

# Widest product range in the world!

## **MASTER PL-T 4 Pin**

MASTER PL-T is an efficient compact fluorescent lamp, typically used in general downlights for retail, hospitality and office applications demanding higher lighting levels. The original Philips-invented bridge technology guarantees optimum performance in the application, enabling more light and higher efficacy than the bended technology. The 4-pin version is designed for operation on electronic gear and is provided with a plug-in/pull-out lamp base.

#### **Benefits**

- $\boldsymbol{\cdot}$  Optimal light performance for short or long operation per switch-on
- Substantially more light (about 15% more) per light point than with other similar shapes
- · Multiple light color choice
- Good color rendering (CRI >80)
- · Dimming possible down to 10%

#### **Features**

- 4-pin base
- Philips' bridging technology applied
- Fluorescent tri-phosphor technology
- · Low light depreciation over lamp life
- · Fast light run-up

#### **Application**

- Designed for general or supplementary lighting in professional and semiprofessional environments
- Ideal for use in recessed or surface mounted downlighters, wall units, outdoor lighting
- · First choice for short switching cycles, emergency lighting and deep dimming

#### **Warnings and Safety**

- Lamp light technical and electrical characteristics are influenced by operating conditions, i.e. lamp ambient temperature and operating position as well as applied HF control gear
- $\cdot$  Shorter lamp life when often switching and not well pre-heated electrodes
- A lamp breaking is extremely unlikely to have any impact on your health. If a lamp breaks, ventilate the room for 30 minutes and remove the parts, preferably with gloves. Put them in a sealed plastic bag and take it to your local waste facilities for recycling. Do not use a vacuum cleaner.
