HBY LED High bay

12,000 to 36,000 lumens

Control options available

Day-Brite / CFI HBY LED high bay provides durability in an appealing compact form. With a wide range of lumen packages, optical distributions, and accessories available, this luminaire can be used in many different applications ranging from warehouses and manufacturing facilities to retail outlets and natatoriums.

Project: _____

Footnotes

- Nominal delivered lumens at 25°C ambient
- Not available with BSL10LST option
- Must specify line voltage
- Do not use with XTM option luminaire in natatoriums or other corrosive environments.
- High bay motion detector. Motion sensing zone is extremely limited if used below 15' mounting height.
- 6' is standard cord length. For optional 10', 15', or 20' cord length, replace the "6" in the option code with desired length.
- Not available with SWZCSH or SNH200 option

General Notes

- All options factory installed.
- All accessories are field installed.
- Many luminaire components, such as reflectors, refractors, lenses, sockets, lampholders, and LEDs are made from various types of plastics which can be adversely affected by airborne contaminants. If sulfur based chemicals, petroleum based products, cleaning solutions, or other contaminants are expected in the intended area of use, consult factory for compatibility.

Wiring Notes

- Standard cords have 3 wires. Consult factory for other cord options.

Accessories (order separately, see last page for details)

- HCH5-SNAP⁴** 5' cables with snap hooks
- HCH10-SNAP⁴** 10' cables with snap hooks
- HCH15-SNAP⁴** 15' cables with snap hooks
- HBY-ADJHGR⁴** Adjustable hanger
- HBY-ADJHGR-XTM** Adjustable hanger for Extreme Environment
- HBY-IND⁴** Hanging bracket pair for indirect suspension
- HBY-IND-XTM** Hanging bracket pair for indirect suspension for Extreme Environments

ready.

HBY LED high bay

12,000, 18,000, 24,000, 30,000 & 36,000 lumens

Application

- This luminaire can be used to illuminate manufacturing, warehousing, gymnasiums, arenas and many other large indoor spaces with control and precision. **Construction/**

Finish

- Die cast aluminum housing provides excellent thermal transfer to extend component life.
- Tempered glass lens with molded gasket seals the optical compartment.
- Cable/chain mounting capability is standard (ordered separately or furnished by others). Accessories are available for other mounting methods.
- Polyester powder finish on all die cast parts for excellent impact and corrosion resistance.
- Each unit comes standard with 6' 16/3 wired cord (see options for other wiring configurations).
- LED light engines and drivers are field replaceable.
- 5 Year Limited Warranty, www.signify.com/warranties
- Components are RoHS compliant.
- L70 LED predicted lumen maintenance >100,000 hours
- cETLus listed to UL 1598 standards. Suitable for use in wet locations.
- NSF Certified option for Non-FoodZone installation.
- Standard construction is IP65.
- Dimming drivers are standard. Control is 0-10V DC. Note: proper cord options required to use dimming controls.
- Optional motion detector.
- DLC Listed. Please check the DLC
- 6KV surge protection standard.
- XTM Extreme Environment option provides extra protection from heat and chemicals. Finish coating, stainless steel hardware and LED upgrades allow use in areas such as natatoriums.

SNH200 EasySense

- Philips field apps allow programming of occupancy & daylight sensing parameters and fine-tuning of light levels during installation. It can also be used for grouping of fixtures.
- Download "Philips field apps" from the Google Play Store.
- Register for the commissioning app at <http://registration.componentcloud.philips.com/appregistration/>.
- The app works on certain Android phones with NFC or IR. See Recommended Phones and the EasySense App User Manual in the download section at <http://www.usa.lighting.philips.com/products/lighting-components/easysense> and follow the "View Downloads" link to register for access to the download area. Navigate to Connected-Lighting-Components and then Philips-EasySense-Sensors to find downloads.

Interact Pro scalable sensor for Foundation, Advanced & Enterprise tiers (SWZCSH and an evolution of SpaceWise)

- SWZCSH is a connected sensor with integral occupancy and daylight sensing and supports wireless mesh connectivity.
- The sensor works in the Foundation mode (similar to SpaceWise) when configured without a gateway or in an Interact Pro Advanced or Enterprise mode if a compatible gateway is used.
- Interact Pro includes an App, a portal and a broad portfolio of wireless luminaires, lamps and retrofit kits all working on the same system.
- Startup is implemented via Interact Pro App (Android or iPhone) & Bluetooth connectivity. The App provides flexibility to choose between a gateway or non gateway mode for setup.
- Setup with the gateway requires wired internet access to the gateway. It is possible to add a gateway at a later point.
- Prepare project configuration steps remotely and use IRT9015 remote onsite to identify and group devices together.
- Compatible with:
 - UID8451/10 wireless dimmer switch
 - SWS200 wireless scene switch
 - Battery powered IP42 presence sensor OCC sensor IA CM WH 10/1
 - Battery powered IP42 presence & daylight sensor OCC-DL sensor IA CM IP42 WH
 - LCN3110/05 battery powered IP65 presence sensor OCC sensor IA CM IP65 WH
 - LCN3120/05 battery powered IP65 presence & daylight sensor OCC-DL sensor IA CM IP65 WH
- For more information on Interact Pro visit: www.interact-lighting.com/interactproscalablesystem
