Reliable non-maintained emergency light twin-head

Emergency Light LED Twin-head

Safety is important for building owners, and therefore having proper emergency lighting in place is a major concern for them. The Emergency twin-head EM120C offers an easy solution for stand-alone emergency lighting, with non-maintained mode and self-test function.The lithium battery (LiFePO4) has many advantages over nickel-based products, as it has a longer lifetime, better discharge behaviors, is produced in a more welfare friendly way and can be recycled.

Benefits
· Welfare friendly solution versus nickel-based products as the battery can be recycled
· Lithium based battery type provides longer lifetime, low self-discharge and high temperature tolerance.

Features
· 3 hours battery duration when full charged
· Self-test function
· LFP is designed environmentally friendly.
· Non-maintained mode

Application
· Airports
· Offices
· Retail

Emergency Light LED Twin-head

Specifications
