

ADVANCE

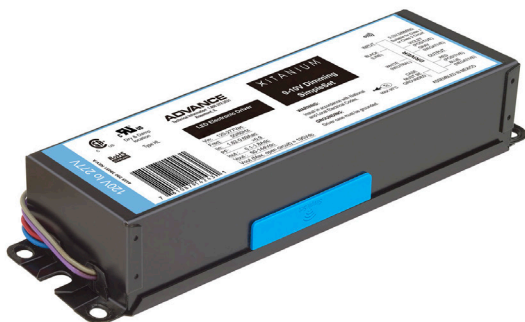

LED Driver

Xitanium

XI320C125V425PSF1

**Double
the power,
half the size**

Introducing the
Advance Xitanium 320W
SimpleSet driver –
**more power, higher efficiency,
smallest size in the market**

Compact size

Half the size of our current 300W driver

Higher efficiency

Offers 94% efficiency at 120Vac
reducing loss by 33% and
simplifies heat sinking

Lower operating temperature

Auxiliary power supply

Spec-able features

Such as Dynadimmer, Driver Thermal Limit,
and Constant Lumen Output

Isolation

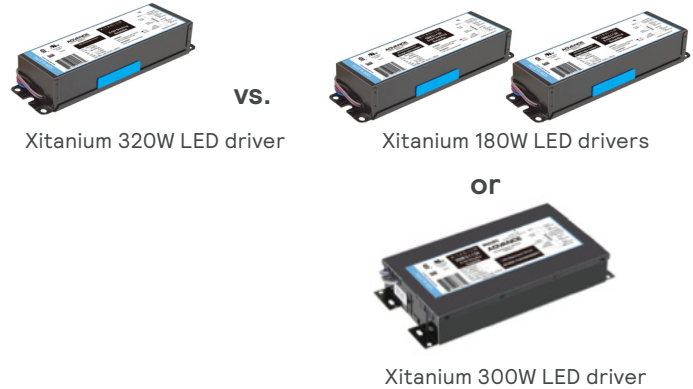

Combines with high efficiency to
protect the module

Double the power, half the size

Xitanium 320W SimpleSet LED driver vs. Inventronics

Xitanium 320W SimpleSet LED driver vs. two Xitanium 180W LED drivers

Advance Xitanium 320W SimpleSet LED driver offers the following benefits:

- 40% smaller - 10W less thermal waste
- 4°C lower operation temperature
- Logic Signal Input (LSI) for adding simple motion/occupancy sensors (Outdoor SR drivers only)
- Selectable heart-beat feature to prevent controller lock-up

Advance Xitanium 320W SimpleSet LED driver offers the following benefits:

- 50% smaller - 14W less thermal waste
- 2°C lower operating temperature
- Lower installation cost
- Simplified wiring
- Aux power supply

Driver Name	Order Code	P out max (W)	Input Voltage	I out max (mA)	V out min (V)	V out max (V)	UL Output Class	Primary Application
XI320C125V425PSF1	929002769613	320 W	120-277 Vac	1250 mA	425 V	215V	HV Non Class 2	Outdoor and Industrial
