

**Calculite LED 6" generation 3** features industry leading visual comfort, excellent uniform illumination over time, and patented installation flexibility. Industry leading visual comfort and uniform illumination make it an ideal choice for office, institution, healthcare, public, and retail applications. Tunable white technology provides dynamic flexibility to fully capture application ambiance and enhance behaviour by supporting biorhythms.

				<b>F</b> Flangeless (requires CA6RFT)	
				<b>F</b> Flangeless (requires CA6RFT)	

### Accessories

<b>CA6RFT</b>	Mud-in ring for use with flangeless installations (ordered with a flangeless trim)
<b>CAEM6</b>	Field installable EM pack
<b>C6RVPWH</b>	IP65 rated vandal proof matte white accessory that mounts onto a flangeless trim (not available for use with Lensed Wall Wash)
<b>SWCS</b>	Interact Ready System Bridge accessory w/integral occupancy & daylight sensor (compatible with all 0-10v options, see <b>SWCS spec sheet</b> ) — Requires IRT9015 IR remote & Interact Pro App for commissioning.
<b>T347-75VA</b>	347:120V step-down transformer for non-IC (N) frame only (see page 2 for details)

- Emergency (EM6) frame is compatible with reflector mounted test switch when trim (LW not avail.) is ordered with IEM6 option code (not compatible with 347V).  
For remote mount switch, order standard trim and CAEM6TSCP mounting plate accessory. EM mode on 6500K circuit only.
- Medium (M) beam recommended for all Wall Wash (LW, WW, CW, DW) applications.
- Corner (CW) and Double (DW) wall wash are not available with flangeless (F) option.
- Linear driver profile. See page 5 for details (enables wireless connected lighting control).
- LW style requires remote mounted EM6 test switch. Order with CAEM6TSCP test switch mounting plate.

# C6RTW Calculite LED 6" gen 3

## Round Tunable White

### Frame-in-kits

#### New Construction

Galvanized stamped steel for dry or plaster ceilings. Preinstalled telescoping mounting bars from 13" to 24". For 4' distances, use 1/2" EMT, 1-1/2" x 1/2" U or C channel.

**Max ceiling thickness is 2".**

#### Patented install Mounting frame

Pre-installed mounting bars for fast and toolless installs into T-grid & hat channel ceilings.

Close-cut aperture design eliminates possibility of gap between ceiling opening & reflector flange.

Separate wiring compartment for wiring frame to building allows inspection prior to light engine install.

Simple plug-and-play connection between frame and light engine from below ceiling.

### Emergency

Bodine BSL6 6W battery pack with self-test/diagnostic functionality. Factory mounted to frame.

- For trim with integral emergency test switch, order trim with IEM6 option (ex: C6RDLCCIE6). Not avail. for LW style.
- For remote ceiling mounted test switch, order standard trim (ex: C6RDLCC). Optional accessory ceiling mounting plate available (CAEM6TSCP) for remote mounted test switch (required for LW style).
- EM mode is on 6500K circuit.
- To estimate lumen output in emergency mode, multiply emergency pack watts by luminaire configuration efficacy, then by 1.1.

### Light Engine

Quick connect power pack comprised of light source and driver allow for easy installation and replacement from below ceiling with no need for additional wiring. This allows for

- Frame and ceiling installation to be performed while still finalizing details such as lumen packages, CCT and control type.
- Easy replacement of electronics at end of life with minimal wasted material and labor required.
- Ease and upgradability of technology.

### Dimming (2-channel)

All configurations are FCC Class A unless otherwise specified. Dimming curves are logarithmic as standard, contact factory for options.

- 0-10V 1% (Z10)
- DALI DT8 1% (D)
- Digital Multiplexing w/ RDM 1% (DMX)
- Lutron T-Series 1% (LTW)

### Optical systems

#### Comfort throughout the space:

- True 50° physical cutoff and 45° reflected cutoff.
- MesoOptics PET optical diffusion film: Provides a smooth beam shape and mitigates color over angle with optimized luminaire efficiency.
- Tunable white (6T): 2700K to 6500K CCT. Use with Z10 dimming only. Fixture-to-fixture consistency of  $\leq 3\text{SDCM}$  at 2700K, 5000K, and 6500K CCT.

### Rated life

55,000 hrs at 85% lumen maintenance based on IES LM-80-08 and TM-21-11 (see page 5 for complete details).

### Options and Accessories

**Flangeless mud-in ring:** Use **CA6RFT** for use with flangeless plaster installations.

**Sloped ceilings:** Compatible with sloped ceiling adapters (see **SCA** spec sheet).

**C6RVPWH:** includes machined aluminum ring painted white, gasketed for IP65 protection, and impact resistant polycarbonate lens (IK10). Locks in place with discrete setscrew (key included). Available also with antimicrobial finish (C6RVPWHAMF).

**CAEM6TSCP:** Ceiling cover plate for remote mounted EM6 test switch. 1/2" (25mm) hole, 4 3/8" (109mm) x 2 3/4" (69mm) rectangular. Includes two mounting screws.

**CAEM6:** Field install EM6 kit with Bodine BSL6 6W battery pack with self-test/self-diagnostic, mounts to new construction frames. Includes remote ceiling plate for test switch. To mount test switch to trim for new construction frame, order trim with IEM6 option code (e.g. C6RDLCCIE6). Refer to Calculite-LyteProfile-EasyLyte Emergency Battery Pack specification sheet for more details

**SWCS:** Interact Ready System Bridge Accessory Requires IRT9015 IR remote and Interact Pro App for commissioning.

**T347-75VA:** Field installable 347:120V 75VA stepdown transformer, attaches to knock out on frame junction box, for use with non-IC (N) or remodel (R) frames.

### Labels and Listings

- cULus listed for wet locations (downlights)
- RoHS certified
- CCEA (frames with \*LC suffix)
- IP65 rated with vandal proof accessory
- Red List Declare label certified, ID SIG-0017 ([View full Declare label](#))

### Warranty

5 year limited warranty

# C6RTW Calculite LED 6" gen 3

## Round Tunable White

### Polished Reflectors

**Specular clear (CL):** Most specular and most efficient finish, delivers maximum photometric performance but can produce a mirror image effect of the interior space.

**Champagne bronze (CZ):** Semi-specular finish that softens light at the source of the reflector while providing a warmer reflector appearance (slightly warmer).

**Comfort clear (CC):** Semi-specular finish that softens the light at the source of the reflector and creates a subtle, even luminance from the reflector cone.

**White (WH):** (matte) Brightest illuminated aperture and provides the smoothest transition to most ceilings when off (white is only available with a white flange).

**Comfort clear diffuse (CD):** Slightly diffuse clear finish, that eliminates iridescence and reduces the mirror image effect inherent with specular finishes.

**Black (BK):** (anodized) Specular finish that provides the lowest aperture brightness possible and significantly reduces source identification in a ceiling.

**Vandal proof (VP):** Provides an elegant solution for vandal resistant needs. One piece machined aluminum ring with impact resistant clear lens. Flangeless (F) flange must be ordered. Provides the luminaire with an IK10 impact and IP65 rating.

**Shower light (SL):** Wet location rated shower light with clear acrylic lens applicable in any installation requiring dead front trims, interior or exterior non-corrosive applications, or where a diffused lens at the ceiling is required (non-conductive).

### Flanges

**White (-):** (matte) Provides the smoothest transition to ceilings when off.

**Polished (P):** (matches aperture) Produces a continuous look throughout the reflector (aperture matching). Not available for square trims with CL, CD, CC, and CZ finishes.

**Flangeless (F):** (flush-mount) Creates a flush, virtually seamless transition from aperture to ceiling.

**Mud-in ring (FMR):** Low profile, non-metallic mud-in ring provides a raised rib to plaster up to and a 3/16" flange thickness. The ring is attached to the ceiling material as opposed to the frame-in kit to avoid conduction of heat and vibration which can cause yellowing or cracking of the plaster.
