

Enabling the future with LED drivers for retail and hospitality premises

Xitanium LED downlight and spotlight drivers

Xitanium LED drivers are leading the way in terms of reliability

Benefits

- Xitanium drivers are specified with their long lifetime, an operating window, Safety Extra Low Voltage (SELV) circuits, hot wiring, central DC operations and a plug-and-play feature via a single current range
- Thanks to SimpleSet, configurability gives you flexibility and differentiation possibilities
- Application-oriented features make it applicable to different segments (office, retail, hospitality)

Features

- Best-in-class TLA performance for very high quality of light
- Various housing form factors; mini housing for small luminaires, in-track version for spots and independent versions (WH, R) for downlights and panels
- Available in fixed output, dimmable drivers for phase cut dimming and DALI protocol and wireless versions
- The power ratings and related operating windows range from 10 to 50 W
- Five-year warranty

Application

- Retail
- Hospitality
- Office
