PHILIPS Lighting

MSR Hot Restrike – instant daylight at any time

MSR Hot Restrike

Thanks to an optimized color temperature and a high color rendering index, the MSR Hot Restrike creates perfect 'daylight' in any condition. Also, the single ended lamp design enables hot re-ignition, which ensures daylight lighting and superb color rendition is always instantly available. They also incorporate the innovative P3 technology, developed by Philips, which allows use at higher temperatures and therefore extends lifetime and consistency of high-quality light output.

Benefits

- Enables use at higher temperatures in any burning position. Longer lifetime, fewer early failures, consistent performance over time
- Perfect daylight color due to 6000K temperature with excellent color characteristics required for the set
- No arc movement
- \cdot High lumen output
- \cdot High beam intensity
- \cdot Hot re-ignition is possible ensuring the availability of the light at any time

Features

- \cdot Philips Pinch Protection
- ・MSR filling
- Optimal discharge tubes geometry
- \cdot High efficacy
- \cdot Single ended lamp concept
- \cdot Hot Restrike capability

MSR Hot Restrike

Application

- \cdot Indoor and outdoor filming
- \cdot Theaters
- Professional photography
- Solar simulation

Warnings and Safety

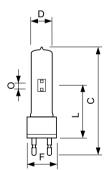

• A lamp breaking is extremely unlikely to have any impact on your health. If a lamp breaks, ventilate the room for 30 minutes and remove the parts, preferably with gloves. Put them in a sealed plastic bag and take it to your local waste facilities for recycling. Do not use a vacuum cleaner.
