- Ultra Efficient Solar

Designed for outdoors
- IP44 - weather proof

Special characteristics
- Dual-brightness light
- Motion and Dusk-to-dawn sensor integrated

High quality light
- Bright white light 3000K

Highlights

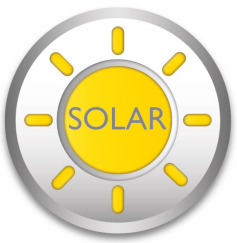
No wiring requried

This light is powered entirely by solar energy. No wiring is needed, making these lights easy to position and reposition anywhere in your garden or other outdoor area.

Long lifetime up to 50,000 hours

Reliable high-quality LED light lasts up to 50,000 hours. You can rest easy knowing that you won't have to worry about maintenance for years, while enjoying the perfect garden light every night.

Ultra Efficient Solar



With the Philips Ultra Efficient Solar system, these luminaires provide light for up to 35 hours on a fully-charged battery. Enjoy bright light all night, or even in bad or overcast weather conditions.

IP44 - weather proof

This Philips outdoor light is especially designed for humid outdoor environments and has been tested rigorously to ensure water resistance. Its IP44 rating means that it has been certified to offer ingress protection against dust and splashing water—perfect for general outdoor use.

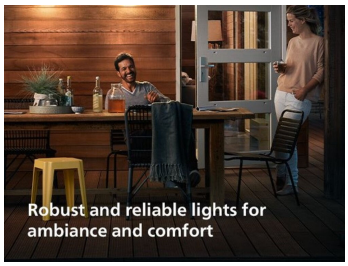
Dual-brightness light

Create a flexible and appealing ambiance with the dual-brightness feature. The light dims when idle and automatically brightens when people are present, delivering the right level of light whenever you need it.

Motion and Dusk-to-dawn sensor integrated

With a built-in motion sensor, these lights automatically welcome you when you return home after dark, or light up when visitors arrive. The unique dusk-to-dawn feature turns the lights on automatically when it gets dark outside--perfect for those long summer evenings or to ensure your safety.

Bright white light 3000K



Did you know that different shades of white light are identified by different color temperatures, measured in Kelvin (K)? Lower color temperatures produce a warm, cozy white light, while higher color temperatures produce a cool, more energizing white light. This luminaire produces bright white light at 3000 K.

Specifications

Design and finishing
- Color: Black
- Material: Plastic
