Halogen non-reflector lamps – high-quality light and easy to use

Halogen non-reflector

Halogen non-reflector lamps offer high-quality light and are easy to install, replace and operate. All halogen non-reflector lamps incorporate a distortion-free quartz bulb and a precise positioning of the mounted filament. These ensure optimal beam performance and consistent, high light output. A wide range of wattages is available for a broad variety of applications, including projection systems. In addition you get all the proven advantages of halogen technology such as a full spectrum and a color rendering index (CRI) of 100 – the same as natural light and the best that it can be. Halogen lamps also create a comfortable warm white light, and they maintain their lumen output, with almost no reduction, throughout their lifetime.

Benefits
· Optimal beam performance
· 100% Color Rendering Index (CRI)
· Constant light output throughout lifetime

Features
· Distortion-free, quartz bulb and precisely defined filament position
· Lamp replacement without adjustment
· XHP version with xenon gas for maximum light output
· Flat filament available
Halogen non-reflector

Application
· Studio, film, theatre and disco lighting
· Slide, overhead, profile and 8/16 mm film projectors
· Microscopes
· Optical equipment
· Slide and film viewers
· Surgery lamps
· Microfilm readers
· Dental lamps
· Spectrography
