

A seamless 1.75" ribbon of light with exceptional performance and versatility for functional and decorative applications.

TruGroove surface micro

TruGroove surface micro drives performance beyond the edge. Innovative optics deliver exceptional uniformity and wide row spacing from a 1.75" aperture continuous line of light. Unique Quad Optic louver cells offer a wide range of options from graze to stack to asymmetric wall wash exceeding the demands of the most challenging spaces.

Benefits

- Elevate performance to a whole new level in narrow aperture lighting
- Wide row spacing enabling fewer fixtures and lower energy consumption
- 20+ Lighting distributions which are ideal for a variety of applications
- Innovative quad optic louver cell provides visual comfort with performance
- Smaller and more versatile

TruGroove surface micro

Features

- MesoOptics producing true batwing distribution
- AccuRender CRI 90 available in 5 color temperatures or tunable white
- Interact Pro scalable sensors
- Multiple up/down lumen package options
- Symmetric, asymmetric, direct, indirect, and direct/indirect distribution options
- Suspended, surface and wall mount versions
- Lens/louver combinations available

Application

- Office
- Retail
- Education
- Healthcare
- Hospitality
- Airport
- Library
