

# Trusted performance. Every day.

### Ledinaire surface-mounted SM065C

The Philips Ledinaire surface–mounted (SM065C) range features a selection of popular off-the-shelf LED luminaires that offer Philips high quality at a competitive price. Reliable, energy–efficient and affordable, this latest generation of 600 x 600 mm Ledinaire LED surface–mounted lights are designed for diffuse, comfortable lighting in a wide range of general lighting applications—just what you need.

#### **Benefits**

- · No risks, trusted performance
- · Good quality, easy to use
- · No confusion, easy product selection

#### **Features**

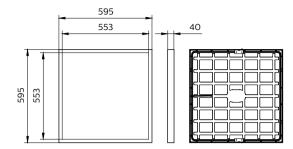

- Surface-mounted versions
- · Modern, unobtrusive design
- Energy efficient up to 120 lm/W
- · Long lifetime of 75,000 hours @L70 and 50,000 hours @L80
- $\boldsymbol{\cdot}$  Office compliant (OC) and non-office compliant (NOC) versions available

#### **Application**

- Offices
- Education
- · Healthcare

# Ledinaire surface-mounted SM065C

| General Information                   |                   |
|---------------------------------------|-------------------|
| Driver included                       | Yes               |
| Number of gear units                  | 1 unit            |
|                                       |                   |
| Light Technical                       |                   |
| Correlated Color Temperature (Nom)    | 4000 K            |
| Luminous Efficacy (rated) (Nom)       | 120 lm/W          |
| Luminous Flux                         | 4,100 lm          |
|                                       |                   |
| Operating and Electrical              |                   |
| Protection class IEC                  | Safety class II   |
| Input Voltage                         | 220 to 240 V      |
| Line Frequency                        | 50 or 60 Hz       |
| Power Consumption                     | 34 W              |
| Suitable for random switching         | Not applicable    |
|                                       |                   |
| Controls and Dimming                  |                   |
| Dimmable                              | No                |
| Maximum dim level                     | Not applicable    |
|                                       |                   |
| Mechanical and Housing                |                   |
| Mech. impact protection code          | IK02              |
| Ingress protection code               | IP20/40           |
|                                       |                   |
| Emergency Operation                   |                   |
| Central Emergency                     | No                |
|                                       |                   |
| Approval and Application              |                   |
| Ambient temperature range             | -10 to +35 °C     |
| CE mark                               | Yes               |
| ENEC mark                             | -                 |
| Flammability mark                     | For mounting on   |
|                                       | normally          |
|                                       | flammable         |
|                                       | surfaces          |
| Glow-wire test                        | Temperature 650   |
|                                       | °C, duration 30 s |
| Flickering value (PstLM) - Flickering | 1                 |
| value as per EN 61000-3-3             |                   |
|                                       |                   |
| Initial Performance (IEC Complian     |                   |
| Initial chromaticity                  | (0.38, 0.38) SDCM |
|                                       | ≤5                |
| Luminous flux tolerance               | -10% / +10%       |
