High quality light

- Warm white light 2700K

Highlights

Long lifetime up to 50,000 hours

Reliable high-quality LED light lasts up to 50,000 hours. You can rest easy knowing that you won't have to worry about maintenance for years, while enjoying the perfect garden light every night.

Ultra Efficient

Consumes at least 50% less energy as compared with equivalent standard LED lights from Philips.

5 year warranty on LED system

In addition to the standard 2-year warranty offered for this luminaire, Philips also offers a 5-year warranty on the LED system (the LED module and driver).

High quality aluminum and superior synthetics

This Philips light is made specifically for outdoor spaces. It's hard-wearing and built to last, so it will light up your garden night after night. It's constructed from high quality die-cast aluminum and superior synthetics.

Durable design

Protected by PowerShield To keep your outdoor lights in excellent condition, we use a high-performance powder coating powered by Interpon, an AkzoNobel brand. Tougher than traditional paints, it protects against fading, scratches, dents, and rust for long-lasting beauty and performance.

IP44 - weather proof

This Philips outdoor light is especially designed for humid outdoor environments and has been tested rigorously to ensure water resistance. Its IP44 rating means that it has been certified to offer ingress protection against dust and splashing water—perfect for general outdoor use.

Bi-directional light effect

This Philips outdoor luminaire creates the perfect ambience in your garden or terrace with its Bi-directional light effect.

Warm white light 2700K

Did you know that different shades of white light are identified by different color temperatures, measured in Kelvin (K)? Lower color temperatures produce a warm, cozy white light, while higher color temperatures produce a cool, more energizing white light. This luminaire produces warm, relaxing light at 2700 K.

Specifications

Design and finishing

- Color: Anthracite
- Material: Metal

Durability

- Nominal lifetime: 50,000

Environmental

- Disposal of the product: At the end of (economic) life, dispose the product according to local rules and do not dispose the product with regular household waste. The correct disposal of your product will help prevent potential negative consequences for the environment and human health.
