Philips CoreLine FastSet wall-mounted: easy installation, excellent illumination

CoreLine Fastset, Wall-mounted

Philips CoreLine FastSet is a 1:1 energy-efficient LED replacement for conventional indoor wall lights. With identical lumen packages to fluorescent lighting, there's no need to make new lighting calculations for retrofit projects – thanks to the all-in-one design, you can switch between correlated color temperatures (CCT) and lumen package in the same luminaire to suit your exact needs. Installation of these wall-mounted LED lights is fast and flexible too with a choice of simple through-wring, or cable entry from the side or back of the luminaire. That means CoreLine FastSet indoor wall lights are easy to mount as a standalone fixture, directly to the wall or using brackets. It is also easy to connect them to other CoreLine FastSet luminaires to create harmonious lines of light. Should you require it, accessories are also available to adapt the CoreLine fixtures for suspended mounting. As you'd expect from Philips, safety is designed into every CoreLine FastSet luminaire. Not only are the IP44 and IK06 rated to protect against accidental impact, the captive safety pins on the luminaire cover also prevents it from falling. Interact Ready options are available for smart lighting applications. So with CoreLine FastSet wall-mounted LED lights, you have the perfect solution for high circulation areas such as hallways and staircase lighting.

CoreLine Fastset, Wall-mounted

Benefits
· Retrofit replacement in energy-efficient LED
· All-in-one: switch between a choice of two lumen packages (3000 lm, 6000 lm)
  and two color temperatures (3000K, 4000K) in one luminaire
· Install as standalone fixtures or connect to create lines of light
· Fast and easy installation
· Choice of mounting options: direct to wall or using brackets

Features
· Up to 140 lm/W
· Identical lumen packages to fluorescent 2400-6000 lm
· Choice of standard lengths: 600mm, 1200mm and 1500mm
· Easy installation with simple through wiring and three cable entry options
· Accessories available for suspension and line mounting
· IP44 protection and IK06 impact resistance
· Interact Ready version available for smart lighting applications
· On/Off, DALI and connected versions available

Application
· Offices
· Parking Garages
· Education
· Healthcare
· Schools

General Information

Driver included	Yes
Number of gear units	1 unit
Service tag	Yes

Light Technical

Color rendering index (CRI)	>80
Optic type	Opal

Operating and Electrical

Protection class IEC	Safety class I
Input Voltage	220 to 240 V
Line Frequency	50 or 60 Hz

Mechanical and Housing

Housing Color	White
Mech. impact protection code	IK06
Ingress protection code	IP20/44

Approval and Application

Ambient temperature range	–20 °C to 45 °C
CE mark	Yes
ENEC mark	ENEC mark
Flammability mark	For mounting on normally flammable surfaces
Glow-wire test	Temperature 650 °C, duration 30 s
Flickering value (PstLM) – Flickering value as per EN 61000-3-3	1
Stroboscopic effect visibility measure (SVM)	0.4

Initial Performance (IEC Compliant)

Luminous flux tolerance	+/-10%
