performance, usable illumination patterns and powerful wattages into a compact and architecturally pleasing design.

- **Gardco ClearScape**
  Features an architecturally stylish design that will complement your field’s visual landscape.

- **Gardco LytePro 16 Wall Sconce**
  Features outstanding value in a medium but compact, architectural design, combining energy efficiency with performance.

- **Stonco LytePro 32 Wall Sconce**
  Features outstanding value in a large but compact, architectural design, combining energy efficiency with performance.

- **Gardco 121 Wall Sconce G4**
  Offers a stylish, powerful optical design, while delivering high light levels and functional distributions for excellent visibility.

- **Stonco LytePro 7 Wall Sconce**
  Features outstanding value in a small and compact, architectural design, combining energy efficiency with performance.

- **Stonco LytePro 32 Wall Sconce**
  Features outstanding value in a large but compact, architectural design, combining energy efficiency with performance.

- **Gardco PureForm PWS Comfort Wall Sconce**
  Provides clear line of sight to your building with its sleek, low profile design and comfort optics.

- **Lumec RoadFocus Cobra Head**
  Features a sleek design and provides seamless replacement of HID luminaires in three sizes.

- **Stonco LytePro 16 Wall Sconce**
  Features outstanding value in a medium but compact, architectural design, combining energy efficiency with performance.

- **Stonco LytePro 32 Wall Sconce**
  Features outstanding value in a large but compact, architectural design, combining energy efficiency with performance.

- **Gardco LytePro 16 Wall Sconce**
  Features outstanding value in a medium but compact, architectural design, combining energy efficiency with performance.

- **Stonco LytePro 32 Wall Sconce**
  Features outstanding value in a large but compact, architectural design, combining energy efficiency with performance.

Retrofit solutions

- **Gardco 121 Wall Sconce G4**
  Offers a stylish, powerful optical design, while delivering high light levels and functional distributions for excellent visibility.

The benefits of lighting controls

Because it helps you become the school you want to be.

Enhance your security
Use sensors to detect movement, instantly activating lights after hours. Interact Pro complies with DLC cybersecurity requirements to ensure the safety of your system.

Energy efficiency
By switching to LED you’ll achieve the same light output using far less energy.

Longer lifespan
Save on replacements with long-lasting LED technology reducing cost, hassle and disruption.

Automation
Add lighting controls to save year on year by adapting your lighting usage with your work day.
Philips Dynalite Wired Options

Both standalone and networked control solutions that meet code requirements, maximize energy savings potential and support flexible functional behaviors, which are ideal for classrooms. With backend software, the system offers the ability to visualize and manage lighting assets throughout your school.

Consider a factory pre-configured Room Automation System (PDRAS) with out-of-box scenes and sensor behaviors that are designed to support your learning environments. Save on labor costs with plug and play CAT5 installation with up to five zones or in a dual room application with up to two zones per room. Moreover, the system is scalable and allows all the spaces to be networked together for central monitoring and management capabilities.

Philips Dynalite Room Automation System
Multizone Control System and flexible all-in-one lighting control solution (PDRAS)

The Philips Dynalite PDRAS brings energy management, occupancy detection, daylight harvesting, and code-compliance for multizone spaces, with simple, intuitive controls and optional ethernet connectivity for plug-and-play installation. The PDRAS uses the latest generation of Dynalite hardware, preprogrammed and configured in our factory to work seamlessly together. Simple plenum installation with pluggable user interfaces and sensors ensures industry-leading performance right out of the box.

interact Wireless Options

Signify Interact Pro helps to boost energy savings, reach sustainability targets, and enhance occupancy comfort levels immediately from day one.

Interact IoT platform is a secure, scalable, and sustainable cloud-based Internet of Things (IoT) platform designed to help run your operations sustainably, efficiently and reliably. The Interact Pro scalable system is a cost-efficient and wireless solution for every step of your smart lighting journey. The system is fully scalable, so it can grow as building requirements grow – from smart to super-smart. This system is fully compliant with all standard regulations to claim utility rebates (ASHRAE, Title 24, IECC, UL924, DLC).
