

# MSR Gold™ FastFit – easy lamp replacement in seconds

## MSR Gold™ FastFit

All lamps burn out eventually, but when this happens with single ended MSR Gold™ FastFit, it is replaced in seconds – thanks to the specially designed lamp base and lamp holder. This lamp provides a high beam intensity of pure, white light for a truly illuminating performance, while the gold-plated caps provide superior heat protection and prevent premature failure. P3 technology allows use in any position and at higher temperatures, further extending lamp life and consistency of high-quality light output. Also, because the FastFit design is applied to Philips Halogen lamps, switching between lamp technologies can be done quickly and easily. The Philips MSR Gold<sup>TM</sup> 1200 FastFit can be operated in a lamp wattage range between 800W and 1400W.

#### **Benefits**

- · Lamp replacement in just seconds, exchangeable with halogen lamp
- · High beam intensity
- $\cdot$  Easy handling, smaller and lighter fixtures possible
- · Boostable light levels
- Enables use at higher temperatures in any burning position. Longer lifetime, fewer early failures, consistent performance over time
- · Reduces early lamp or lamp holder failures. Excellent current transfer
- Pure, white light; colour point close to black body line

#### MSR Gold™ FastFit

#### **Features**

- Philips FastFit
- · Very short arc
- Compact design
- · Flexible power range
- · Philips pinch protection
- · Innovative gold plated pins
- · MSR filling

#### **Application**

Entertainment

#### **Warnings and Safety**

• A lamp breaking is extremely unlikely to have any impact on your health. If a lamp breaks, ventilate the room for 30 minutes and remove the parts, preferably with gloves. Put them in a sealed plastic bag and take it to your local waste facilities for recycling. Do not use a vacuum cleaner.
