

Signify

Create a home away from home

Hospitality Lighting

A comprehensive portfolio

As the global leader in lighting for more than 125 years, Signify has the know-how and the most comprehensive portfolio of energy efficient technology to meet all your application needs.

Creating a unique and memorable experience for every guest is key to ensuring customer loyalty. At the same time, a focus on costs and sustainable solutions is important to your bottom line. With flexible LED lighting and connected systems from Signify, you can welcome, guide and entertain every visitor who walks through your door, all while saving on energy and operating costs. From personalized lighting in guest rooms to wayfinding and displays, make your hotel a destination to remember.

Visit www.signify.com/hospitality to learn more.

Save energy and reduce costs

Lighting upgrades provide a significant opportunity to drastically reduce energy costs and cut ongoing operation and maintenance expenses

Lower energy consumption with LED lighting and smart controls. LED lighting can reduce energy usage and utility spend by up to 80%¹, extending the life of your equipment.

Leverage IoT technology to optimize energy usage and maximize savings.

Minimize operational costs with remote monitoring and gain new insights through connected systems.

Optimize operations

Streamline operations and improve guest services by using Interact software to integrate with other systems

Manage and control multiple sites from a single central location.

Simplify maintenance with lamp failure detection.

Integrate lighting with other systems, such as housekeeping, building management, heating, air conditioning, and automatic blinds and get real-time visibility in one intuitive dashboard.

Enhance guest experience

Raise the bar on service levels with hotel rooms that detect guests, adjusting lighting and room temperature instantly to make them feel at home

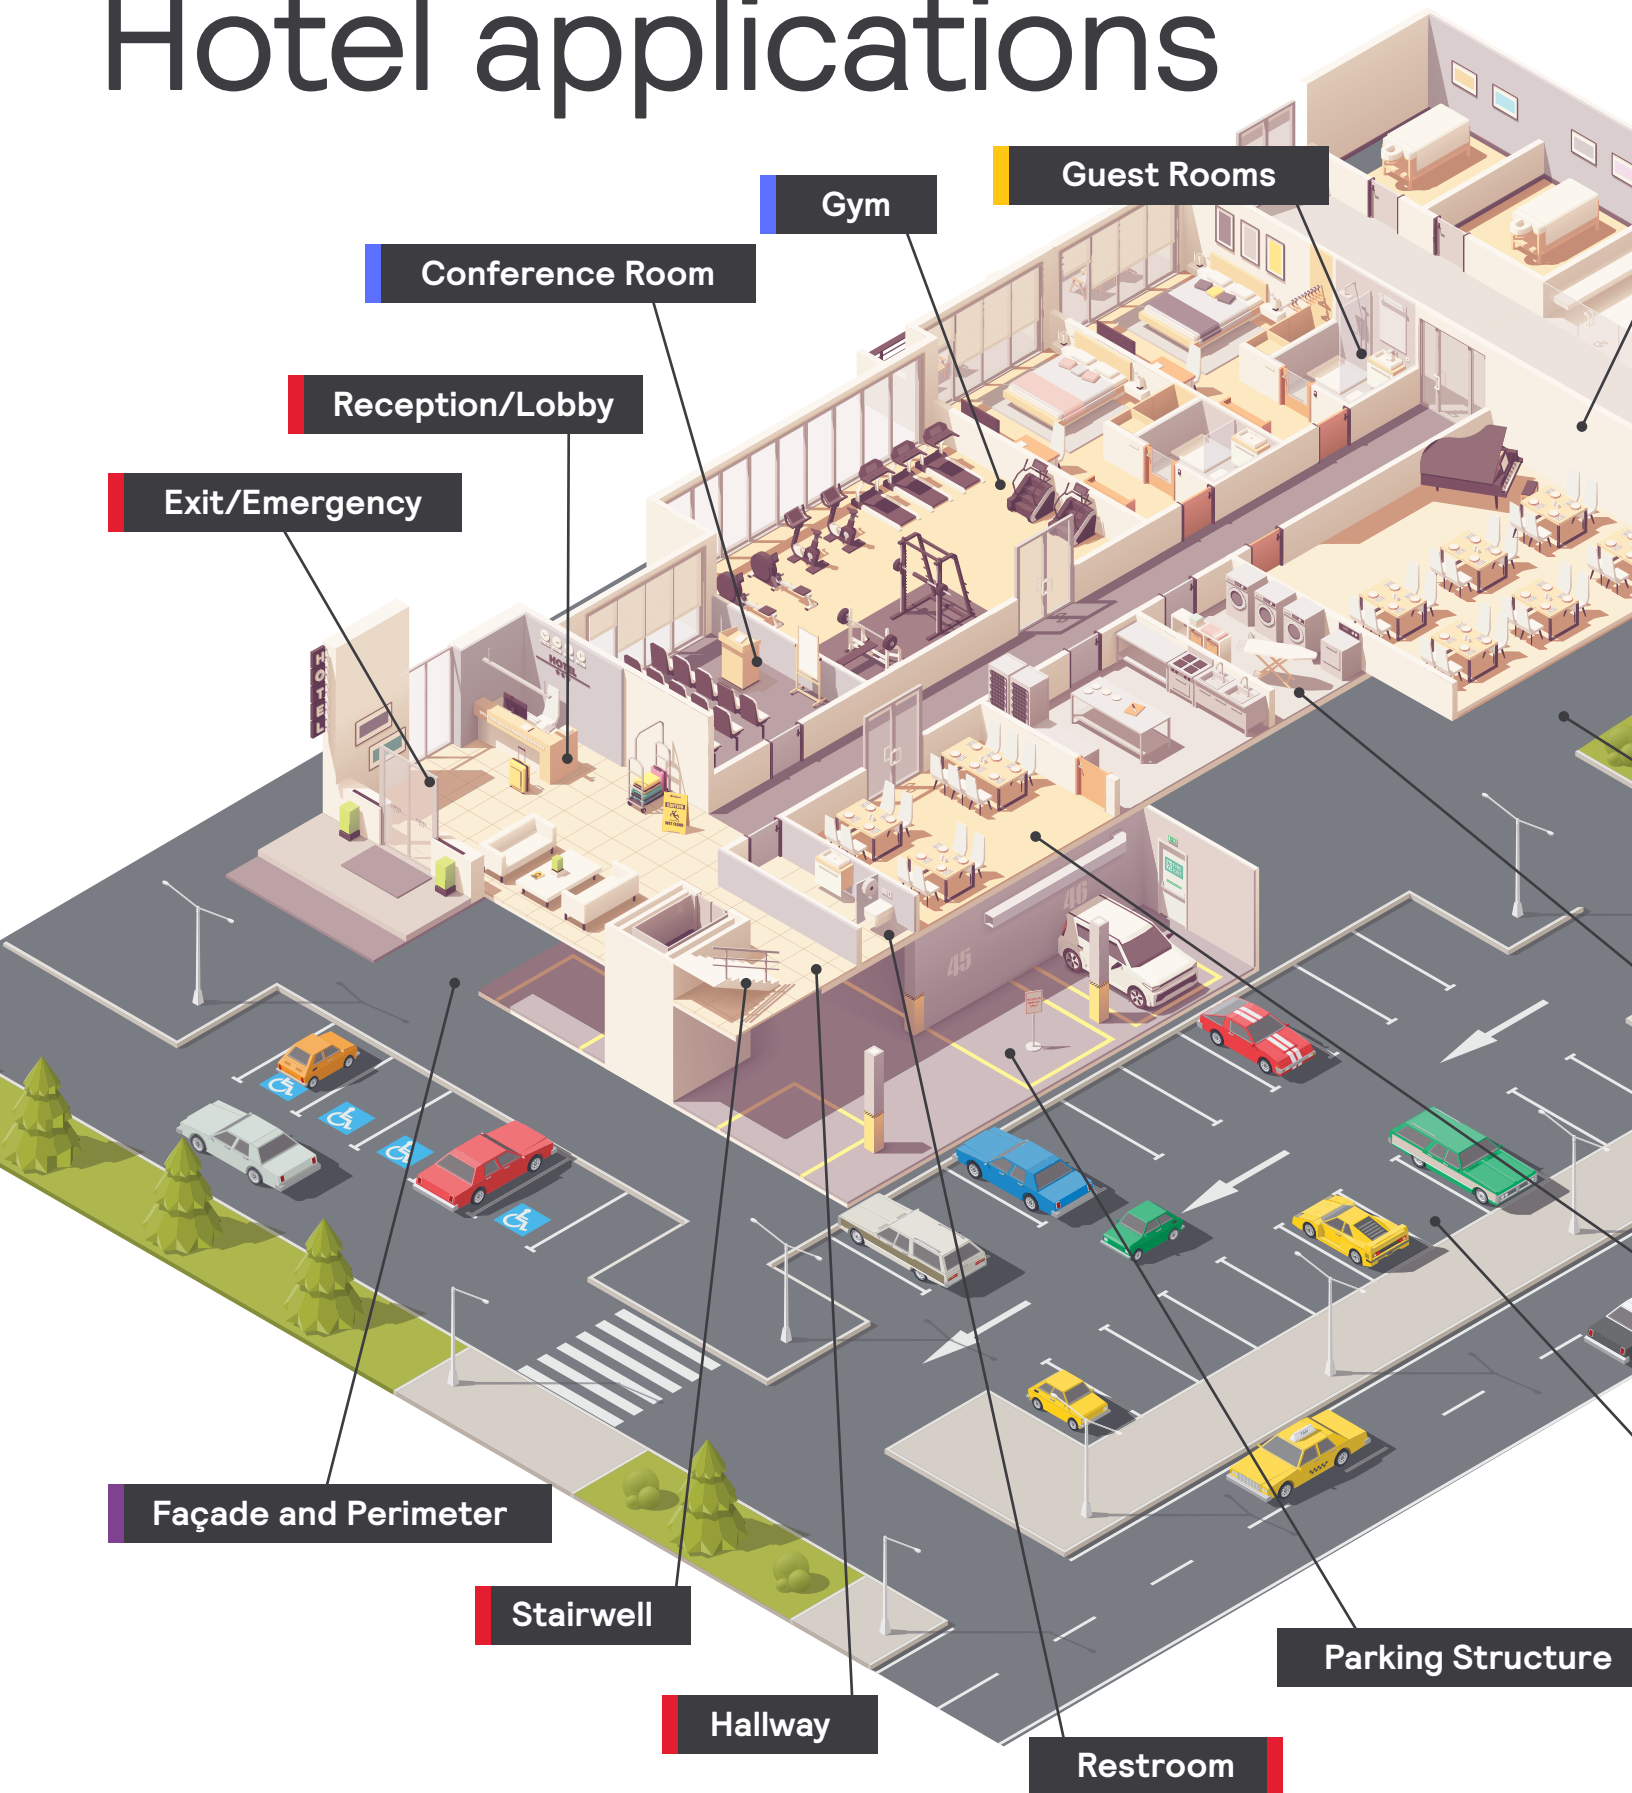

Design welcoming, inspiring spaces throughout the hotel with unique LED lighting solutions.

Allow guests to personalize the lighting and temperature in their rooms to suit their mood.

Bring your brand identity to life through unique and beautiful lighting design.

1. When compared to traditional incandescent bulbs.

Hotel applications

General Illumination

Transform the atmosphere with LED lighting to provide a memorable stay for guests.

Guest Rooms

Personalize lighting in guest rooms and empower staff by using Interact IoT technology to gain insights into the status of each room.

Social Gathering

Create a relaxing ambiance with flexible LED lighting, inviting your guests to make themselves at home away from home.

Outdoor

Ensure parking structures and walkways feel secure and well-illuminated.

General Illumination

Transform your hotel's appearance with LED lighting to provide a memorable stay for guests. Lighting can be used to create an ambience, capture different moods and create personalized experiences. LEDs consume less energy than conventional lights, leading to a reduction in carbon footprint and costs. Combining lighting with smart controls can help you save even more by only illuminating areas when needed. Using Interact IoT technology, optimize staff efficiencies with complete visibility of hotel operations via the Interact dashboard. With Interact software, you can integrate your lighting with other systems, such as HVAC and PMS, giving real-time visibility in one intuitive dashboard to streamline operations and improve guest services.

General Illumination

Architectural for reception and lobby applications

Color Kinetics

Color Kinetics delivers indoor and outdoor LED lighting systems in a wide range of types, form factors, and output levels, empowering you to achieve your unique vision.

Decorative Pendants

for reception and lobby

3D Printed Decorative Pendants

The perfect blend of elegant and sophisticated, 3D pendants add the finishing touch to a contemporary interior style, calling attention to various kinds of gathering areas for work, play or contemplation.

Lightolier Calculte LED Cylinder

Features industry leading visual comfort and uniform illumination to accent bar and counter areas.

Downlights for reception and lobby applications

Lightolier Flat Downlight

An easy and quick downlight solution that is perfect for shallow ceilings.

Lightolier Calculte

Offers quality uniform illumination, patented installation flexibility, and industry leading visual comfort to support concentration.

Lightolier Calculte with IntelliHue technology

Offers uniform illumination with millions of combinations of precise white and color to reduce glare and maximize the architectural appeal.

Track Lighting for reception and lobby applications

Lightolier CorePro LED Mini Cylinder

Combines optics, light source, thermal management system and driver into a single housing, providing a sleek look suitable for lower mounting heights and smaller spaces.

3D Printed MS Series

Allows you to choose from a variety of finishes and textures, configured to your specifications.

Lightolier Spot LED Track Heads

Highly customizable and energy efficient, offering a multi-optic LED design for excellent beam quality and visual performance.

General Illumination

Linear for restroom applications

Ledalite Jump Wall

Offers a contemporary aesthetic that combines the latest lighting technologies with texture, pattern, and rhythm along an uninterrupted end-to-end continuum of luminance.

Ledalite Sync Wall

The epitome of compact style, offering true direct/indirect lighting distribution and luminous aesthetics with exceptional glare control.

Ledalite TruGroove Wall

Drives performance beyond the edge. Innovative optics deliver exceptional uniformity and wide row spacing from a 3" aperture continuous line of light.

Low Bay

for hallway applications

3D Printed Low Bay

Offers customizable color, texture, finish, and mounting options to build your brand while contributing to a sustainable future.

Recessed Troffers for restroom and hallway applications

Day-Brite FluxPanel Selectable

A versatile luminaire available in a variety of sizes with selectable color temperatures and lumen packages and recessed or surface mounting options.

Day-Brite FluxGrid Gen 2 Recessed

Offers architectural appeal with "must have" features, including two different lens styles, discrete air return, integral emergency, and access to the boards and driver from below.

Day-Brite EvoGrid Recessed

A basket luminaire with a soft opal diffuser that utilizes highly reliable and efficient Philips LED platform boards and a dimmable driver enabling market leading performance in its category.

Day-Brite FormFlex Recessed

Delivers high performing, even illumination and visual comfort through a fully luminous aperture.

Linear Wall Mount for stairwell applications

Day-Brite FluxStream EZ Wraparound

Simple, 4', energy-saving option ideal for brightening your stairwells.

Day-Brite Stairwell LED

Offers bi-level lighting and an integrated motion sensor to balance energy savings with a feeling of security.

Day-Brite FluxStream Wraparound

High-performing, energy-efficient luminaire delivering smooth diffused light ideal for hallways and stairwells.

General Illumination

Downlights for restroom, stairwell, and hallway applications

Lightolier SlimSurface

A sleek, damp location rated, 5/8" thick LED surface-mounted luminaire with the appearance of a recessed downlight.

Lightolier LyteCaster

Offers the ideal general purpose downlighting solution, providing comfortable, high quality light. Available in new construction and remodeler frame with interchangeable light engine.

Lightolier LyteProfile

Provides a perfect balance of functionality with glare control. The robust and versatile UniFrame frame-in kit makes changes and updates easy to manage and install. A high cutoff angle minimizes glare.

Lightolier Calculite

Offers quality uniform illumination, patented installation flexibility via UniFrame, and industry leading visual comfort.

Recessed Troffers for back of house applications

Day-Brite T-Grid Recessed

Low profile with excellent general illumination performance for dark areas.

Day-Brite EvoGrid Recessed

A basket luminaire with a soft opal diffuser that utilizes highly reliable and efficient Philips LED platform boards and a dimmable driver enabling market leading performance in its category.

Linear for hallway and back of house applications

Day-Brite FluxStream EZ Wraparound

A simple, 4', energy-efficient linear fixture, ideal for brightening your hallways and stairwells.

Day-Brite FluxStream LED Strip

Available in a variety of lengths and color temperatures to meet your general lighting needs.

Day-Brite OWL LED Wraparound

Ideal surface-mount, general illumination luminaire for quality and affordability.

Retrofit Solutions

Luminaires

Lightolier Commercial Retrofit Downlight

An easy and quick downlight solution that is perfect for varying ceiling heights.

Philips EvoKit

Easily upgrade existing fluorescent troffers to fast-track payback with energy-efficient LEDs in just 5 minutes.

LED Lamps

Philips LED Bulbs

Provide an easy, high-quality, long lasting retrofit solution with energy savings of up to 80% compared to traditional incandescent options while reducing maintenance costs.

Philips LED Candle & Deco Lamps

Provide an easy, high-quality, long lasting retrofit solution with energy savings of up to 80% compared to traditional incandescent options while reducing maintenance costs.

Philips LED PAR, MR16 and GU10 Lamps

Deliver halogen-like light, offering a uniform beam, exceptional color consistency, and deep dimming capabilities to provide the exact light level needed to enhance any space.

Philips LED Tubes

Enhance your lighting quality and enjoy significant energy savings with a range of easy-to-install LED Tube Lamps.

Security & Emergency

Promote a sense of security and comfort for guests and staff by ensuring well-lit spaces throughout your building.

Now more than ever, the health and safety of guests and employees is top priority. Consider upper air UV-C solutions to inactivate viruses and bacteria in busy areas, such as gyms, cafes and reception areas. Meet code requirements with exit and emergency solutions that provide a sense of security for your guests and staff in hectic moments.

Security & Emergency

Exit & Emergency for security and emergency applications

Chloride Compac CLX LED Exit Sign

Offers a sleek unobtrusive design and comes standard with self-diagnostic/self-test features to assure that they are ready at any time.

Chloride Compac CLU2/CLU3 LED Emergency Unit

The sleek unobtrusive design combines great aesthetics with optimum performance for immediate egress.

Chloride Edge-Glo Edge-Lit LED Exit Sign

Features an attractive chamfered acrylic panel with floating letters.

Chloride Compac CLUR3 LED Recessed Emergency Unit

Flush-mounted emergency unit with a stationary center lamp head and two side lamps that can be aimed for left and right angles.

Chloride 45V Series Edge-Lit LED Exit Sign

High quality, specification grade, edge-lit exit sign that is aesthetically appealing and designed for architectural excellence.

Chloride Fusion III Recessed LED Emergency Unit

A die-cast recessed LED architectural emergency with a choice of oval or square trim plates.

*Signify wall mount and ceiling mount upper air UV-C luminaires were tested for SARS-CoV-2 in Innovative Bioanalysis Lab. The wall-mounted luminaire achieved 99.9% reduction in 10 minutes and the ceiling mount luminaire achieved 92.6% reduction in 20 minutes. The luminaires were also tested for Escherichia coli in Intertek Lab. Both luminaires achieved 99.9% reduction in 45 minutes.

Security & Emergency

UV-C solutions for upper air and surface treatment applications

UV-C lighting can play an important role in neutralizing harmful viruses and bacteria, especially in mask-off environments such as cafeterias. This additional layer of protection may provide a greater sense of comfort for teachers and coaches, as they lead students while in classrooms and gymnasiums. UV-C upper-air and closed chambers can also run continually, helping to reduce the need for manual disinfection, especially in high-traffic areas such as restrooms or locker rooms.

**Alkco UV-C Upper Air
U2C 2x2 Grid Ceiling Mount**

Treats air in occupied spaces to offer a layer of protection against bacteria, viruses, and fungal spores to help your guests and employees feel secure.*

**Alkco UV-C Upper Air
UWL Louvered Wall Mount**

Treats air in occupied spaces to offer a layer of protection against bacteria, viruses, and fungal spores to help your guests and employees feel secure.*

**Alkco UV-C Surface
UST Strip**

Can immobilize bacteria on preparation surfaces and equipment with surface and suspended mounting options.

**Alkco UV-C Surface
UHB High Bay**

Can immobilize bacteria on preparation surfaces and equipment for ceiling heights of 10' to 25'.

Control Systems for UV-C applications

Philips Dynalite UV-C Controls

Control system allows the UV-C lighting system to be used and operated with greater safety than a system without an equivalent control solution in place.

Interact

The Interact Space Management application can be used to further identify which areas have been occupied and need to be sanitized, as well as help manage social distancing.

Once BioShift Chambers

Uses UV-C light to inactivate viruses and other pathogens on objects placed in the chamber, neutralizing most viruses in 5 minutes.

Guest Rooms

With flexible lighting systems, guests can personalize lighting scenes in their rooms to suit their mood. Bio-adaptive lighting provides different levels of light intensity and color temperatures throughout the day to enhance well-being, helping to energize guests in the morning and providing a good night's sleep by supporting the body's circadian rhythm. With Interact IoT technology, employees can have a comprehensive real-time view of the status of all guest rooms to view laundry requests, room temperature, business center requests and more.

Guest Rooms

Track Lighting for guest room applications

Lightolier CorePro LED Mini Cylinder

Combines optics, light source, thermal management system and driver into a single housing, providing a sleek look suitable for lower mounting heights and smaller spaces.

3D Printed MS Series

Allows you to choose from a variety of finishes and textures, configured to your specifications.

Lightolier OmniSpot Track Heads

Provides sleek and discrete aesthetics and high center beam candlepower and efficacy performance, while allowing for less than 1" of space between the track head and track in the ceiling.

Downlights for guest room applications

Lightolier SlimSurface

Sleek, damp location rated, 5/8" thick LED surface-mounted luminaire with the appearance of a recessed downlight.

Lightolier LyteCaster

Offers the ideal general purpose downlighting solution, providing comfortable, high quality light. Available in new construction and remodeler frame with interchangeable light engine.

Lightolier LyteProfile

Flexible and design-friendly, offering both square and round options, without compromising quality.

Lightolier Calculte

Offers quality uniform illumination, patented installation flexibility via UniFrame, and industry leading visual comfort.

Decorative for guest room applications

3D Printed Decorative Pendants

The perfect blend of elegant and sophisticated, 3D pendants add the finishing touch to a contemporary interior style, calling attention to various kinds of gathering areas for work, play or contemplation.

3D Printed Low Bay

Offers customizable color, texture, finish, and mounting options to build your brand while contributing to a sustainable future.

Ledalite EyeLine Wall

An architectural, statement fixture offering an ultra-thin line of light and quality performance.

Ledalite TruGroove Wall

A seamless 3" ribbon of light with exceptional performance and versatility for functional and decorative applications.

Retrofit Solutions

Luminaires

Lightolier Commercial Retrofit Downlight

An easy and quick downlight solution that is perfect for varying ceiling heights.

Lightolier CorePro LED Downlight

An affordable, professional option providing easy installation for new construction or remodel applications.

Philips EvoKit

Easily upgrade existing fluorescent troffers to fast-track payback with energy-efficient LEDs in just 5 minutes.

LED Lamps

Philips LED Bulbs

Provide an easy, high-quality, long lasting retrofit solution with energy savings of up to 80% compared to traditional incandescent options while reducing maintenance costs.

Philips LED Candle & Deco Lamps

Provide an easy, high-quality, long lasting retrofit solution with energy savings of up to 80% compared to traditional incandescent options while reducing maintenance costs.

Philips LED PAR, MR16 and GU10 Lamps

Deliver halogen-like light, offering a uniform beam, exceptional color consistency, and deep dimming capabilities to provide the exact light level needed to enhance any space.

Philips LED Tubes

Enhance your lighting quality and enjoy significant energy savings with a range of easy-to-install LED Tube Lamps.

Social Gathering

Invite guests into your bar, café or restaurant to enjoy freshly prepared food and drinks. Create a relaxing ambiance with flexible LED lighting, inviting your guests to make themselves at home away from home. Consider UV-C solutions to fight viruses and bacteria in the air and treat surfaces in social gathering spaces. The Interact Space Management application can be used to further identify which areas have been occupied and need to be sanitized, as well as help manage social distancing.

Social Gathering

Downlights for restaurant, bar, bistro, and café applications

Lightolier Flat Downlight

An easy and quick downlight solution that is perfect for shallow ceilings.

Lightolier Calculite

Offers quality uniform illumination, patented installation flexibility via UniFrame, and industry leading visual comfort, perfect for restaurant applications.

Lightolier Calculite with IntelliHue technology

Offers uniform illumination with millions of combinations of precise white and color to reduce glare and maximize the architectural appeal.

Track Lighting for restaurant, bar, bistro, and café applications

Lightolier CorePro LED Mini Cylinder

Has simple, clean and contemporary styling to fit well into any interior hospitality space without blowing your budget.

3D Printed MS Series

Allows you to choose from a variety of finishes and textures, configured to your specifications.

Lightolier Omnispot LED Cylinder

Designed to meet the most demanding retail challenges through sleek and discrete aesthetics while providing a high center beam candlepower and efficacy performance.

Low Bay for gym applications

Day-Brite FluxStream LED Strip

High performing, energy-efficient luminaire delivering smooth diffused light.

3D Printed Low Bay

Offers customizable color, texture, finish, and mounting options to build your brand while contributing to a sustainable future.

Day-Brite FluxGrid Gen 2 Recessed

Offers architectural appeal with "must have" features, including two different lens styles, discrete air return, integral emergency, and access to the boards and driver from below.

Social Gathering

Linear for gym applications

Ledalite Jump Suspended

Offers aesthetic design elements and playful patterns with multiple distributions in a seamless continuum of luminance.

Ledalite FloatPlane Suspended

Offers a fresh and playful look and performance that rivals that of high-end LED luminaires with the affordability of fluorescent.

Ledalite TruGroove Suspended

Drives performance beyond the edge. Innovative optics deliver exceptional uniformity and wide row spacing from a 3" aperture continuous line of light.

Human-Centric Lighting

for conference room applications

Ledalite NatureConnect

Brings the colors and dynamics from nature indoors for a fully immersive experience built on biophilic design principles.

Architectural Linear for conference room applications

Ledalite FloatPlane Suspended

Offers a fresh and playful look and performance that rivals that of high-end LED luminaires with the affordability of fluorescent.

Ledalite Sync Suspended

The epitome of compact style with exceptional glare control.

Ledalite TruGroove Suspended

Drives performance beyond the edge. Innovative optics deliver exceptional uniformity and wide row spacing from a 3" aperture continuous line of light.

Secure Internet

for conference room applications

TruLifi

Combines great quality light with a reliable, fast internet connection.

Recessed Troffers

for gym and conference room applications

Day-Brite FluxGrid Gen 2 Recessed

Offers architectural appeal with "must have" features, including two different lens styles, discrete air return, integral emergency, and access to the boards and driver from below.

Day-Brite FormFlex Recessed

Delivers high performing, even illumination and visual comfort through a fully luminous aperture.

Downlights for ballroom applications

Lightolier Calculite

Offers quality uniform illumination, patented installation flexibility via UniFrame, and industry leading visual comfort.

Lightolier Calculite IntelliHue

Offers uniform illumination with millions of combinations of precise white and color to reduce glare and maximize the architectural appeal.

Social Gathering

Soffit and Cove Lighting

for restaurant, bar, bistro, cafe, conference room, and ballroom applications

Color Kinetics PureStyle & PureStyle Compact

Brings lighting professionals high output in a compact, easily concealed luminaire, delivering exceptionally high-quality light for a wide range of interior applications.

Luminous Panels

for restaurant, bar, bistro, cafe, conference room, and ballroom applications

Color Kinetics Luminous Textile

Provides atmosphere aesthetic lighting.

Color Kinetics OneSpace Gen 2

Offers a sleek and creative approach to general illumination.

Architectural Recessed and Surface

for spa applications

Day-Brite Coffaire LED

Combines a perforated mesh lamp shield with a white acrylic overlay in an indirect cove to create an aesthetically pleasing direct/indirect luminaire.

Day-Brite EvoGrid Recessed

A basket luminaire with a soft opal diffuser that utilizes highly reliable and efficient Philips LED platform boards and a dimmable driver enabling market leading performance in its category.

Ledalite TruGroove Suspended Micro

A seamless 1.75" ribbon of light with exceptional performance and versatility for functional and decorative applications.

Decorative Pendants for restaurant, bar, bistro, cafe, and spa applications

3D Printed Decorative Pendants

The perfect blend of elegant and sophisticated, 3D pendants add the finishing touch to a contemporary interior style.

Lightolier Calculite LED Cylinder

Features industry leading visual comfort and uniform illumination to accent bar and counter areas.

Social Gathering

Downlights for gym, conference room, and spa applications

Lightolier SlimSurface

Sleek, damp location rated, 5/8" thick LED surface-mounted luminaire with the appearance of a recessed downlight.

Lightolier LyteProfile

Provides a perfect balance of functionality with glare control. The robust and versatile UniFrame frame-in kit makes changes and updates easy to manage and install. A high cutoff angle minimizes glare, and dim-to-warm options are available to enhance guest comfort.

Lightolier Calculite

Offers quality uniform illumination, patented installation flexibility via UniFrame, and industry leading visual comfort.

Lightolier Calculite IntelliHue

Offers uniform illumination with millions of combinations of precise white and color to reduce glare and maximize the architectural appeal.

Retrofit solutions

Luminaires

Lightolier Commercial Retrofit Downlight

Outdoor

Help guests and employees feel a sense of security outside your hotel with properly illuminated parking lots and walkways. Invite guests in with colorful façade lighting that reflects your brand and save energy with long-lasting LED lighting in parking areas. Signify's outdoor offering makes it easy to provide both comfort and performance while making a distinct impression.

With Interact software, you can even manage and monitor your hotel's façade lighting through a dashboard. Interact lighting asset management is the smart way to ensure architectural lighting is always performing at its best while simplifying maintenance through remote fault detection plus automatic software and firmware updates. Create robust asset inventory and repair logs and track hardware changes and system performance.

Outdoor

Wall Mount for perimeter (building-mounted) applications

Stonco WallPack DualSelect

Combines classic design with LED for energy-efficient wall lighting.

Stonco LytePro 7 Wall Sconce

Features outstanding value in a small and compact, architectural design, combining energy efficiency with performance.

Stonco LytePro 16 Wall Sconce

Features outstanding value in a medium but compact, architectural design, combining energy efficiency with performance.

Stonco LytePro 32 Wall Sconce

Features outstanding value in a large but compact, architectural design, combining energy efficiency with performance.

Gardco 121 Sconce

Offers a stylish, powerful optical design, while delivering high light levels and functional distributions for excellent visibility.

Gardco PureForm PWS Comfort Wall Sconce

Provides clear line of sight to your building with its sleek, low profile design and comfort optics.

Garco PureForm Wall Sconce

Provides clear line of sight to your building with its sleek, low profile design.

Floodlights for perimeter (building-mounted) applications

Gardco DuraForm LED

Provides seamless replacement of HID luminaires in three sizes.

Gardco ClearScape LED

Features an architecturally stylish design in two sizes that will complement your visual landscape.

Architectural for façade applications

Color Kinetics

Color Kinetics delivers indoor and outdoor LED lighting systems in a wide range of types, form factors, and output levels, empowering you to achieve your unique vision.

Outdoor

Bollards for walkways and pedestrian applications

Hadco DB30 Bollard

Offers durable versatility for landscape applications.

Gardco PureForm LED Bollard PBL

Integrates a sleek, low profile design, extraordinary light output, and energy savings into an innovative pedestrian scale luminaire.

Lumec SleekVision Bollard

Features ClearGuide, a revolutionary, vertically-oriented light engine designed to reduce pixelation and glare in a sleek form factor.

Lumec ClassicStyle Bollard

Features ClearGuide, a revolutionary, vertically-oriented light engine designed to reduce pixelation and glare in a classic style.

Lumec SoleCity Bollard LED

Goes beyond decorative, functional, outdoor lighting to help you create a unique, stunning and harmonious look for any public space.

Gardco PureForm LED Area Small Comfort P15

Features a sleek, low profile, 15" square design with comfort optics to reduce glare in pedestrian scale applications.

Gardco PureForm LED Area Small Comfort P20

Features a sleek, low profile, 20" round design with comfort optics to reduce glare in pedestrian scale applications.

Site and Area for walkways and pedestrian applications

Step Lighting for stairs applications

Gardco PureForm LED Area Small P15

Features a sleek, low profile, 15" square design with precision optics optimized for maximum efficiency and uniformity.

Gardco PureForm LED Post Top Comfort

Features a sleek, low profile design with comfort optics to reduce glare.

Hadco RSC2 Step Light LED

Offers interchangeable LED color temperatures and five preset light outputs. Great for high-pedestrian-traffic and plant-life applications.

Gardco 94 Line Series

LED step and aisle lights 941L, 942L & 943L are architecturally styled luminaires precisely constructed of die-cast aluminum, providing light with high performance, long life LED systems.

Outdoor

Urban Post-Top for walkways and pedestrian applications

TownView

Offers design flexibility with a variety of style options, lumen packages, a range of control options and more at exceptional value. The horizontal lens option reduces glare to enhance a sense of security with increased visual comfort.

Refractive Globe

Blends classic beauty with modern technology in a versatile modular concept.

Lumec UrbanScape LED Post-Top

Features flexible, robust energy-saving solutions for heritage-styled urban architectural lighting.

Canopy for parking structure applications

Stonco Garage & Canopy DualSelect

The go-to durable, cost-effective lighting solution for your parking garages, covered walkways and outdoor canopies.

Stonco Garage & Canopy DualSelect Round

The go-to durable, cost-effective lighting solution for your parking garages, covered walkways and outdoor canopies in a round form factor.

Day-Brite FluxStream Sealed Strip

Linear option, suitable for wet locations and available in a variety of lengths and color temperatures.

Gardco SoftView Parking Garage

Features edge-lit technology, providing visual comfort with minimal glare to enhance visibility in your parking garage. An added uplight feature reduces cave effect for an increased sense of security.

Gardco G3 LED Parking Garage

Combines excellent performance with value, providing one of the most energy efficient lighting solutions for the energy- and budget-conscious.

Gardco SlenderForm LED canopy SFC

Features high output LEDs and a sleek, yet powerful, low profile design.

Outdoor

Site and Area for parking lot applications

Stonco Area Light LED

Pole-mounted fixture delivering value with high energy efficiency.

Gardco EcoForm LED Site and Area

Combines economy with performance in two sizes, making it simple to switch to LED and brighten your parking area.

Gardco PureForm LED Area

Features a sleek and low-profile fixture, available in a variety of sizes with arm mount, post top, or bollard designs. Comfort optics enhance visual comfort by reducing glare to provide a sense of security in your parking lot.

Architectural for pool applications

Color Kinetics C-Splash 2

Ultra-thin, submersible luminaire designed to provide vibrant color and color-changing light in water to a depth of 15 ft.

Retrofit solutions

LED Lamps

Philips CorePro LED PARs

A seamless upgrade to halogen lamps while using a fraction of the energy.

Philips LED Tubes

Enhance your lighting quality and enjoy significant energy savings with a range of easy-to-install LED Tube Lamps.

Philips CorePro LED Wall Pack

The ideal replacement for conventional metal halide and high pressure sodium lamps, making it hassle-free to retrofit and maximize efficiency.

Philips LED Specialty lamps

The smart alternative to standard incandescent, fitting into existing landscaping lighting and offering incredible energy savings.

Philips CorePro LED Corn Cob Lamps

Maximize energy savings with this LED solution at an affordable price.

Philips MasterClass LED TrueForce Corn Cob Lamps

Provide the "perfect fit" with uncompromising efficacy and color quality to keep parking areas brightly lit.

Interact Hospitality Control system for guestrooms & suites

Over 25 years of experience

Delivering integrated hospitality systems on every scale and making the guest experience more memorable than ever.

Creating a memorable stay is essential –

not just so your guests return, but for your brand. In the world of social media, a positive experience can be shared instantly with others. It's never been more important to create spaces that are flexible, engaging and environmentally sustainable.

Quality with Global Scalability

By choosing Signify as your partner, you have the reassurance of quality and consistency across your hotel estate, which is perfect for reinforcing your brand. We cover all areas of your hotel and can help you roll out globally with CE and UL certified systems. Now is the time to make your guest experience more memorable than ever.

Perfect lighting for every scene

Great lighting makes guests feel more comfortable and provides a more memorable stay. Embedded scenes in your guest rooms can create an ambience, capture different moods and create personalized experiences.

Seamless Integration = Maximum Efficiency

Bringing all the systems in a guest room into central control not only gives the guest a seamlessly integrated interface but maximizes your energy and operational efficiency. Whether using occupancy or door status to switch or step-down HVAC behavior, or routing a request to housekeeping, we can help you deliver incredible service efficiently.

Create just the right environment for guests & staff

Interact Hospitality delivers real-time operational transparency across your entire property. Connected LED lighting delivers energy-efficient, mood-enhancing lighting everywhere — from the lobby to the restaurants, ballrooms, and guest rooms. Interact Hospitality software integrates with HVAC, room booking, and other systems via one intuitive dashboard, enhancing guest experiences and streamlining staff efficiency.

Connected Lighting

Scene management

Dynamic architectural lighting can make your hotel a standout landmark, encouraging guests to share images on social media to help build your brand. Easily change the façade lighting to promote events or celebrations to further differentiate your business. Enhance the in-room guest experience with pre-set lighting scenes to relax or read. Make ballrooms and other hospitality areas multipurpose through flexible, easy-to-change lighting scenes that maximize your profit.

Bio-adaptive lighting

Good lighting is essential to well-being. Scientifically validated bio-adaptive lighting recipes can transform your guests' stay and enhance their comfort by simulating natural wake-up experiences and minimizing sleep disruption with low-level illumination for those middle-of-the-night trips to the bathroom.

Energy optimization

In some climates, HVAC can account for over half of a hotel's energy consumption. Linking check-in/check-out information and data from smart occupancy sensors helps to optimize energy usage in guest rooms by turning down systems when rooms are unoccupied. You can keep rooms just the way your guests want them while maximizing energy savings.

Environmental monitoring

Sensors embedded in the room control system monitor the guest room environment and share information via the Interact Hospitality dashboard. The Interact Hospitality dashboard can show instantly if rooms become overheated, undercooled, or exceed humidity targets. Turn the HVAC off automatically if a guest opens the balcony door or window in their room.

Interact Hospitality software

Interact Hospitality dashboard

Optimize staff efficiencies and empower your management team to work more effectively with complete visibility of hotel operations. Receive a comprehensive, real-time view of the status of all guest rooms on laundry requests and temperature, requests in the business center, and more.

Interact Hospitality APIs

Interact Hospitality's open API enables integration with a variety of hotel systems, making real-time data available for everything from housekeeping to engineering and helping to enhance the efficiency of hotel operations.
