Outdoor Camera

What's going on out there? Never be in the dark with the weatherproof WiZ security camera—perfect for keeping an eye on your property after nightfall. With the camera's infrared lights, you can see what's happening even in the dark, while the camera's live view keeps you informed at any time and in any place. Maintain control of your home even when you're away with automated event notifications that you can act on immediately by activating two-way talk or triggering visual alarms using your WiZ lights.

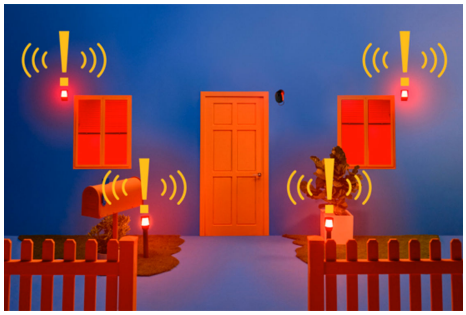
PRODUCT HIGHLIGHTS

- End-to-end encryption
- Full HD video and IR night vision
- Outdoor rated

Connected outdoor camera to your WiZ smart lighting system
It's not just the WiZ app that can control your camera. Use Amazon Alexa or Google Assistant and stream your camera feed on supported displays. Capabilities and functionalities vary from system to system.

Detect potential security incidents
The WiZ outdoor camera automatically notifies you when motion or sound is detected outside your home. Enjoy peace of mind even when you're away!

See what's happening at home
Check on your home anytime and from anywhere, with our real-time video streaming feature. Experience peace of mind when far away, by assessing all incident notifications, seeing what's going on in your home and avoiding false alarms.



Light alarm works with WiZ Lights
When away on vacation, make it appear that someone is at home by setting your WiZ lights on and off automatically, simulating presence at home, discouraging potential intruders. Plus, you can also set your lights to flash, should an incident be detected, notifying your neighbours of any unwelcome activity.

Simulate your presence with light
Simulate presence at home with automated scheduling of your lights as part of monitoring routines. The lights can also react to events with a light alarm mode.

Take immediate action
Communicate directly with anyone near the camera while live streaming. The built-in speaker and microphone enables an easy, remote conversation with your family. Or use it to warn any unwanted visitors.

SPECIFICATIONS

DESIGN AND FINISHING
Color: Black
Material: Plastic

MISCELLANEOUS
Especially designed for: Outside

PRODUCT DIMENSIONS AND WEIGHT
Net weight: 1 lb
Cable length: 3,000

SERVICE
Warranty: 2 year(s)

TECHNICAL SPECIFICATIONS
IP code: IP54 | Dust-accumulation-protected and splash-proof
Class of protection: Class III - Safe Extra Low Voltage
Camera lens field of view (degrees): 120
Camera adapter: Yes
Camera digital Zoom: No
USB connection adapter: USB-A

THE CAMERA
Max. video resolution: 1080P
Video modes: 1080P
Video features: 30FPS
Motion detection: Motion, People & Sound detection
