

Philips CoreLine FastSet surfacemounted: easy installation, excellent illumination

CoreLine Fastset, surface-mounted

Philips CoreLine FastSet is a 1:1 energy-efficient LED replacement for conventional indoor surface-mounted lights. With identical lumen packages to fluorescent lighting, there's no need to make new lighting calculations for retrofit projects thanks to the all-in-one design, you can switch between correlated color temperatures (CCT) and lumen package in the same luminaire to suit your exact needs. Installation of these surface-mounted LED lights is fast and flexible too with a choice of simple through-wring, or cable entry from the side or back of the luminaire. That means CoreLine FastSet indoor surface-mounted lights are easy to mount as a standalone fixture, directly to the surface-mounted or using brackets. You can also create a line of light due to straight end-caps with head to head mounting. It is also easy to connect them to other CoreLine Fastset luminaires to create harmonious lines of light. Should you require it, accessories are also available to adapt the CoreLine fixtures for suspended mounting. As you'd expect from Philips, safety is designed into every CoreLine FastSet luminaire. Not only are the IP44 and IK06 rated to protect against accidental impact, the captive safety pins on the luminaire cover also prevents it from falling. Interact Ready options are available for smart lighting applications. So with CoreLine FastSet surface-mounted LED lights, you have the perfect solution for high circulation areas such as hallways and staircase lighting.

Benefits

- · Retrofit replacement in energy-efficient LED
- All-in-one: switch between a choice of four lumen packages (From 1700 lm to 6000 lm) and two color temperatures (3000K, 4000K) in one luminaire
- · Install as standalone fixtures or connect to create lines of light
- Fast and easy installation
- · Choice of mounting options: direct to ceiling or using brackets

Features

- · Up to 154 lm/W
- · Identical lumen packages to fluorescent 2400-6000 lm
- · Choice of standard lengths: 600mm, 1200mm and 1500mm
- Easy installation with simple through wiring and three cable entry options
- · Accessories available for suspension and line mounting
- IP44 protection and IK06 impact resistance
- · Interact Ready version available for smart lighting applications
- On/Off, DALI and connected versions available

Application

- Offices
- · Parking Garages
- Education
- Healthcare
- Schools
