Sophisticated yet simple energy-efficient lighting control solutions

Dynalite User Interfaces

Regardless of the level of integration and range of available functions, a control system requires an intuitive end-user interface, so that users can easily schedule and activate the various control functionalities. Philips Dynalite user interfaces come in a broad range of Keypads, touchscreens and wiring devices – with a rich variety of styles and finishes to match any project budget, level of interactivity, or décor requirements.

Benefits
· User interfaces for automation systems from standard up to premium
· Fully customizable in terms of functions and aesthetics
· Flexibly programmable during and after commissioning

Application
· Retail and Hospitality, Office and Industry
· Public spaces, Stadiums and multi-purpose Event Centers
· Residential
