# Stand-alone 3 hours compliant emergency lighting spot

# **Emergency Spot**

Safety is important for building owners, and therefore having proper emergency lighting in place is a major concern for them. The Emergency spot EM150B offers an easy solution for stand-alone emergency lighting, that is fully compliant with European regulations. The lithium battery (LiFePO4) has many advantages over nickel-based products, as it has a longer lifetime, better discharge behavior, is produced in a more welfare friendly way and can be recycled. Two interchangeable lenses are supplied with the product, to adjust the beam angle to the application.

#### Benefits

- Meets European standards for emergency lighting luminaires.
- Lithium based battery type provides longer lifetime, low self discharge and high temperature tolerance.
- Welfare friendly solution versus nickel-based products as the battery can be recycled.

#### Features

- Two interchangeable lens optics; corridor and open area
- Non-Maintained Emergency lighting
- $\cdot$  3 hours emergency lighting
- $\cdot$  Manual and Self-Test options

#### Application

- $\cdot$  Exit and Emergency
